

Energy and Natural Resources

In a world where the demands for energy are growing exponentially, those operating in the energy sector are looking to their lawyers to provide more than legal skill; they are also seeking in-depth sector know-how and innovative solutions to the challenges they face. DLA Piper's energy lawyers deliver to our clients the focused, innovative sector advice they need, wherever in the world they need it.

In a sector of relentless change, demand and complexity, private and public corporations wisely rely on experienced, global legal counsel for any matter involving energy.

We are entering an era of unprecedented demand for power generation and transmission, especially within emerging economies. This dynamic, together with the challenges we all face from climate change, is creating new opportunities for alternative energies and new technologies.

Our energy clients receive coordinated, across-the-board coverage for their needs, including construction and projects, corporate, competition, regulatory, contractual, trading, litigation/arbitration, dispute resolution and tax issues. We understand the technical, geographical, commercial and geopolitical factors that shape the industry and have first-hand access to contacts, sponsors and decision makers worldwide.

DLA Piper's energy team includes professionals in the detailed, multi-layered and often complex regulatory frameworks that apply to energy sector projects and activities. We advise regulators, the regulated, investors and other industry participants on the implications of the regulatory framework during the planning, development and operational stages of many energy projects and activities.

For decades, we have represented organizations operating in the sector throughout the world. Our global team serves clients in the power, oil and gas, renewable, nuclear, energy trading, climate change and water markets. Alongside energy companies, our clients include project sponsors, corporations, developers, financial institutions, governments, utilities and regulatory bodies.

We work with a broad scope of clients ranging from the world's largest oil and gas companies to investment banks active in energy and commodities trading and venture-backed alternative energy entrepreneurs. Our lawyers provide strategic advice on planning, development, financing and permitting matters, as well as legislative, political and regulatory issues.

- Projects, Energy and Infrastructure

Commodities trading

DLA Piper is one of the very few law firms that offers the full suite of services associated with successful structured finance transactions. Our team brings long-standing trading and structured transaction experience and specific industry experience to our trading clients. We are particularly well suited to effect quick and innovative structures for our trading clients operating in the energy, agro, transport and infrastructure sectors around the world. We represent a wide range of companies that trade, finance and transport such products. We also represent project investors, banks specializing in trade finance for commodities ventures and financing schemes, and shipping companies that charter, operate and own oceangoing vessels. We know how trading firms operate: fast, efficient, and through the use of transactions that mitigate risk while generating revenue. DLA Piper has the finance and the structured products experience that few firms can offer: we know how to get the deal done. Our added value is our extensive experience and contacts throughout the industry in that we can assist in finding the right counterparty and in structuring the kind of deal that best suits our trading client.

The team is well equipped to structure transactions to mitigate risk in challenging markets, whatever commodities or technologies are involved and is experienced in providing bespoke financing solutions and cutting-edge security packages tailored to our clients' commercial needs.

Mining

Changing economic conditions are often felt at the mine mouth long before they appear on the balance sheet or the boardroom table. DLA Piper is responsive to our mining clients' needs as they adapt to the cyclical shifts in the global commodities markets. Our innovative solutions assist them to efficiently address these challenges and opportunities.

From startup to divestment or site closure, our Mining legal team can provide a complete legal solution, covering everything from day-to-day operational issues to large scale international transactions and arbitrations.

Our commodities lawyers have detailed knowledge of local regulatory environments, key project drivers and the market. We understand how the many components of a project interact with one another. Our mining team takes a holistic approach to project development, which enables us to offer a balanced assessment in the best interests of the project as a whole. We can assist you to identify, analyze, negotiate and document project structures and to maintain efficiency when the project is operational.

Mining is a truly global industry, and we can provide the location-based assistance as well as the experience and skills that clients in this sector require. For those with projects across countries or continents, we can provide a single point of contact to help manage the delivery of legal services to all of your projects and your personnel.

