

Projects, Energy and Infrastructure

DLA Piper's Projects, Energy and Infrastructure team has a track record of successfully delivering first-rate legal services in all segments of the infrastructure and energy industries. We advise on energy law, infrastructure finance, transport matters and more.

Our lawyers understand the commercial, strategic, technical, geographical and political factors that shape and impact these industries, as well as the business issues and risks inherent when working in these sectors. Our market leading presence also allows us first-hand access to contacts, sponsors and key decision makers worldwide.

CAPABILITES

The group represents sponsors, contractors, multilateral institutions, corporations, developers, equity investors, financial institutions, governments, utilities and regulatory bodies in the procurement, development, financing, acquisition, construction and operation of a wide range of complex infrastructure and energy projects on nearly every continent.

These projects include:

- Power generation from natural gas, coal, petroleum and, renewables
- Pipelines
- Drilling platforms
- Transmission networks
- Mining facilities
- Defence and security projects
- Waste projects and resource recovery facilities
- Telecommunications networks
- Vessels
- Ports
- Airports
- Highways, toll roads and bridges
- Transportation systems including airports, heavy rail, light rail and bus
- Water supply and waste water systems

INSIGHTS

Publications

Alberta government lays the ground work for geothermal resource development

6 November 2020

Alberta continues to evolve its legislative and regulatory framework to encourage the development of low-carbon and zero-carbon energy sources.

Assessing ESG factors in the energy sector

27 October 2020

ESG HANDBOOKS AND GUIDES

A reference tool for energy companies as they discuss and refine their ESG programs.

DLA Piper Collaborative Contracting and Procurement Paper 2020

22 October 2020

The construction industry has suffered for ages from contracts and procurement processes that crudely allocate various risks resulting in misaligned incentives and consequent disputation.

It was from a desire to overcome this misalignment of interests that 'collaborative contracting' was born.

Read more in our paper.

Germany's New Foreign Direct Investments (FDI) Act took effect on 11 October 2020

19 October 2020

In addition to the intended amendments to the Foreign Trade and Payments Act Germany's Federal Government on 20 May 2020 has decided on a bill that broadens the scope and the scrutiny with regard to foreign investments.

The energy transition and renewable energy in Chile: Top points for foreign investors

8 October 2020

Chile has been actively addressing the energy transition for more than a decade, building a legal foundation that is attracting investment in renewable energy projects.

Three ESG steps to keep your project bankable in 2021

17 September 2020

Version four of the Equator principles will take effect on 1 October 2020, and it introduces three new requirements to the international environmental and social baseline for project finance.

Significant reforms to the *Environmental Assessment Act* reshape environmental review in Ontario

17 AUG 2020

Since November 2018, the Government of Ontario has repeatedly signalled its intention to “modernize” the Ontario *Environmental Assessment Act* to better align the level of review with the degree of potential environmental risk associated with a project and streamline review processes for low risk projects.

The new strategic assessment of climate change imposes additional requirements on project proponents

31 JUL 2020

On July 16, 2020, the federal government published the *Strategic Assessment of Climate Change*, which will be used by the Impact Assessment Agency of Canada (the “Agency”) to evaluate the anticipated impact of a proposed project on Canada’s commitments in respect of climate change. This newly released strategic assessment establishes additional information requirements that must be complied with by proponents of “designated projects” required by regulation or ministerial designation to undergo a formal impact assessment in accordance with the federal *Impact Assessment Act*.

Welcome tax change announced for Canadian resource companies

28 JUL 2020

On July 13, 2020, the Canadian federal Department of Finance announced proposed changes to the flow-through share tax rules that will be welcome news to Canadian resource exploration companies. The proposals, which are in response to difficulties that such companies have faced in pursuing their exploration activities in light of the COVID-19 pandemic, extend the period by 12 months during which “Canadian exploration expenditures” must be spent.

