As the wave of regulatory change from earlier in the year appears to have calmed for the time being, in this issue we look at variety of issues from markets across the globe, including opportunities in the Italian CDO market, insolvency reform in Australia and new mortgage asset lenders and the impact of FinTech on warehouse and future flow arrangements. We also explore the proposed framework for a post-Brexit partnership in financial services.

11 APR 2018

Finance and Markets Global Insight Series

2018 brings a wealth of regulatory change which has been long in the making and is now finding its way into the law of European Member States, including for the time being, the UK. In this issue we look at the impact of a number of important new regulatory frameworks for capital markets transactions in the EU, including how the securitization regulations will effect CLOs and proposed RTS on risk retention and homogeneity. We also reflect on MiFid II, which came into effect on 3 January 2018 presenting a second overhaul of the European financial system.

### **Finance and Markets Global Insight - Issue 13, 2017**

27 SEP 2017

Finance and Markets Global Insight Series

This issue of Finance and Markets Global Insight reflects the ongoing evolution of global financial markets as financiers and businesses continue to grapple with the two key themes of innovation and regulation. There's discussion on the implantation of the revised regulatory framework for derivatives and securitization, as structurers deal with variation margin implantation, and debate around Article 17 of the Securitization Regulation concerning the exclusion of self-certified mortgages. We see how the Nordics are implanting PSD 2 and look at European Central Bank guidance to banks on dealing with non-performing loans. We also weigh up the booming initial coin offerings market, and consider the European Commission's consultation on the impact of FinTech and its role in driving a more competitive and innovative European financial sector. This issue also reports on a new set of framework principles for social bonds to encourage interest in environmental, social and ethically sound investments, the European Union's plan for retail financial services and the FX Global Code. It also brings a US perspective on the risks inherent in trade and commodity finance.

## Global Financial Markets Insight - Issue 10, 2016

28 JUL 2016

Finance and Markets Global Insight Series

On 23 June 2016, the UK electorate voted to leave the European Union in a so-called Brexit referendum. The exit result was a surprise for many working in the finance sector. The change will impact the position of the UK under critical legislation such as the Capital Requirements Regulation, European Market Infrastructure Regulation, Market Abuse Regulation and many other Regulations and Treaties applicable in the UK. We will also see a change as to the role of the UK in significant market initiatives such as the Capital Markets Union. It is likely that these changes will present both threats and opportunities. Until policy is clearer, we will comment on some of the existing challenges caused by EMIR and similar EU Regulations.