Oil and gas

DLA Piper's Oil and Gas lawyers have extensive experience in all segments of the global industry. With a vast network featuring practitioners on the ground in key jurisdictions worldwide, we understand the industry-specific nuances that affect energy transactions and disputes as well as complex, multi-jurisdictional engagements that are part of your strategy wherever you do business.

We handle both onshore and offshore legal work for a spectrum of clients, from major international oil companies, governments and state-owned companies to independents and private equity and mid-market entities. We offer leading lawyers in mergers and acquisitions, project development, finance, tax, environmental, technology and IP, real estate and dispute resolution. All our lawyers work together as a team across our global platform to address your transactional needs and, when necessary, to mobilize immediately.

We work with contractors, developers, utilities, banks, investors and governments, providing strategic advice on planning, development, financing and permitting matters, as well as legislative, political and regulatory issues.

Our experience encompasses:

- **Upstream:** licensing/concessions, exploration and extraction; the operation of oil and gas fields; farm-ins/farm-outs, JOAs, joint

venturing

- **Midstream infrastructure:** construction, financing and operation of oil and gas infrastructure, such as pipelines, tank farms and refineries; sales and handling of crude oil and gas, along with the construction of related infrastructure; and CNG/LNG projects/sales
- **Downstream dissemination of products:** offtake of production and the sale of products; lifting and transportation of oil and gas; storage and through-putting of products
- **Acquisition and disposal** of oil and gas interests/assets; due diligence and investigation behind acquisitions
- **Financing for oil and gas:** funding acquisitions; project-financing for developments; funding cash-calls; security structures over oil and gas assets; trading of oil products
- **Shipping and trading** of oil and gas
- International arbitrations and other forms of dispute resolution

Power

The firm's Power team comprises lawyers throughout the Americas, Africa, Asia Pacific, Europe and the Middle East, positioning us to help energy clients with their legal needs anywhere in the world. Our key service areas within the Power sector include:

- Conventional generation
- Renewables
- Alternative energy
- Transmission and distribution
- Wholesale and retail electricity
- Energy market reform

We advise on all phases of power transactions including:

- Project development
- Mergers and acquisitions
- Financing
- Corporate structuring and tax advice
- Licensing and technology transfer
- Government / regulatory
- Litigation and international arbitration
- Environmental
- Employment

We have completed financings that have been implemented through a variety of structures, including traditional offtaker-based project financings, PAPS tax equity investments, leasing, private placements, portfolio financings, multi-tranche first and second lien structures, export credit agency and other multilateral agency supported transactions. By representing clients with diverse roles in many types of transactions, our group has developed experience that well equips us to assist clients in assessing and

resolving the complex issues that arise in project finance matters.

Renewables

DLA Piper's globally situated Renewables practitioners represent sponsors, lenders, equity investors, multilateral institutions and government bodies and agencies in the development, financing, construction acquisition and sale of, or investment in, a wide range of renewables-related projects and infrastructure projects. Among these are renewable power generation projects, energy storage facilities, utility-scale, distributed and residential solar, on-shore and offshore wind and biomass and other innovative and technology-based entities. We deliver comprehensive services to renewables clients from project finance and development and M&A to tax, environmental, real estate, tech and IP, employment and disputes and arbitrations.

We have advised on hundreds of renewable energy projects developed and financed around the world. Members of our team regularly represent clients in the purchase of wind turbines, solar panels, batteries, inverters, gas turbines and steam generators and other equipment or related and in the evaluation of such contracts in the context of an acquisition or a financing.

We have been active in energy storage for almost a decade and have monitored the industry's progress closely while advising clients on the negotiation of long-term offtake agreements, evolving tariff requirements, the purchase of equipment and project financing, including the landmark financing of a portfolio of battery storage systems.

