

IT and Telecoms Disputes

IT and telecommunication services are business critical. It is of paramount importance for businesses to have at their disposal lawyers who understand the IT and telecoms sector, are experienced in handling large-scale commercial, regulatory and competition disputes and who can deliver value for money.

We have a large and dedicated international team of lawyers who work to resolve telecommunications and technology disputes and cover the complete range of cases in the sector worldwide.

We are fully experienced in all methods of dispute resolution including litigation, international arbitration, mediation and expert determination. All of our lawyers are trained in alternative dispute resolution and are skilled at identifying all available opportunities to resolve disputes.

CAPABILITES

We advise clients on the complete range of cases in the IT and telecommunications sector including:

- Large scale contractual disputes
- Disputes over performance issues on major projects
- Interconnection and pricing disputes
- Litigation arising out of the termination of telecommunications and IT contracts
- Regulatory and competition disputes
- Freezing injunctions and search orders
- Outsourcing and public procurement disputes
- Major software disputes
- Insurance disputes
- Disputes involving the Internet and the conduct of e-business

EXPERIENCE

- Acting in one of the largest pieces of IT litigation before the Technology & Construction Court involving claims and counterclaims totalling in excess of £400m.

Preparing for a payment card data breach: what should businesses do?

15 NOV 2017

In this article, DLA Piper's lawyers consider that there were an estimated 164 million payment cards in use in the UK in 2016 and how, with almost £4 billion being spent using contactless cards alone in April 2017 and new breach notice requirements coming into force soon, those involved (including card brands and merchants) need to consider how to respond to breaches, and potential alternatives to storing card data in the future. Payment card data is a major target of hackers.