The Energy Transition: The impact of Covid-19 and moving to a net-zero economy

26 May 2020

On 19 March 2020, Adrian Del Maestro, global research director with PwC Strategy&, presented to DLA Piper’s International Energy and Natural Resources sector lawyers on the immediate impact of COVID-19 and challenges of moving to a net zero economy.

Mexican renewable energy projects affected by new measures

19 May 2020

Foreign investors in wind and solar electricity generation facilities in Mexico may wish to consider their rights and potential remedies under applicable investment instruments.

Public law: How does Covid-19 impact the Flemish integrated environmental permit?

14 May 2020

The COVID-19 outbreak has not only created an increasing need for care facilities and medical supplies, but it has also had a far-reaching impact on the ongoing procedures for granting environmental permits. In order to tackle these issues, the Flemish

Parliament voted on an emergency decree on 18 March 2020.

Are high voltage DC networks the future of electricity distribution?

29 April 2020

In the late 19th century direct current (DC) electricity supply networks were promoted by Thomas Edison as a purportedly safer alternative to alternating current (AC) which was championed by George Westinghouse for use in high voltage street arc lighting and which caused many fatalities.

A discussion of California plugging and abandonment rules

27 April 2020

Requirements for onshore oil and gas wells in California, as well as ties among these requirements and bankruptcy.

Breaking mega projects into smaller contract packages – a fraught response to a fraught market

24 April 2020

In response to Australia's fraught construction market for major civil construction works, project owners and contractors are adopting various strategies. One of the most common is breaking mega projects into smaller contract packages, however, what exactly are the benefits and risks?

EPA and CalEPA guidance on field activities during COVID-19 focuses on agency communication, deadlines and flexibility

24 April 2020

EPA wishes individual regions to communicate directly with their regulated communities to ensure reasonable expectations for ongoing field work; meanwhile, CalEPA may fill gaps in EPA's enforcement.

Projects Global Insight Issue 3, 2020

24 April 2020

PROJECTS GLOBAL INSIGHT

Contributing to a sustainable future is more important than ever during these uncertain and testing times. Infrastructure and public services are under particular pressure, especially in terms of what can be done to make them more resilient, yet adaptable.

Responding to a fraught civil construction market

24 April 2020

The contracting market for major civil construction works on Australia's east coast has become fraught - for project owners, major contractors, and the rest of the supply chain. Projects have become more complex and expensive, yet despite rising contract values, contractors struggle with profitability. So, what strategies are being considered?

Using blended finance to support infrastructure development in emerging economies

24 April 2020

The 2030 Agenda for Sustainable Development adopted by the United Nations sets out 17 Sustainable Development Goals; from poverty reduction, food security, healthcare and education to climate change mitigation and other development objectives. What is, and how can blended finance be used in emerging economies?

A discussion of Texas plugging and abandonment rules

17 April 2020

An outline of the plugging and abandonment requirements of onshore oil and gas wells in Texas plus a discussion of ties between the plugging requirements and bankruptcy.

Paradigm Change in Germany's Foreign Direct Investments (FDI) Law

14 April 2020

Germany's FDI rules so far had a reputation of not being very strong. In the past few years, only three transactions have been prohibited. This is set to change under a new bill.

Alberta government announces relief for energy industry

8 APR 2020

Alberta oil and gas producers, who are dealing with both historically low commodity prices and the COVID-19 crisis, received some relief from the Alberta government over the last several weeks as the government announced several measures designed to reduce and defer producers' costs and ease the administrative burden on producers.

High Court rules BHP entities were associates

23 March 2020

On 11 March 2020, in an unanimous and landmark decision, the High Court of Australia handed down its decision on the technical meaning of "sufficiently influenced" which is used to determine who is an "associate" under Australia's foreign income attribution rules. The decision has significant impact for large listed groups especially with a dual-listed company (**DLC**) structure and concerns the application of the Australian Controlled Foreign Company (**CFC**) rules.

Whilst the facts and future application of this case may principally be limited to the DLC type structures, the legal analysis of the definition of "associate" impacts on wider applications as this definition is used outside of the CFC provisions including the thin capitalisation rules, the debt/equity tests and the withholding tax rules.

