

Insurance

We view the companies that we work with not only as clients for a discrete project but also as business partners over both the short and long term. We focus on providing advice in the context of the insurance sector, as well as looking at clients' existing circumstances and aspirations within the industry.

DLA Piper's Insurance practice is one of the largest and strongest, comprising over 400 lawyers serving the insurance industry globally.

We offer a full range of insurance services, including transactional, regulatory, commercial dispute resolution, claims, competition, restructuring and emergency response.

We represent both startups and established multinational life and non-life (re)insurers, Lloyd's entities, intermediaries, banks, capital providers (including hedge funds, private equity funds and venture capital funds), regulators and other insurance industry participants.

DLA Piper understands the business of insurance as well as the legal issues that underpin the insurance sector. Many of our lawyers previously worked as business executives, in-house counsel, bankers and management consultants within the insurance industry. This combination of legal and industry experience enables us to implement practical and cost effective solutions for our clients. Our strong international network of lawyers provides swift access to knowledge and coordinated cooperation across practice areas and jurisdictions.

We regularly second lawyers to work directly for clients and we welcome the opportunity this gives our people to deepen their understanding of the industry. We believe in building a deep understanding of each client's business to enable us to deliver the appropriate outcome, whether the matter relates to structuring, negotiating and closing sophisticated transactions, litigating complex coverage and commercial disputes or addressing regulatory compliance concerns.
