

Cybersecurity

In today's interconnected world, virtually all companies, their suppliers and their customers are potential targets for cyber attacks. The risks associated with such incidents require a robust cybersecurity program in order to manage this fast-changing risk and remain in compliance.

Our global multidisciplinary team of lawyers and operational consultants advise on all issues surrounding cyber security, from building cyber resilience, through to incident response, and post-incident remediation, providing a holistic and tailored client service.

Click to enlarge

Risk mitigation - In order to ensure organizations are best placed to respond to an incident we help design and implement corporate governance structures to protect companies and their directors; offer privileged tools to assess risk and comply with evolving regulatory requirements; advise on developing and refining sound corporate policies and strategies to create and maintain a culture of security; and responsible supply-chain and vendor risk management techniques and contract support.

Incident response - We have helped clients through more than 800 security incidents globally. Our team can provide the experienced support you need 24x7 with confidence. We understand the legal and regulatory landscape in depth, having helped to draft almost all of the US data security and state breach notice laws and develop important best practices. We work as a cohesive team bringing a coordinated response to investigations and incidents on a worldwide basis.

Holistic approach - We combine technology, incident response, litigation, insurance and employment, and sector-adapted experience to give in depth support. We use round-the-clock communication protocols and a common methodology for immediate coordination and response. Wherever you may be, we can assemble an integrated team of the world's top cybersecurity technicians and lawyers, helping address your security problem, while cloaking those efforts in privilege (to the extent possible), anywhere in the world, within 24 hours of our first notification.

Global capabilities - Our team works together on a weekly basis and shares the same values and vision of client service. We provide a quick and consistent response to the cyber security needs of any organization. We match geographic and substantive breadth with depth, combining our technical knowledge of data protection, data risk and cyber security, cyber risk insurance policies, data transfer, records management, confidentiality, use of social media for business with practical experience and understanding of business imperatives.

Highly regarded - Our Cyber Security team was recently ranked by BTI Consulting Group among the Top 7 cyber security law firm practices. Many of our lawyers are recognized as leading individuals in their jurisdiction, and our global Data Protection, Privacy and Security practice is consistently recognized and top-ranked among our peers in the US, EU and globally by The Legal 500, Chambers & Partners, and other respected industry directories.

What we offer

We offer clients practical guidance through the cyber lifecycle, including:

Planning, design and preparation - building cyber resilience: our assistance includes ensuring clients have appropriate measures in place to manage cyber risk and respond effectively to a cyber-incident, preserving legal privilege and mitigating potential litigation and reputational risks. This includes bespoke training to relevant tiers of stakeholders, supporting the design of incident response plans and helping to lead "tabletop exercises" so that organizations refine and practice their plan to be able to respond swiftly and efficiently.

Incident response and investigations, including immediate access to forensic experts: our advice includes reporting obligations to the relevant supervisory data authorities and other relevant regulators, both civil and criminal. We regularly assist with strategic advice to contain and remediate adverse impacts on businesses, and protecting impact on a brand. We have pre-existing and trusted global relationships with forensic experts to assist with the response to any incident, ensuring swift and seamless instruction on a legally privileged basis, allowing immediate focus on mitigating the root causes of the incident. With over 180 privacy lawyers operating globally we regularly assist large organizations on multi-national compliance and regulatory obligations, ensuring continuity in response.

Post-incident remediation: we help clients to mitigate the impact of any claims or other liabilities resulting from the incident and to learn from the incident through post incident reviews and gap analyses. Our team includes employment, investigation and seasoned litigation lawyers that advise on a wide spectrum of issues relevant to data incidents, including third party claims and potential class actions; direct and officer liability; product / supplier liability; and, where relevant, employee disciplinary action.

Our insights

Rapid Response - From the moment a company learns about a potential breach of cyber security they should be armed with tools to respond quickly and effectively, while ensuring any action that is taken remains protected by legal privilege. Our 'Rapid Response' global crisis management hotline service provides 24-hour, 365-day access to regulatory legal advice and crisis assistance.

