

Data Protection, Privacy and Security

Personal information is an increasingly valuable – and increasingly risky – business asset. As businesses struggle to keep up with the critical, fast-changing data protection laws and face an increasing risk of serious data breaches, DLA Piper is uniquely positioned to help guide clients.

With data protection lawyers around the globe, DLA Piper provides highly sophisticated data management, data security and privacy law advice wherever our clients do business. Our global presence combined with our depth of experience in each region gives clients the important advantage of local knowledge and cultural awareness, combined with consistent, practical advice.

Our team members are very involved in their local compliance culture and maintain close contacts with local regulators in Asia Pacific, Europe and the US. The group has played a major role at the forefront of the development of privacy, data security breach and data security laws around the world. Our data protection team has successfully worked together in recent years to assist more than 100 multinational organizations in the design and implementation of global privacy and security programs including carrying out audit and risk assessments, developing global policies, implementing effective international data transfer strategies, negotiating cloud and other complex international data transfer agreements, and defending dozens of regulator and plaintiff's class action bar enforcement actions.

Core areas include:

- Audits and data mapping
- Compliance programs and policies
- Data subject access and opposition rights
- Data security, data loss prevention and data breaches
- Online and mobile tracking and consumer protection regulation
- E-discovery and investigations management
- Global data transfer management (transfer agreements, BCRs, etc.)
- Incident Response Planning and Execution
- Lobbying and government liaison
- Supervisory authority relations (notifications, authorizations, DPO appointments)
- Whistle-blowing hotlines, employee monitoring and suspect persons screening

- We provide cutting edge global advice to a leading global mobile chip manufacturer on notice, consent, data transfer, access correction and data retention requirements applicable to rolling out a suite of mobile apps that use device identifier data, location data and offer geo-fencing capabilities. In addition, we have advised the company on Chinese requirements related to storage of data in China, on application of the US COPPA children's privacy rule to the company's technologies and on the US multi-stakeholder negotiations on mobile app short-form privacy notices.
- We designed and advised on the implementation and rollout of a whistleblowing hotline for a leading pharmaceutical company across the European Union. The outcome of this project was a whistleblowing hotline compliant in 29 European countries, with as little modification as possible on a country-by-country basis. The multi-year process involved liaising with counsel in the relevant countries, producing documentation for employees, drafting key agreements between group entities and service providers, and creating internal operational guidance documentation for use in investigations.
- We are the appointed exclusive data protection advisor to the world's largest fashion retailer. The appointment began with a 51-country multi-year compliance audit of all its subsidiaries operating under its 8 global retail brands. This exercise was unique because, in addition to document reviews and interviews, we conducted extensive on-site audits of all operational functions within the organization, such as sales, marketing, online sales, finance and vendor management. The review covered Milan, Paris, Moscow, Shanghai, Beijing, Hong Kong and Macau.
- We advise a large communications company on privacy compliance issues related to information practice and digital advertising on its cable, internet and telecommunications service and with regard to the company's cyber-security program. We are providing compliance and strategic advice on new proposed data use cases, revisions to their privacy policy and consumer opt-out mechanisms. We are assisting the company before self-regulatory organizations and in responding to congressional and regulator inquiries. We are also providing strategic advice to one of their companies regarding its cyber-security and mobile privacy initiatives and advising the company on data security strategies as well as representing a business unit in an FTC mobile app security investigation.
- We represent a global pharmaceutical company with the rollout of a follow-the-sun customer service response model for product inquiries. The project includes the following activities related to privacy compliance in Latin America, Asia-Pac and Europe: analysis of privacy notice and consent requirements, review of security requirements in a number of Latin American countries, and the drafting, localization and implementation of a global intra-group data transfer agreement for compliance purposes, in order to support the follow-the-sun customer service model.
- Representing a coalition of 20 major communications, Internet, media and retail companies we have helped to draft all of the U.S. state privacy, security and e-commerce legislation that has become law over the past eight years.

DLA Piper GDPR data breach survey: February 2019

6 FEB 2019

On 25 May 2018 new data breach notification laws came into force across Europe which fundamentally changed the risk profile for organizations suffering a personal data breach.

Under the EU General Data Protection Regulation - 'GDPR' - personal data breaches which are likely to result in a risk of harm to affected individuals must be notified to data regulators. Where the breach is likely to result in a high risk of harm, affected individuals must also be notified.

The price of data security

16 MAY 2018

Are GDPR fines insurable in the countries where you operate?

The General Data Protection Regulation (GDPR), effective from 25 May, revolutionises the data protection regime and significantly affects how organisations worldwide collect, use, manage, protect, and share personal data that comes into their possession.

