

Nuclear

Our lawyers have unrivalled experience applying the law to nuclear issues. Our nuclear practice is built on the experience and quality of our lawyers, but it is our sector knowledge which really sets us apart. We have unparalleled experience in the nuclear industry, its sub-sectors and the issues that are faced on a day to day basis.

We have advised nuclear operating companies, suppliers, reactor manufacturers, turbine manufacturers and engineering services firms and other stakeholders, including owners and operators of uranium deposits, financing sources, sovereign governments and regulatory authorities and participants in all aspects of the nuclear fuel life cycle.

EXPERIENCE

- Advised AREVA SA on their investment in New Nuclear Build at Hinkley Point C. Significant advice and support covering all aspects of this major capital project including the new Contract for Difference regime, waste management strategy and HM Treasury Infrastructure Guarantee Scheme.
- Advised Sellafield Limited on all aspects of their waste management and decommissioning programme covering annual capital spend of £1 billion. Complex, public sector procurement advice including competitive dialogue and multi-site procurement procedures for all, site licensee companies in the UK.
- Advising the Nuclear Decommissioning Authority on the application of the International Nuclear Liability Conventions in respect of the marine transport of high level radioactive waste from Europe to Japan. Multi-jurisdictional public international and private international law applied to this highly complex area of nuclear law.
- Advising nuclear supply chain on tendering exercises in support of new nuclear build in the UK. Particular focus on commentary and advice on market expectations of contracting authorities in the nuclear sector and the application of or amendment of standard terms and conditions; such as NEC3 and FIDIC.
- Advising Westinghouse, Nuclear Decommissioning Authority, Magnox Limited and International Nuclear Services Limited on all aspects of fuel supply contracts, enrichment, waste management and radioactive transportation in support of activities in UK and globally.