"In a Flash!" - A Lesson in Cyber Security - A dramatic film produced by DLA Piper, depicting a fictional corporation dealing with a number of real-world legal and regulatory issues, among them: cyber governance; cyber-risk management; security protocols; incident response plans; the corresponding legal and regulatory environment faced by board members, general counsel and senior business executives; and the delicate balance of managing internal investigations, reporting requirements and stakeholder interests.

Data Privacy Scorebox - Our online "scorebox" is designed to assist with assessing and benchmarking the data privacy maturity level of an organization. The complimentary tool takes the form of a survey which poses a series of questions relating to 12 areas of data privacy, such as storage of data, use of data, and customer rights. It takes no longer than half an hour to complete, with a range of multiple choice answers to select from. Once completed, a report is emailed which includes a visual summary of how the organization scored in relation to key global data protection principles, a practical action point check list, as well as peer benchmarking data.

CAPABILITIES

Our cybersecurity team offers:

- **Proactive risk management.** Before a cybersecurity incident occurs, we work with our clients to assess their internal risk management strategy for responding to cyberattacks and assist in the implementation of proactive policies and procedures that enable them to respond effectively, preserving attorney-client privilege and mitigating potential litigation and reputational risks associated with cybersecurity incidents.

- **Field-tested global crisis management coverage.** We can be on the ground, with an integrated team of the world's top cybersecurity technicians and lawyers, helping solve your security problem and cloaking those efforts in privilege, anywhere in the world, within 24 hours of our first notification. We have established round-the-clock protocols for immediate coordination and response.
- **Connections to more than 40 foreign governments.** We know the regulators, the advocates and many of the journalists who focus on data breaches and draw on this experience to guide our clients' response to a breach incident so as to minimize potential reputational damage.
- **Understanding the US and international cyber-regulatory environment.** We have drafted most of the breach notice laws, offer an online tool summarizing breach notice requirements in 72 countries, and have an unsurpassed understanding of the ever-changing US and international cyber-regulatory environment that we apply to both reactive and preemptive solutions. We also offer products that track these developments.
- **Sector-specific focus.** DLA Piper believes that our legal advice should be as pragmatic and solution-oriented as it is technically excellent. We are attuned to the unique requirements of different sectors and staff our teams with lawyers experienced in the client's sector.

EXPERIENCE

- Assisted with drafting the National Association of Corporate Directors (NACD) Cybersecurity Handbook for corporate directors that has been endorsed by the Department of Homeland Security and posted on the Department's website
- Advising the board of directors of a major financial services institution on cybersecurity governance and information security practices to be implemented with respect to key third-party service providers
- Representing a leading global hotel chain in cybersecurity risk assessment and audit of its global operations
- Representing a telecommunications company in cybersecurity legislative and policy issues including monitoring, analysing and conducting strategic outreach on federal cybersecurity legislation and cybersecurity Executive Order implementation by various federal agencies
- Represented a media company's business unit in connection with an FTC security investigation of alleged security issues with one of its mobile apps
- Representing a large nonprofit organization whose members' information was compromised as part of a large national tax-fraud scheme. We are leading its internal and forensic investigation to determine the source and scope of the breach and are providing advice and counsel in connection with legal and contractual obligations to notify individuals and clients that were affected by the breach

California issues CCPA proposed modified regulations 2.0

12 February 2020

Version 2.0 adds clarity to the proposed California Consumer Privacy Act regulations.

EU MDCG issues new guidance on Cybersecurity for medical devices

27 January 2020

On 7 January 2020, the EU Medical Device Coordination Group published new guidance to help manufacturers fulfil all relevant cybersecurity requirements in Annex I to the new Medical Device Regulations (Regulations 2017/745 on medical devices and 2017/746 on in vitro diagnostic medical devices).

DLA Piper GDPR Data Breach Survey 2020

20 January 2020

According to DLA Piper's latest GDPR Data Breach Survey, data protection regulators have imposed EUR114 million (approximately USD126 million / GBP97 million) in fines under the GDPR regime for a wide range of GDPR infringements, not just for data breaches.

France, Germany and Austria top the rankings for the total value of GDPR fines imposed with just over EUR51 million, EUR24.5 million and EUR18 million respectively. The Netherlands, Germany and the UK topped the table for the number of data breaches notified to regulators with 40,647, 37,636 and 22,181 notifications each.

