

Patent Prosecution and Strategic Patent Counseling

Effectively and strategically prosecuting patents is critical to business, especially for innovative companies. Success may depend on protecting unique technology and revenue streams, while at the same time advancing patents to increase the likelihood they would successfully survive litigation in the future. Our patent lawyers, working with a network of firms around the world, regularly handle patent prosecution for clients on five different continents, including major global corporations, emerging companies and innovative institutions such as manufacturers, service providers, universities and other law firms.

Patent Prosecution

DLA Piper has extensive experience in global patent application drafting and prosecution as well as patent litigation and licensing around the world. We regularly help clients navigate the constantly shifting legal landscape, such as the reforms implemented by the America Invents Act (AIA).

We focus on strategic prosecution – the art of obtaining truly significant and enforceable claims issued at the least expense. Our services don't end, though, with the issuance of a patent. We can support you in the variety of increasingly important post-issuance proceedings available to patentees such as inter partes reviews (IPRs) and post-grant reviews (PGRs). We also coordinate closely with our patent litigation group in developing and executing both offensive and defensive strategies in the USPTO, District Courts and ITC.

Our US patent lawyers are registered with the USPTO, and many possess advanced scientific degrees while others have significant industry experience. DLA Piper has deep, long relationships with a network of firms around the world with whom we coordinate strategy, filings and prosecution.

Strategic Patent Counseling

As intellectual property becomes increasingly vital to innovative businesses, progressive companies and research institutions are beginning to take a strategic look at their IP portfolios to identify where they have strengths, weaknesses and opportunities for additional revenue. Engaging experienced counsel on strategic patent portfolio analysis has become essential to clients who want to maximize their revenue-generating opportunities.

RELATED SERVICES

- Corporate
- Patent Litigation
- Technology Transactions and Strategic Sourcing

RELATED SECTORS

- Energy and Natural Resources
- Life Sciences
- Media, Sport and Entertainment
- Technology

Our highly experienced patent lawyers counsel clients ranging from emerging companies to Fortune 100 companies on how to maximize their business returns by creating and managing their patent portfolios. Many companies have identified significant untapped value and new sources of additional revenue streams. Others have identified their IP assets as growth drivers and potential cornerstones to mergers and acquisitions. As part of our counseling activities, we regularly advise on patentability, validity and freedom to operate issues, provide opinions, conduct due diligence and address other issues connected with corporate mergers and acquisitions, and handle litigation support, as representative examples. Our patent lawyers have detailed knowledge of a wide array of complex technologies – from semiconductors to stem cells - to help you make the most of your IP assets.

CAPABILITES

Our lawyers regularly address complex technologies such as:

- Applied materials
- Biotechnology
- Business methods
- Chemistry
- Communications
- Computer hardware
- Electrical and mechanical arts
- Electronics
- Engineering
- Image storage and processing
- Life sciences
- Medical device
- Pharmaceutical
- Semiconductors
- Software

We also routinely handle relatively less complex technologies for products and services in the retail, entertainment and consumer products industries.
