Technology sector poised for big data wave in finance and sales departments – DLA Piper European Tech Index

12 DEC 2018

Harnessing big data is becoming standard practice for IT and marketing teams in technology, but DLA Piper's 2018 Tech Index reveals that a revolution may now be underway in finance and sales departments as well. Responses from 350 tech sector senior executives in Europe indicate that compared to 2016, organizations are increasingly identifying new opportunities in these additional departments, indicating a move towards widespread adoption of big data in the tech sector.