6 November 2019

NAVIGATING CHINA: THE DIGITAL JOURNEY

The new PRC Encryption Law will come into force on 1 January 2020. It will bring fundamental changes to the sale, import and use of encryption technologies in China by foreign and domestic organizations.

DoD's new cybersecurity compliance program . . . What you need to know

6 November 2019

The Department of Defense is actively developing a new framework for protecting government data and evaluating contractors' cybersecurity compliance known as the Cybersecurity Maturity Model Certification program.

Episode 6: Further developments in PRC data privacy regulations

1 November 2019

NAVIGATING CHINA: THE DIGITAL JOURNEY

An updated draft of China's Amended Personal Information Security Specification (Amended PIS Specification) and proposed new amendments to the privacy specification for mobile apps (App Privacy Specification) were published this week, alongside brand new draft regulations for the banking sector.

Testing and protecting key data processing systems

31 October 2019

Protecting the integrity of key systems through regular evaluation and testing is important to every business that relies on system outputs to process transactions or to make, or help make, transaction decisions.

Wyoming aims to provide legal framework for using blockchain and transacting in digital assets

19 September 2019

The most notable of these new laws.

Breach and cyber incident reporting: disclosure challenges for public companies

13 August 2019

What incident reporting trends are we seeing that affect public companies, and what is SEC staff focusing on in comments related to cybersecurity?

Surviving the service provider data breach

29 July 2019

From the bad guy's perspective, why hack one organization when you can hit a service provider with potentially weaker defenses and the sensitive data of many organizations?

The government in your cloud

24 July 2019

As companies shift more data to the cloud, the US government's ability to access that content should not be overlooked.

Episode 3: Yet more regulators join the party in enforcing cybersecurity

4 June 2019

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

Licensed telcos and internet businesses in China face a new wave of investigations by the Ministry of Industry and Information Technology (MIIT) as they announce a new enforcement campaign aimed at ensuring network security compliance.

Episode 2: New stringent cyber security rules announced in China, what will your business need to do?

29 May 2019

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

Organisations with operations in China must prepare now for new comprehensive cybersecurity rules. The Chinese authorities have announced MLPS "version 2.0", which will come into force on 1 December 2019, and have potential significant impact to businesses' infrastructure and operations in China.

Episode 1: Cyber enforcement starts

21 May 2019

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

China's cybersecurity regulators are now taking their first steps to verify organisations' (including foreign businesses') compliance with China's cybersecurity laws. As anticipated, the focus is on businesses that have an online presence in China.

The twists and turns of the CCPA class action

21 MAY 2019

The range of data elements whose breach could give rise to class-action exposure under the CCPA appears likely to grow.

Court finds that failure to comply with cybersecurity obligations can create False Claims Act liability

20 MAY 2019

Key takeaways about this significant finding.

CCPA update: The California Assembly Privacy Committee begins smoothing some rough edges

26 APR 2019

The California Assembly Privacy and Consumer Protection Committee has begun the important work of clarifying significant ambiguities in the California Consumer Privacy Act.

CCPA vs. GDPR: the same, only different

11 APR 2019

Businesses that have undertaken GDPR compliance will have an advantage in addressing CCPA, but those efforts alone won't suffice.

Sharpen your pencils: California AG's Office announces start of its important CCPA pre-rulemaking and schedule for issuing its important CCPA rules

13 FEB 2019

Because the CCPA is littered with drafting errors and confusing definitions, this AG rulemaking is extremely important.

California Consumer Privacy Act: what's new for retailers?

23 JAN 2019

Particular features of the CCPA affect the retail industry in unique ways.

Supporting the health of your health system

3 JAN 2019

Guidance to help tend to healthcare system wellness throughout the business life cycle.

CCPA: risk of class actions makes early preparation imperative

21 DEC 2018

Failure to address risk mitigation now could lead to significant liability if a company is breached following the CCPA's January 1, 2020 effective date.

Top of mind: Litigation

10 DEC 2018

Our coverage of big compliance, enforcement and litigation issues that businesses are thinking about this quarter.

