

Global Governance and Compliance

DLA Piper's Global Governance and Compliance group has unparalleled experience helping clients with international operations meet the evolving – and sometimes conflicting – expectations of regulatory and enforcement agencies.

With compliance-focused lawyers in over 75 offices covering more than 35 countries and their capital cities, we have the global breadth, local knowledge and industry experience to guide clients in all aspects of designing, implementing and managing compliance programs, assessing and mitigating risk, remediating compliance issues and running internal investigations.

The best compliance program in the world is worthless if it cannot be implemented effectively. Importantly, our Compliance team includes former general counsels and in-house chief compliance counsel, as well as business leaders who ensure we provide practical and actionable advice.

Regulators recognize this and often investigate whether an organization's compliance program is truly integrated, or whether it is simply a paper program. But a compliance program is equally worthless if it does not also allow you to conduct business profitably and efficiently. We understand this balance and ensure that our compliance advice and recommendations can be implemented and eliminate or mitigate a company's greatest legal risks without disrupting lawful business goals and practices.

CAPABILITES

Partnering with our clients, we focus on the following components:

- Tone at the top and building an ethical culture
- Awareness
- Structure and governance
- Budget
- Benchmarking
- Code of business conduct and ethics
- Policy review, reconciliation and awareness
- Training
- Complaint channels and ethics hotline