- Carbon markets: Providing the UK's largest producer of steel with strategic advice on the international climate change regime and the EU emissions trading scheme and assisted with the development and review of its climate change policy.
- Electricity and water: As a result of the work we have done for the Government of Iraq, we are the leading international legal practice operating inside Iraq. This includes representation of the Iraqi Ministry of Electricity in its negotiations to acquire more than US\$5 billion in electricity generation equipment, to procure engineering services and construction contracts and to secure water and fuel supplies. We have also helped the Ministry of Water Resources with large-scale infrastructure projects.
- Oil and gas: We represented BP as principal counsel for the US\$2.4 billion sale of its southern California refining and marketing business, formerly known as ARCO, to San Antonio-based Tesoro Refining and Marketing Company. The contract was signed in August 2012, and the deal closed on June 1, 2013, after receiving clearance from both federal and California regulators.
- Renewable energy: Independent Power Producers Procurement Programme Matters, South Africa. On completion, this will be the largest renewable energy project in the world. Our lawyers in Australia, Hong Kong and London advised more than half of the successful bidders for Phase 1 and 2 of this solar, wind, hydro, biomass and biogas project. We are also acting for bidders and lenders providing project finance for a number of projects in Phase 3. The goal of this landmark project is to generate 42% of all new electricity in South Africa from renewable energy sources over the next 20 years.
- Power: For China Hydroelectric Corporation's successful US\$96 million NASDAQ IPO, we advised on the pre-IPO financing and the acquisition of hydropower plants in China. We also provided structuring advice for its operations, implemented a corporate reorganisation and advised on CDM eligibility.
- Nuclear: We act for virtually all of the site licensee companies (SLCs) in the UK, as well as for the Nuclear Decommissioning Authority and other parent body organizations to the SLCs. We are principal advisers to Sellafeld Limited, Magnox Limited, International Nuclear Services Limited and are instructed by Westinghouse, DSRL, LLWR and NNL.
- Energy disputes: We achieved a victory for Central New York Oil and Gas Company in a case that cleared the way for development of the US\$257 million Marcellus Shale gas pipeline project. The case was one of first impression on the degree to which federal agencies and private pipeline and energy companies must account for the impacts of Marcellus Shale well drilling when reviewing the environmental effects of pipeline projects.
- Water and wastewater: Represented United Water, a subsidiary of Suez Environnement, in its joint venture with KKR & Co. to acquire a 40-year water and wastewater concession from Bayonne, New Jersey. The concession requires more than US\$300 million of capital improvements, one of the first water and wastewater concession deals completed in the US.

Corporate Power Purchase Agreements (PPAs): What are they?

12 November 2019

A Corporate Power Purchase Agreement (PPA) is a long-term contract under which a business agrees to purchase electricity directly from an energy generator. This differs from the traditional approach of simply buying electricity from licensed electricity suppliers, often known as utility PPAs.

Such structured agreements provide financial certainty for the utility companies and the developers, which removes a significant roadblock to financing and building new renewable facilities; PPAs are therefore helping to deliver more renewable energy on the grid.

In a world where many countries have reduced or withdrawn subsidies for renewable energy, a Corporate PPA with a financially strong counterparty is an essential component for achieving a "bankable" project.

Energy & Natural Resources Case Law Update

17 October 2019

Deals in the Energy and Natural Resources (E&NR) Sector are often complex, high value and high stakes, and disputes can arise at any stage of the deal life cycle. In this third E&NR Case Law Update, we draw together relevant themes emerging from recent cases.

Digital Transformation in Energy and Natural Resources

9 October 2019

The global demand for power rises, the requirement for increased productivity, greater efficiencies in distribution and flexibility for consumers (both corporate and residential) is also growing. As such, we have launched report on how digital technologies are impacting the Energy and Natural Resources sector.

Japan's vision to realize a "Hydrogen-Based Society"

8 October 2019

Ahead of the Tokyo 2020 Olympic and Paralympic Games, the Japanese government, the Tokyo Metropolitan government and Japanese manufacturing companies are seeking to use these sporting events to introduce Japan's state-of-the-art technology in the field of hydrogen, by using hydrogen-powered vehicles and powering the Olympic village with hydrogen.

