The first and only Nordic law firm

DLA Piper is the leading business law firm in the Nordic region, and the only law firm with a truly pan-Nordic presence. This enables us always to provide a strong team, perform cross-border services and draw on the knowledge and insight of our 4500 fellow lawyers throughout the world. With five offices located in Norway, Denmark, Finland and Sweden, we are able to provide consistent and efficient services based on local knowledge and global reach.

“DLA Piper's full-service pan-Nordic platform is well positioned to act for clients across the region. The firm has built an especially strong appeal among multinational investors with Nordic-based businesses looking for a single legal partner across the region. DLA Piper's Norwegian office regularly co-operates with the firm's offices in Finland, Sweden and Denmark on cross-border transactions and disputes, both as lead and local counsel. The Oslo-based team is also active in handling inbound investment from Asia, the USA and Europe, working together with colleagues from DLA's many other global offices.”

- Chambers and Partners Global, 2020

The only global law firm in Norway

DLA Piper's global platform encompasses more than 5,200 lawyers in over 90 offices worldwide, who share the same systems, procedures and methodologies. Leveraging this platform, we are able to offer our clients access to one global team of legal specialists drawn from our full-service offices around the globe.

In Norway, we are 130 staff members - including 90 lawyers - in our office situated at Aker Brygge in Oslo. Our vision is to be a leading global law firm by delivering quality and value to our clients to help them succeed.

Part of the Nordics

We are the only global law firm with a pan-Nordic presence. The cooperative relations between the DLA Piper offices in Norway, Denmark, Sweden, and Finland have enabled us to set up a unique Nordic platform, where we can provide cross-border assistance to our clients. We act as one firm and compile cross-disciplinary teams of highly skilled lawyers.

In the Nordics, we have 450 lawyers organised in sector groups, which share experience and discuss market tendencies across national borders. This contributes to ensuring the key qualifications required, locally as well as globally.
