Many of the world's leading companies turn to our team of experienced litigators to represent their interests. With many lawyers who are acknowledged as leaders in their fields by independent directories, we understand the legal, business and procedural developments in jurisdictions throughout the world.

Globalization of world markets has increased the potential for legal liability, exposing multinational employers to financial and reputational risk across multiple jurisdictions. Senior management, directors and employees also need the best legal advice when disputes arise.

We have one of the largest international litigation, arbitration and dispute resolution practices, with lawyers around the globe. We represent clients in a wide range of employment disputes. Through innovative dispute resolution strategies and effective case management, we aim to identify and execute the most advantageous business-oriented solutions, either by pursuing or defending litigation or arbitration proceedings, or through alternative methods, such as mediation.