Corporate Power Purchase Agreements (PPAs): What are they?

1 October 2019

A Corporate Power Purchase Agreement (PPA) is a long-term contract under which a business agrees to purchase electricity directly from an energy generator. This differs from the traditional approach of simply buying electricity from licensed electricity suppliers, often known as utility PPAs.

Such structured agreements provide financial certainty for the utility companies and the developers, which removes a significant roadblock to financing and building new renewable facilities; PPAs are therefore helping to deliver more renewable energy on the grid.

In a world where many countries have reduced or withdrawn subsidies for renewable energy, a Corporate PPA with a financially strong counterparty is an essential component for achieving a "bankable" project.

Treasury Department proposes regulations comprehensively implementing FIRRMA and reforming CFIUS

national security review

19 September 2019

The proposed regulations affect non-controlling investments involving critical technologies, critical infrastructure, and sensitive personal data; and transactions involving real estate near sensitive national security facilities.

Distributed generation in Brazil

20 August 2019

The bright future of Brazilian renewable energy - increase in the production of electricity from renewable sources for Brazilian consumers and offset the surplus with their local distribution company.

Coal, iron ore, LNG... Hydrogen?

20 August 2019

Hydrogen shows potential to become new export industry down under.

Projects Global Insight Issue 2, 2019

20 August 2019

PROJECTS GLOBAL INSIGHT

One of the key trends in this issue is growing interest in sustainable, resilient and regenerative projects. This is driven by the heightened awareness and concern surrounding global warming and climate change and, arguably, a lack of funding following the global financial crisis.

Responsible investing

20 August 2019

The rise of responsible investing and global renewable energy opportunities with growing exposure given to environmental, social and governance (ESG) issues.

Vendor financing for stage 1 of the bridge power project in Ghana

20 August 2019

Case study of unique, limited-recourse vendor financing for combined cycled gas turbine power project in Ghana. The vendor financing for this project won the Best Financial Structure Silver award and Best Utilities Project Gold award at the Partnerships Awards 2019.

What is the future of LNG pricing?

20 August 2019

Is LNG pricing linked to crude oil an outdated model?

Insurance asset management

30 APR 2019

INSURANCE HORIZONS SERIES

In times of increasingly strict product and governance regulation, asset management has become one of the main drivers for the business profitability of insurers all over the world.

EU Policy & Regulatory Update: EU Adds 8 Russian Officials on Sanctions List in response to Kerch Strait and the Sea of Azov Incident

19 MAR 2019

On 14 March 2019, the Council of the European Union adopted Council Implementing Regulation 2019/409 and Council Decision (CFSP) 2014/145 adding eight Russian officials to the list targeting those "undermining the territorial integrity, sovereignty or independence of Ukraine".

DLA Piper in Latin America: 2018 in review

28 FEB 2019

While challenges always lie ahead, we are excited by the region's continuing growth.

EnviroLENS - Copernicus for environmental law enforcement

18 FEB 2019

EnviroLENS, a Horizon 2020 innovation project funded by the European Commission, aims to demonstrate and promote the use of Earth Observation (EO) as direct evidence for environmental law enforcement, including in a court of law and in related contractual negotiations.

Next for Venezuela: the battle for Citgo

14 FEB 2019

US legal precedent suggests that a Maduro-backed challenge for control of Citgo would face an uphill legal battle.

US government sanctions Petróleos de Venezuela, authorizes US persons to engage in certain limited transactions

29 JAN 2019

OFAC has sought to limit the sanctions' impacts by issuing a series of General Licenses which create a complex web of *limited* authorizations for US persons.

EU Policy & Regulatory Update: First Designations under EU's Chemical Weapons Sanctions Regime

24 JAN 2019

On 21 January 2019, the Council of the European Union (EU) adopted Decision (CFSP) 2019/86 amending Decision (CFSP) 2018/1544 concerning restrictive measures against the proliferation and use of chemical weapons, listing nine individuals and one entity under the EU's Chemical Weapons Sanctions regime.