Device manufacturers have a little over a year to prepare for the first state law regulating the security of Internet of Things devices

27 NOV 2018

California law will require manufacturers of most Internet of Things and Bluetooth connected devices to implement one or more "reasonable security features" by January 1, 2020.

Security breach notification and reporting requirements are now in force under Canada's *PIPEDA*

13 NOV 2018

PIPEDA's obligations are now in force, including detailed regulations relating to breach notification and reporting. *PIPEDA* may apply to US organizations when there is a "real and substantial connection" with Canada.

Obtaining remote epayment authorizations from customers: are you in compliance?

26 OCT 2018

The consequences of non-compliance can be significant.

Corporate spoofing victims beware – the SEC is watching

24 OCT 2018

The SEC urges issuers to consider whether their internal accounting controls are sufficient to provide "reasonable assurances" that corporate assets are safeguarded from cyber-threats.

Record-breaking \$16 million settlement for potential HIPAA violations

22 OCT 2018

The settlement should be viewed as a clear message that OCR will continue to enforce HIPAA vigorously in the Trump era.

Remote notarization: authentication requirements, by US state

14 SEP 2018

A high-level summary of remote notarization laws by US state.

Super-apps complicate corporate compliance, pose heightened risks under FCPA Corporate Enforcement Policy

10 JUL 2018

Super-apps allow seamless interaction between colleagues, customers, suppliers and other business parties. In some jurisdictions, local employees communicate exclusively via such apps – but this conduct presents grave legal, compliance and risk-management challenges.

Online gaming and gambling are changing

28 JUN 2018

Two recent federal court decisions have disrupted the online and mobile gaming and gambling industry in the United States. Shifts are taking place in other jurisdictions as well.

California privacy law poised to alter US privacy landscape

28 JUN 2018

A major development in privacy law.

A short primer on applicable US eSignature laws

2 MAY 2018

Two bodies of law in the United States generally govern the legality of electronic signatures and electronic records: the Electronic Signature in Global and National Commerce Act (ESIGN) and state adoption of the Uniform Electronic Transactions Act (UETA). Here is a quick look at each of them, plus notes on other selected laws governing digital transactions.

DoD suggests flexibility with cybersecurity compliance deadline

30 APR 2018

Cautious optimism that DoD may be more flexible and reasonable than anticipated about the implementation process.

Once more unto the breach: Canada's PIPEDA breach notification and reporting regulations in force November 1, 2018

30 APR 2018

Organizations have about seven months to get ready for compliance.

Ninth Circuit concludes threat of future harm is sufficient for Article III standing, joins Sixth, Seventh and DC Circuits

21 MAR 2018

However, all is not lost for companies facing class actions following a data breach.

SEC advises companies to publicly disclose cybersecurity risks and prohibit insider trading around cybersecurity incidents: action steps for public companies

26 FEB 2018

The SEC is emphasizing the importance of "timely disclosures" and of measures to prevent insider trading based upon cyber-risks or incidents.

Women in IP Law: panel examines divided infringement, cyber-risk

20 DEC 2016

High points from a CLE panel discussion about cutting-edge issues in the IPT space.

Is your cybersecurity upgrade FDA reportable?

28 SEP 2016

Draft guidance lends insight into the way the FDA may apply existing postmarket regulatory requirements to evolving cybersecurity-related technological issues.

Cybersecurity: past is prologue

29 MAR 2016

During 2016, we will likely see another increase in cyberattacks, and we will see cybersecurity being taken more seriously by its potential victims.

NYDFS announces final cybersecurity rules for financial services sector: key takeaways

22 FEB 2017

The Final Rule's reach is very broad and presents operational challenges. It may prompt other states to enact their own rules.

EU: new obligations for digital services providers and operators of essential services

28 JUN 2016

In line with the EU's broader Cyber Security Strategy, the NIS Directive is a significant step towards a more secure cross-border cyberspace with a high shared level of network and information system security.

The blockchain revolution, smart contracts and financial transactions

26 APR 2016

Blockchain-based smart contracts have enormous potential to streamline financial transactions and reduce counterparty risks.

Plan now to use off-band communications during an incident response: key points
