Andrew Dyson is the managing partner for the Leeds office. He is also Global Co-Chair of DLA Piper's Data Protection, Privacy and Security Group.

He brings over 20 years' experience advising on data privacy, cyber security, IT and e-commerce related matters.

Andrew advises leading UK and global businesses on legal issues relating to data, cyber security and information technology matters. His clients operate principally in financial services, technology and consumer facing sectors. Andrew also has a close relationship advising key regulators and UK public sector institutions.

The focus of Andrew's practice is to assist client organisations support compliance with the General Data Protection Regulation and related privacy and cyber laws, including data breach preparedness and response. He is a regular speaker on information law issues at executive seminars and conferences, including the annual Privacy and Data Protection Conference and Corporate Executive Board 'Circle of Privacy Experts'. He is a regular speaker on privacy issues at leading international conferences and global media channels (including BBC, CNBC, Bloomberg). He is an Editorial Board Member for the Journal of Data Protection & Privacy and Visiting Research Fellow in Applied Ethics at the University of Leeds.

EXPERIENCE

- Designing and implementing GDPR "readiness" compliance programmes for a number of well-known businesses, including global airlines and top tier insurance providers, a major investment bank, and high profile retailers, including conducting in depth data map and gap analysis exercises as a pre-cursor to establishment of a GDPR ready information governance framework.
- Advising a leading consumer goods company on their global privacy program and associated digital marketing strategy, spanning 60 countries worldwide.
- Advising a major international hotel chain on its strategy for securing effective privacy notices and consents from customers as part of a refresh of its global loyalty programme.
- Advising several global airlines on their overall strategy for ensuring compliance with privacy laws around the world, including

Boardroom Brexit: What the deal means for personal data and digital trade

31 December 2020
Boardroom Brexit

The TCA allows personal data to transfer from the EU-UK, for a period of up to six months from 1 January 2021. This 'bridging' period is designed to allow the EU time needed to adopt a formal adequacy decision which will allow the continuing flow of personal data to the UK.