As personal data increasingly represents an important new class of economic asset for organisations, GDPR has significantly increased the enforcement powers available to regulators.

In long-awaited TCPA case, DC appellate panel vacates material sections of FCC's 2015 TCPA order

2 MAY 2018

Because of the federal Electronic Signatures in Global and National Commerce Act (ESIGN) and equivalent state laws, companies are delivering important disclosures and other information that traditionally needed to be presented "in writing" electronically instead. In addition, the medium of choice for communicating with consumers electronically is rapidly migrating from email to text messaging. As a result, understanding the requirements of the Telephone Consumer Protection Act (TCPA) are is a must. This edition's Insight looks at the most recent judicial examination of the FCC's interpretation of the TCPA.

Cybersecurity and data protection laws are changing rapidly across Asia, and companies wishing to avoid losing their business operations in key countries are taking note.

While you are celebrating: 4 simple holiday season cyber-readiness steps for Asian businesses

12 DEC 2017

Attacks are more likely to happen during the holiday seasons when a company's key decision makers are on leave and its resources are stretched.

Data and sporting integrity - the key issues to consider

7 DEC 2017

The use of data for betting integrity is important to sports bodies, betting companies who rely on the integrity of sport to maintain trust in their own products and minimise losses through fraud, and increasingly (as the process of opening up gambling markets has continued across Europe and beyond), government regulators.

China gets tough on commercial bribery, IP and commercial secrets infringements with significant fines under revised law: 5 key changes

16 NOV 2017

China's revised Anti-Unfair Competition Law expands the scope of commercial bribery offenses and introduces offenses for IP, bribery, commercial secrets and other market conduct-related violations.

Preparing for a payment card data breach: what should businesses do?

15 NOV 2017

In this article, DLA Piper's lawyers consider that there were an estimated 164 million payment cards in use in the UK in 2016 and how, with almost £4 billion being spent using contactless cards alone in April 2017 and new breach notice requirements coming into force soon, those involved (including card brands and merchants) need to consider how to respond to breaches, and potential alternatives to storing card data in the future. Payment card data is a major target of hackers.

Notice and take-down mechanism on Alibaba ecommerce platforms

7 NOV 2017

In August 2017, Alibaba introduced some technological enhancements to its Intellectual Property Protection Platform (IPP), most of which target the IPP's Notice and Take-down Mechanism (Complaint Mechanism). The enhancements are promising, and strengthen the enforcement tools for rightsholders in Alibaba's increasingly important ecommerce ecosystem. However, some key shortcomings remain. These are discussed below, as well as some tips for how the IPP is best used.

Are banks ready for the Internet of Things revolution?

In the second of our two part series, DLA Piper's lawyers consider how the Internet of Things will lead to new legal issues.

Are banks ready for the Internet of Things revolution?

13 OCT 2017

In the first of a two part series, DLA Piper's lawyers consider whether banks are ready for the Internet of Things revolution and how related developments are set to alter business models in the financial services sector.

Significant changes proposed to Singapore's data protection law - 5 things you need to know

17 AUG 2017

Significant changes are proposed to Singapore's data protection law, which if passed would have a material impact on organisations' Singapore data protection compliance programmes. Here's what you need to know so you can plan ahead.

China introduces new rules to "purify" online video content

10 AUG 2017

New rules have increased the control of the Chinese government over online video hosting platforms as the Chinese authorities look to "purify" Internet content in China.

Example GDPR ready processor terms

1 AUG 2017

One of the larger tasks facing organisations as they prepare for the new EU General Data Protection Regulation 2016/679 is how to tackle data governance and compliance controls in the supply chain. This is often the Achilles heel for compliance risk and the very prescriptive requirements of GDPR will require a thorough review of due diligence, contracting and ongoing contact management and audit practices.

US companies: EU data regulation means new oversight

2 DEC 2015

Many US companies are about to experience new regulatory oversight.

PRC Cybersecurity Law: take action and monitor developments to avoid losing your China business

21 JUN 2017

The PRC Cybersecurity Law is three weeks old, and non-compliant international businesses are already facing severe consequences. Since 1 June, twenty-two people engaged by a global technology giant have been arrested, and sixty online entertainment news sites have been shut down. The law continues to evolve. The latest guidance provides practical answers to previous areas of uncertainty. Whilst some questions remain, the key message is: do not ignore the PRC Cybersecurity Law. It is now in force and organisations must comply with it.

