

International Arbitration

Cross-border disputes are ever more significant in international business.

International arbitration has increasingly become the preferred method of resolving such disputes, offering the benefits of greater flexibility, confidentiality and crucially, prospects for enforcement, than national court based litigation. The right advice in relation to incorporating optimum international arbitration agreements in commercial deals can pay dividends not only in terms of ultimate success if a full-blown dispute arises, but also in allowing for the negotiation and settlement of disputes from the strongest possible position. Given the multitude of options in terms of arbitral institutions, seat and governing law, it is often not straightforward to make the right choices in an arbitration agreement and therefore getting tailored advice from experienced international arbitration lawyers all the way from the contract drafting stage to the resolution of any disputes can be critical.

International arbitration offers flexibility in procedures and rules of evidence; flexibility as to who will determine the dispute; a greater ease of enforcement worldwide under international conventions; and increased levels of confidentiality and neutrality.

Our leading international arbitration practice has lawyers located worldwide. Many of our lawyers are acknowledged as leaders in the field of international arbitration and serve on the institutions that administer international arbitration across the world such as the ICC International Court of Arbitration, the American Arbitration Association, the Singapore International Arbitration Association and the London Court of International Arbitration.

Our global team has vast experience in conducting international arbitration including acting as counsel or sitting as arbitrator under all the major institutional and procedural rules, including those of the AAA, CIETAC, DIAC, HKIAC, ICC, ICSID, LCIA, Milan Chamber of Commerce, SCC, SIAC and UNCITRAL. The global reach of our team leaves us especially well placed to put together teams that speak the 'right language' - not just literally, but also in the sense of understanding first hand the key business, political and cultural issues that may be in play. We deliberately do not adopt a 'fly-in/fly-out' model but pride ourselves on our ability to put together teams with both international arbitration experience and an understanding of applicable local laws and
