

Financial Services Regulatory

DLA Piper's Financial Services Regulatory practice advises financial institutions of all sizes as well as national and international companies that offer financial products. We actively advise on a wide range of regulatory, risk management and compliance issues around the world, including major US legislation such as the Dodd-Frank Act, EU cross-border financial services legislation and approaches driven by global financial services bodies such as the Financial Stability Board, the Bank of International Settlements, IOSCO and the IAIS.

We advise clients on a wide-range of issues, such as regulatory issues affecting the viability of the institution; permissibility of activities and investments; anti-money laundering compliance; restructuring of boards and senior executive responsibilities; examination criticisms, regulatory investigations and enforcement actions; regulatory processes for the transfer of assets in banks, including affiliated transfers; matters impacting insurers, non-bank lenders and other financial institutions; and the recovery and resolution of financial institutions; and the regulatory requirements in relation to such actions.

We have close connections with a wide range of regulators around the world, including the FDIC, OCC, Federal Reserve Board, CFPB and state banking regulators in the US, EBA, ESMA, EIOPA at the European level, key national regulators in Europe such as the UK's PRA and FCA, Germany's BAFIN and France's Commission Bancaire, plus many more around the world.

An important and growing aspect of the group's practice involves tracking rapid market and regulatory changes. Regulators in the US and Europe in particular have engaged in a significant overhaul of their regulatory system as a consequence of the global financial crisis. This has been mirrored in many other countries because the changes have very much been driven by the G20 group of countries. DLA Piper regulatory partners are often closely involved in many of the leading regulatory initiatives working with legislators, regulators and industry bodies and clients to achieve practical outcomes in the development of regulation.

Our firm has a very integrated and collaborative international practice bringing together regulatory and other lawyers across jurisdictions to obtain regulatory consents, provide comparative assessments of regulations across jurisdictions and resolve regulatory problems. We regularly advise internationally active clients on a wide range of cross-border issues, among them the implications of taking their products into new countries and regions, the regulatory implications of important acquisitions and transactions and the comparative benefits of selecting particular jurisdictions for carrying on business.

Banking Regulation

DLA Piper lawyers have extensive experience representing deposit-takers and banking groups, including bank holding companies, with regard to their financial services regulatory needs. This includes obtaining bank authorisations and licences and advising on all aspects of bank supervisory issues. In the US our lawyers are intimately familiar with the Bank Holding Company Act, the Change in Bank Control Act, the Federal Reserve Act and the Federal Deposit Insurance Act and, similarly, in Europe with key banking legislation such as the Capital Requirements Regulation and national legislation on banks. We routinely advise client on anti-money laundering obligations that arise in various jurisdictions around the globe.

Mergers and Acquisitions

DLA Piper lawyers have handled hundreds of acquisition transactions involving financial entities including obtaining regulatory approval for change in control of financial institutions where this is required. DLA Piper undertakes the highest volume of M&A transactions in the world.

Capital Markets and Funds

Whether the client wishes to raise public equity, seek fund or private equity investments or issue long-term debt, DLA Piper's lawyers understand the regulatory and market environments including the nuances of dealing with rating agencies and underwriters. We have considerable experience in handling the regulatory issues associated with acting for investment funds and for brokers, dealers and other investment firms.

Corporate and Securities

Closely linked with our capital markets work, our lawyers advise banks in corporate organisation and restructuring, holding company and subsidiary activities and formation, corporate governance, periodic reporting and compliance with exchange and other regulatory requirements. In particular we have significant experience with regard to listings on major exchanges such as NYSE, NASDAQ and the London Stock Exchange and the associated regulatory requirements.

Payments and Non-bank Financial Regulation

With the growing diversity in firms and entities that offer payment and other financial products, including products such as prepaid access, consumer payment plans, loan servicing and collection, mobile and online payments and virtual currencies, regulations are rapidly increasing in these areas. DLA Piper lawyers focus directly on these matters and advise clients on terms or features of their products that impose regulatory implications.

Enforcement

We regularly undertake internal investigations and assist clients with regard to enforcement activity commenced against them by their regulators. We have considerable experience of the interaction between criminal prosecutions and enforcement action by the financial services regulator. We also have considerable experience advising on civil liability, litigation and anti-money laundering enforcement in the context of regulatory scandals both on a national and a cross-border basis.

Insurance regulation

The firm has a substantial insurance operations and regulations practice and can advise both with regard to insurance capital requirements, authorisation of insurance companies and a wide-range of product and conduct of business issues.

EXPERIENCE

- Advised an international company on the development and deployment of payroll card products and related employee remittance services, in partnership with a major US bank.
- Assessed global anti-money laundering obligations of clients, both in response to specific regulatory criticisms and enforcements as well as on a client-initiated, pro-active basis.

- Represented community banks in branch acquisitions and openings, charter conversions, and capital raising efforts.
- Represented major diversified financial services firms in their decisions to separate from banking in response to added regulatory limitations arising under the Dodd-Frank Act.
- Advised international retailers on their credit and payment offerings to consumers.
- Advised a non-European lender with regard to the legal requirements in a range of different European member states to assist them in deciding upon the best business model for carrying out their lending activities. Assisted them with the implementation of their strategy.
- Advised a bank on the financial services regulatory implications of an outsourcing project across several southern European countries – as part of a larger outsourcing transaction whereby the bank's retail call centres were being outsourced to a third party provider.
- Advised the London branch of a non-EU bank on the extent to which it could carry on business in the EU outside of the UK without a passport.
- Advised a Spanish bank on the implementation of the consumer credit protection work across various jurisdictions including Austria.
- Advised an Austrian branch of a Spanish bank on its corporate reorganisation procedure.
