Legal and regulatory issues for custodians and administrators of digital assets

9 MAY 2019

There are many different types of cryptocurrency wallet, some of which offer more functionalities than simply storing keys. Regulators have, to a large extent, approached digital assets including cryptocurrencies in one of three ways. In the UK, for Art 40 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 to apply, both the safeguarding and

administering of assets must be carried on.

Can blockchain live up to the hype?

28 JUL 2016

Is blockchain the revolutionary technology that will rewrite the rules for the finance industry, identifying authenticity and verifying payment flows that arise at a business-to-business level or between business and consumers and peer-to-peer? The consequences of the blockchain evolution would significantly open the field for technology platforms and reduce operational costs.

Global Financial Markets Insight - Issue 10, 2016

28 JUL 2016

Finance and Markets Global Insight Series

On 23 June 2016, the UK electorate voted to leave the European Union in a so-called Brexit referendum. The exit result was a surprise for many working in the finance sector. The change will impact the position of the UK under critical legislation such as the Capital Requirements Regulation, European Market Infrastructure Regulation, Market Abuse Regulation and many other Regulations and Treaties applicable in the UK. We will also see a change as to the role of the UK in significant market initiatives such as the Capital Markets Union. It is likely that these changes will present both threats and opportunities. Until policy is clearer, we will comment on some of the existing challenges caused by EMIR and similar EU Regulations.