Inconsistent dispute resolution clauses - when should the "one-stop shop" give way to gravity?

27 DEC 2018

Where, in complex commercial arrangements, there is a multiplicity of agreements, problems associated with inconsistencies between them abound. That can have significant consequences, particularly where there is an inconsistency between dispute resolution provisions in different but related contracts.

Projects Global Insight Issue 1, 2018

19 December 2018

[PROJECTS GLOBAL INSIGHT](#)

Welcome to DLA Piper's Energy and Infrastructure Projects Global Insight. In this and twice-yearly issues of Global Insight, we seek to share the knowledge we've gained and put the spotlight on some of the most innovative, market-leading transactions we have been involved in.

APPs en América Latina: resolución de disputas a través de arbitraje inversor-estado

18 DEC 2018

Medidas de protección de la inversión pueden encontrarse en los contratos de APP, pero también en el derecho internacional.

Alberta government to require operators to reduce crude oil and bitumen production

17 DEC 2018

[CANADA IN FOCUS](#)

The Alberta government announced new measures designed to temporarily reduce crude oil and bitumen production in the province, in order to deal with a historically high differential between Alberta oil and bitumen prices, and broader North American prices.

Energy & Natural resources case law update

5 DEC 2018

Given the often complex nature of business in the Energy and Natural Resources sector, it is inevitable that disputes will arise, and that the law will develop apace.

EU Policy & Regulatory Alert: New Regulation on Foreign Direct Investment Screening in the EU

22 NOV 2018

The European Union is moving fast towards establishing a joint regulatory and policy framework for Europeans to seize the opportunities provided by Artificial Intelligence (AI) and to reinforce Europe's competitiveness in this field.

Supply chain human rights risk management: Blockchain and emerging technology

8 NOV 2018

Global businesses, financiers and investors are faced with an increasingly complex and interconnected legal, financial and reputation risk agenda related to human rights and other responsible business conduct issues.

CFIUS pilot program mandates declarations for certain non-controlling investments in critical technologies

17 OCT 2018

The pilot program covers critical technologies in 27 industries.

Supreme Court Corner Q3 2018

27 SEP 2018

The court rules on recovery of lost foreign profits and ponders patentability issues in an invention's sale to a third party that is obligated to keep the invention confidential.

Presidential assent withheld for the first part of Nigeria's petroleum industry legislative reforms

21 SEP 2018

The President of Nigeria has withheld presidential assent for the Petroleum Industry Governance Bill (the 'PIGB') and has requested further amendments to proposed legislation, impacting Nigeria's petroleum industry legislative reforms.

May the force be with you: Force majeure clauses in the energy sector

18 SEP 2018

This article explores the implications of the Seadrill case, in which the hirer of an oil rig sought to rely on a force majeure clause as the basis for its early termination of the contract, and highlights certain practical drafting points which may be particularly relevant to contractors in the energy and natural resources sector.

Positive signs for issuers and the marketplace: Argentina economic briefing

7 SEP 2018

The financial press continues to portray Argentina as another merging-market casualty but, to the contrary, there are a number of positive financial signs, for investors, the country and the marketplace, in today's Argentine economy.

\$1.2B order entered against Petroleos de Venezuela: Q&As for PDVSA and Citgo commodity commercial and trading counterparties

25 SEP 2018

In light of this order, how should counter-parties now approach their commodity-related contracts with PDVSA and CITGO?

This article has also been published by Lexis Nexis in Pratt's Journal of Bankruptcy Law.

OECD releases new guidance on the application of the transactional profit split method under BEPS Actions 10

3 JUL 2018

The Guidance will likely continue the uncertainty for taxpayers as they develop and maintain their transfer pricing policies.

Oil and gas licensing round now opened for Danish part of the North Sea

29 JUN 2018

The Ministry for Energy, Utilities and Climate has just opened for applications for licences for exploration and production of oil and gas (hydrocarbons) in the 8th Danish Licensing Round for the Danish North Sea area.