EU: new obligations for digital services providers and operators of essential services

28 JUN 2016

In line with the EU's broader Cyber Security Strategy, the NIS Directive is a significant step towards a more secure cross-border cyberspace with a high shared level of network and information system security.

Plan now to use off-band communications during an incident response: key points

27 OCT 2015

A robust IR plan should include communications techniques that operate outside regular company communication methods.

Information security obligations for Australian businesses under the Privacy Act: A reminder from the OAIC

14 MAY 2013

At the launch of this year's Privacy Awareness Week on 29 April 2013, the OAIC released its new Guide to Information Security: 'Reasonable steps to protect personal information' ("**Guide**"). The Guide aims to assist Australian businesses and those carrying on business in Australia to interpret the continuing requirement under the Privacy Act (both under the current and the amended law) to "take reasonable steps" to protect the personal information they hold.

DLA Piper named one of the most innovative law firms in Europe by the Financial Times Innovative Lawyers Europe Report 2017

6 OCT 2017

DLA Piper is one of the top five most innovative law firms in Europe according to the Financial Times Innovative Lawyers Europe report 2017.

Now in its twelfth year, the FT Innovative Lawyers Report assesses lawyers on their innovation both for clients and in their own businesses. It is one of the top legal rankings in Europe and the accompanying awards are widely regarded as the best researched in the market.

DLA Piper launches new platform for *Guide to Going Global* series

20 SEP 2017

DLA Piper has launched a new platform featuring its *Guide to Going Global* series, an online resource designed to help companies operating and growing their international businesses.

Consulting

DLA Piper's Data Protection, Privacy and Security practice enhances its legal skills with the addition of highly experienced certified risk, privacy, security and cybersecurity professionals, among them Rena Mears, former head of one of the largest Big 4 privacy and data protection advisory practices, who provide consultancy services to our global clients. Advising on practical implementation of legal advice; structuring privacy programs and related control environments; benchmarking; best practice identification; and cybersecurity risk mitigation, the consultants work with our highly ranked privacy and breach response lawyers as a single, integrated privacy team to provide a joint and comprehensive legal and consulting approach to data risk, privacy, cyber and security projects. This approach is a significant differentiator from other large firms, and it has been recognized by notable rankings entities, including BTI Consulting Group, which recently placed the DLA Piper Cybersecurity practice among the Top 7 cybersecurity law firm practices in the United States.

DLA Piper consultants have years of practical experience and maintain a wide variety of relevant certifications. Their ranks include Certified Information Security Professionals (CISSPs); Certified Information Privacy Professionals (CIPPs); and Certified Information Systems Auditors (CISAs). Our experienced consultants are on the front lines of assessing, developing and implementing innovative data risk, privacy and security solutions for some of the world's largest and most geographically diverse companies. We are thought leaders in the field and frequently appear on panels and contribute to industry publications. Our consultants are actively involved in the International Association of Privacy Professionals (IAPP), International Information System Security Certification Consortium (ISCC), and other professional certifying bodies that carry continuing education requirements.

COMPREHENSIVE LEGAL AND CONSULTING SERVICES

DLA Piper's Data Protection, Privacy and Security team covers the full cybersecurity service delivery lifecycle

- compliance and operational risk assessments and identification
- program, policy and operational design
- compliance solution testing and implementation and
- training program development.

We bring sector-specific, globally focused data privacy and protection experience in such areas as compliance and control assessment, cross-border data transfer enablement, incident response and vendor management.

TESTED METHODOLOGIES

We have developed an agile and repeatable approach to deliver data privacy and security transformation projects. This methodology has been used for more than a decade and has continued to evolve and respond to changes in the market such as agile development methodologies and the rise of cloud based architecture models, among others.

Our consultants advise clients on, among other things:

- data mapping exercises, gap assessment and remediation
- the practical adoption of our firm's legal advice
- benchmarking and industry best practice identification
- incident preparedness
- incident response planning
- the structuring of privacy and compliance programs
- cybersecurity risk mitigation and

- training program development.

Some of our solutions include:

- Project management tools and techniques
- Regulatory and legislative monitoring tools
- Matter management technology solutions
- Privacy assessment and scoring tools
- Customized training programs
- Client communications and continuing education programs

THE RARE BENEFIT OF PROGRAM DEVELOPMENT UNDER PRIVILEGE

DLA Piper has developed a program delivery approach that focuses on putting in place critical protections from moment one. This approach includes protections companies often overlook in the development and implementation of their programs – not least, building in measures to preserve attorney-client privilege (such as for third-party forensics). We offer a single, integrated delivery team of lawyers and consultants that maximizes attorney-client privilege while providing both legal and operational insights.