Introducing the DLA Piper Project Simulator

17 March 2020

One of the most critical challenges faced by our global society is developing high-quality, sustainable infrastructure. To help businesses meet this challenge, DLA Piper has collaborated with leading strategy consultancy BTS to create **The DLA Piper Project Simulator (DPS)**, an interactive training tool.

COP25's key outcome: adoption of the San Jose Principles on carbon market mechanisms – takeaways for

business

12 February 2020

Ambitious countries are not waiting for full consensus on carbon markets.

Flexing PPPs

10 February 2020

This paper considers how governments can manage this vulnerability when contracting under a PPP contract. It also considers whether alternative contractual models might provide government with better value for money over the longer term.

Construction delays arising out of the Novel Coronavirus outbreak (AsiaPac)

7 February 2020

Since the first case of coronavirus was confirmed in Hong Kong in early February 2020, the government has imposed various measures in an attempt to contain the spread of the coronavirus. The resulting impact of the novel coronavirus is far-reaching and affects every industry and business in Hong Kong. This alert considers some of the key issues that construction contractors and developers in Hong Kong may face. If you need any specific advice, please contact May Ng or Sandy Au for further details.

The changing face of the Asia Pacific LNG market: Trending away from oil linked pricing and long-term contracts

15 December 2019

The market in the Asia Pacific region has traditionally been underpinned by contract structures based on crude oil linked prices and long-term offtake. These contract structures are changing – what pricing and contract duration trends are to be expected?

Jury acquits foreign national in apparent rebuke of DOJ's attempt to police overseas corruption

4 December 2019

The result highlights some significant issues that may, in some cases, limit the ability of the DOJ to prosecute foreign nationals for corruption overseas.

Changes to Equator Principles introduce new requirements in relation to human rights, climate change and Indigenous Peoples for project debt

22 November 2019

On 18 November 2019, the Equator Principles Association published version four of the Equator Principles (EP4), updating the international baseline for the identification, assessment and management of environmental and social risks in international project finance debt markets. The changes, which take effect on 1 July 2020.

Digital Transformation in Energy and Natural Resources

9 October 2019

The global demand for power rises, the requirement for increased productivity, greater efficiencies in distribution and flexibility for consumers (both corporate and residential) is also growing. As such, we have launched report on how digital technologies are impacting the Energy and Natural Resources sector.

Japan's vision to realize a "Hydrogen-Based Society"

8 October 2019

With less than a year until the Tokyo 2020 Olympic and Paralympic Games, the Japanese government, the Tokyo Metropolitan government and Japanese manufacturing companies are looking to use these sporting events to introduce visitors from around the world to Japan's state-of-the-art technology in the field of hydrogen.

[PROJECTS GLOBAL INSIGHT](#)

One of the key trends in this issue is growing interest in sustainable, resilient and regenerative projects. This is driven by the heightened awareness and concern surrounding global warming and climate change and, arguably, a lack of funding following the global financial crisis.

Responsible investing

20 August 2019

The rise of responsible investing and global renewable energy opportunities with growing exposure given to environmental, social and governance (ESG) issues.

Vendor financing for stage 1 of the bridge power project in Ghana

20 August 2019

Case study of unique, limited-recourse vendor financing for combined cycled gas turbine power project in Ghana. The vendor financing for this project won the Best Financial Structure Silver award and Best Utilities Project Gold award at the Partnerships Awards 2019.

What is the future of LNG pricing?

20 August 2019

Is LNG pricing linked to crude oil an outdated model?

Walking the tightrope: Distinguishing substantial compliance from material deficiency in bid documents

11 JUL 2019

Imagine you are a procurement manager. You have received three proposals in response to your RFP, from Bidders A, B and C, none of which fully matches the requirements. You must now determine whether any or all of these proposals is capable of acceptance or must be rejected as containing a material defect. This article discusses the tightrope that must often be walked when distinguishing between substantial compliance and material deficiency in bid documents.

Top of Mind: Litigation
