

Government Contracting

Our clients who provide products and services to governments must contend with ever-changing procurement rules and regulations. Many opportunities are open to them but they are accompanied by legal consequences for everyone involved.

The global financial crisis has placed intense pressure on governments to tackle major budget deficits and debt burdens. As a result, competition for contracts is fierce, bid costs are high and the financial terms imposed on contractors are demanding. International procurement regimes bring their own challenges for non-compliance for both contractors and government customers.

To help our clients meet these challenges, our government contracting practice has grown to become one of the largest of its kind in the world. Unlike many others, we act for both governments and global contractors on their contracting and procurement requirements.

We provide tailored advice and legal services on virtually every aspect of government contracting and public procurement, from bid strategy through to potential challenge. These services include: preparation of strategic alliance agreements and teaming arrangements; bid protests and challenges; and contract administration and claims. Our lawyers also litigate contract disputes and claims involving contractors.

- IT procurement: The UK government turned to us for advice on the world's largest civil information technology procurement
- IP: When two federal contractors went to court in a dispute between them, we were called by the defense to testify as an expert witness on its intellectual property. The US jury found in favor of the defense on all nine counts, including all government contract IP issues.
- Data protection: We advised a global aviation company on the data security and protection survey of data protection requirements in public contracts covering 40 countries
- PPP: We advised a global defense company on a public-private partnership with the UK's Ministry of Defense to modernize their search and rescue helicopter program
- Procurement: A Canadian pharmaceuticals company needed help dealing with various aspects of European Union procurement law. We helped it prepare and submit a vaccines tender to the UK Purchasing and Supply Authority.
- Defense: We advised the Australian Defense Force on the US\$3 billion Amphibious Ships

Life after Brexit - how the UK and China can both benefit from the new global regime on jurisdiction agreements and judgments

16 NOV 2017

On 12 September 2017 China signed the Hague Convention on Choice of Court Agreements 2005 ('Hague'). This ensures not only that a country's exclusive jurisdiction agreements are respected in all other contracting states, but that judgments arising from those agreements are recognised and enforceable there too - so Hague does rather more than it says on the tin.
