David Moss has 30 years experience acting for national governments, funders, developers, employers, contractors, specialist contractors and design teams on the legal contract administration of infrastructure projects, including the resolution of formal disputes.

David has advised on many forms of standard and non standard contracts and was involved in demonstration projects using the ECC (the predecessor to the NEC). As an experienced practitioner he sits as an adjudicator and as a member of Dispute Review Boards.

David is highly regarded for his commercial and pro active approach. He is ranked as a top tier specialist in the legal directories for being "sensible and on the ball for his strategic input".

AUTRES COMPÉTENCES

- Projects, Energy and Infrastructure

EXPÉRIENCE

- Advising the Employer, together with the end-user/operators, in relation to the administration and management of a D&B Contract for the extension of a tidal port, including extension of the Harbor Wall and the letting faculties to accommodate Ro-Ro Ferry of expanded cargo services. The work involved dredging, land reclamation, pavement details, extension piling and stabilization
