In addition, we provide senior executives with access to equity value through innovative, tax-efficient share structures without requiring a substantial initial payment or tax charge.
- **Corporate Tax Advisory Services** - Our corporate tax advisory work forms the core of the tax services we provide, both within the United States and internationally. Our lawyers regularly help clients structure their international operations to lower their worldwide effective tax rate. Our lawyers also deal with all aspects of corporate and commercial taxes representing public and private companies, both buyers and sellers, in international mergers and acquisitions around the world. We know how to structure mergers, acquisitions, takeovers, reorganizations, and other corporate transactions, which very often are tax driven, and work to reduce tax both on the transaction itself and going forward. We help clients integrate acquired businesses in a tax-effective manner and also advise on the tax implications of structured finance, leasing, and collective investment arrangements.
