Anthony Meagher's practice concentrates on the arbitration and litigation of construction claims, the negotiation of construction contracts and the litigation of other commercial disputes.

Anthony regularly represents developers, contractors, subcontractors, suppliers and manufacturers in construction claims and product defect litigation. He has litigated and arbitrated construction claims throughout the country and internationally.

Anthony also has successfully utilized mediation to resolve a number of significant construction disputes, and is a trained mediator who mediates construction and other commercial disputes. Anthony has negotiated design and construction contracts on major industrial and professional sports facilities, schools and other public facilities, and numerous other types of commercial developments.

Anthony has extensive experience handling construction claims involving a wide variety of issues on such projects as industrial facilities, office buildings, hotels, retail development and multifamily housing, as well as extensive experience handling a variety of other real estate-related litigation, including leasing disputes, disputes involving the sale of commercial real property, brokerage commission disputes, property boundary disputes, easements, restrictive covenants and other similar matters.

In 2019, Anthony was selected as a Fellow of the American College of Construction Lawyers. The College notes, "Fellowship is extended by invitation to those who are found to have mastered the practice or the teaching of construction law and dispute resolution in the complex technical and legal fields pertaining to the built environment, whose professional careers have been marked by the highest standards of ethical conduct, scholarship, professionalism, and collegiality, and who have demonstrated a commitment to give back to the construction industry."

## EXPERIENCE

## ANTHONY HAS REPRESENTED:

## RELATED SERVICES

- Construction and Engineering
- Construction and Engineering
- Litigation, Arbitration and Investigations
- Infrastructure Finance
- International Arbitration
- Product Liability, Mass Torts and Product Stewardship

## RELATED SECTORS

- Real Estate

- An international EPC contractor in claims relating to US chemical plant project. Lead counsel in 10+ day ICDR arbitration seated in New York, resulting in substantial award for contractor, together with interest, fees and costs
- The owner of the World Trade Center site in Lower Manhattan in construction matters relating to its redevelopment
- A major Washington-area developer in construction and real estate disputes involving several office, multi-family and mixed-use projects
- Two National Football League franchises in connection with construction of their new football stadiums. Matters included defense of two multimillion-dollar claims, negotiation of a complex closeout agreement and pursuit of substantial design claims
- A steel manufacturer on a nationwide basis in construction claims and construction product defect cases. Matters have included construction claims for payment on major stadiums and arena projects, roof collapses due to snow and other overload conditions and construction injury cases, including wrongful death and other serious personal injury matters
- A cement manufacturer, as project counsel, on a multi-hundred-million-dollar cement plant modernization project. Representation included drafting and negotiating in excess of 30 design, construction and equipment supply contracts; advising the client on day-to-day project performance issues; and handling the defense and resolution of several significant construction claims
- An international developer of a Caribbean resort hotel, including negotiation of construction management contract and arbitration of claim for defective performance
- A poultry supplier in negotiation of numerous design and construction contracts for several projects, including a prototype industrial processing facility for poultry litter. The representation included drafting and negotiation of a sizeable design-build construction contract and handling a construction claim relating to site work
- A national outlet mall developer in defense of a multimillion-dollar claim involving construction of new retail space
- Several commercial retailers and other parties in disputes regarding the buildout of leased premises
- Several municipalities in construction matters relating to the construction of correctional facilities, schools and other public facilities, including drafting and negotiating design and construction contracts, and litigating or arbitrating construction claims