Alberta passes Bill 12, *Preserving Canada's Economic Prosperity Act*

22 MAY 2018

The Alberta legislature on Wednesday passed Bill 12, *Preserving Canada's Economic Prosperity Act*. The Act, which has been referred to in the media as the "turn off the taps" legislation, is the latest response to escalating tensions among the British Columbia, Alberta and Canadian federal governments over pipeline and energy matters.

Global Trend: Smart Buildings

9 MAY 2018

The real estate sector has recently been marked by the advent of "PropTech". PropTech (or property technology) has been described as a "new explosive wave of innovation", seeing start-up companies pioneer technological products to address a range of

inefficiencies in the property market. For example, Airbnb and BuyMyPlace are among the most prominent PropTech inventions (or "disruptors"), which have transformed the traditional property leasing and purchasing markets.

US to re-impose sanctions on Iran as it withdraws from the Joint Comprehensive Plan of Action

9 MAY 2018

President Trump has signed a presidential memorandum directing his Administration to immediately begin the process of re-imposing sanctions related to the Joint Comprehensive Plan of Action, targeting critical parts of Iran's economy, among them its energy, petrochemical and financial sectors.

Energy Storage

18 APR 2018

REAL ESTATE GAZETTE SERIES

In late November 2017 the Government published a White Paper on Industrial Strategy. Its stated aim is to fill any gaps in the foundations required to create and maintain a successful free market economy. This includes addressing any weaknesses in the quality of the infrastructure necessary to support a fair and predictable business environment.

Energy efficiency - the global transition

23 MAR 2018

REAL ESTATE GAZETTE SERIES

The demand for real estate energy efficiency is increasing rapidly in Northern Europe. DLA Piper's partner Mikko Larvala in Helsinki interviews Tomi Mäkipelto, who leads LeaseGreen, one of the region's fastest-growing energy service companies.

Warranty claims in the energy sector: a survival guide

14 MAR 2018

This article gives an overview of recent significant English case law on warranty claims. It aims to assist those engaged in energy sector M&A to avoid potential drafting pitfalls, and to point those considering bringing a claim for breach of warranty (or finding themselves needing to respond to one) in the right direction.

Investment protection in Latin America: Mexico takes one step forward, Venezuela takes two steps back

7 MAR 2018

A prudent foreign investor exploring a possible investment always starts by confirming that a state adheres to certain multilateral investment treaties.

Protección de inversiones en Latinoamérica: México da un paso adelante, y Venezuela sigue retrocediendo

7 MAR 2018

El acceso a mecanismos neutrales de resolución de disputas ha sido durante mucho tiempo un elemento clave del régimen de protección de inversiones de cualquier país.

2018 Federal Budget – Tax support for clean energy

1 MAR 2018

Canada's Finance Minister Bill Morneau delivered the government's 2018 federal budget on February 27, 2018. As part of the budget's tax proposals, the government is extending an existing tax incentive measure to encourage investment in clean energy equipment for an additional five years.

Bill C-69 represents an overhaul of the Federal environmental assessment process

16 FEB 2018

When the new Liberal government took power in 2015, one of its promises was to revamp the system of environmental assessment of major projects within Federal jurisdiction in Canada. Following on that promise, the Minister of Environment and Climate Change, Catherine McKenna, introduced Bill C-69 in the House of Commons on February 8th, 2018. Bill C-69 will radically restructure the way in which major projects, including major energy projects, are reviewed in Canada.

While you are celebrating: 4 simple holiday season cyber-readiness steps for Asian businesses

12 DEC 2017

Attacks are more likely to happen during the holiday seasons when a company's key decision makers are on leave and its resources are stretched.

Energy Hot Topics at DLA Piper Africa Week (27 November - 1 December)

7 DEC 2017

The energy sector is a key driver of growth and development for the entire African continent. Energy infrastructure and investment is necessary in order to improve quality of life for people across the continent and to provide opportunities for African and international economic development.
