

Projects, Energy and Infrastructure

DLA Piper's Projects, Energy and Infrastructure team has a track record of successfully delivering first-rate legal services in all segments of the infrastructure and energy industries. We advise on energy law, infrastructure finance, transport matters and more.

Our lawyers understand the commercial, strategic, technical, geographical and political factors that shape and impact these industries, as well as the business issues and risks inherent when working in these sectors. Our market leading presence also allows us first-hand access to contacts, sponsors and key decision makers worldwide.

CAPABILITES

The group represents sponsors, contractors, multilateral institutions, corporations, developers, equity investors, financial institutions, governments, utilities and regulatory bodies in the procurement, development, financing, acquisition, construction and operation of a wide range of complex infrastructure and energy projects on nearly every continent.

These projects include:

- Power generation from natural gas, coal, petroleum and, renewables
- Pipelines
- Drilling platforms
- Transmission networks
- Mining facilities
- Defence and security projects
- Waste projects and resource recovery facilities
- Telecommunications networks
- Vessels
- Ports
- Airports
- Highways, toll roads and bridges
- Transportation systems including airports, heavy rail, light rail and bus
- Water supply and waste water systems

INSIGHTS

Publications

Three ESG steps to keep your project bankable in 2021

17 September 2020

Version four of the Equator principles will take effect on 1 October 2020, and it introduces three new requirements to the international environmental and social baseline for project finance.

COVID-19 Construction Guide

16 June 2020

This guide looks at the impact of COVID-19 on the construction sector in over 30 countries, including the latest position as jurisdictions relax their lockdown measures.

The Energy Transition: The impact of Covid-19 and moving to a net-zero economy

26 May 2020

On 19 March 2020, Adrian Del Maestro, global research director with PwC Strategy&, presented to DLA Piper's International Energy and Natural Resources sector lawyers on the immediate impact of COVID-19 and challenges of moving to a net zero economy.

German Government intends to broaden investment control scope and scrutiny, especially with regard to the health sector

22 May 2020

In addition to the intended amendments to the Foreign Trade and Payments Act Germany's Federal Government on 20 May 2020 has decided on a bill that broadens the scope and the scrutiny with regard to foreign investments.

Mexican renewable energy projects affected by new measures

19 May 2020

Foreign investors in wind and solar electricity generation facilities in Mexico may wish to consider their rights and potential remedies under applicable investment instruments.

Public law: How does Covid-19 impact the Flemish integrated environmental permit?

14 May 2020

The COVID-19 outbreak has not only created an increasing need for care facilities and medical supplies, but it has also had a

far-reaching impact on the ongoing procedures for granting environmental permits. In order to tackle these issues, the Flemish Parliament voted on an emergency decree on 18 March 2020.

Revisions to Japan's Stewardship Code in 2020

29 April 2020

On 24 March 2020, Japan's Financial Services Agency (FSA) finalized and published the second revised version of Japan's Stewardship Code (the Code). The revised Code (the Revision Code) is intended to progress the Japanese government's corporate governance reform, one of the key pillars of Prime Minister Abe's economic revival program, following revisions to Japan's Corporate Governance Code in 2018.

Are high voltage DC networks the future of electricity distribution?

29 April 2020

In the late 19th century direct current (DC) electricity supply networks were promoted by Thomas Edison as a purportedly safer alternative to alternating current (AC) which was championed by George Westinghouse for use in high voltage street arc lighting and which caused many fatalities.

A discussion of California plugging and abandonment rules

27 April 2020

Requirements for onshore oil and gas wells in California, as well as ties among these requirements and bankruptcy.

EPA and CalEPA guidance on field activities during COVID-19 focuses on agency communication, deadlines and flexibility

24 April 2020

EPA wishes individual regions to communicate directly with their regulated communities to ensure reasonable expectations for ongoing field work; meanwhile, CalEPA may fill gaps in EPA's enforcement.

Projects Global Insight Issue 3, 2020

24 April 2020

PROJECTS GLOBAL INSIGHT

Contributing to a sustainable future is more important than ever during these uncertain and testing times. Infrastructure and public services are under particular pressure, especially in terms of what can be done to make them more resilient, yet adaptable.

Responding to a fraught civil construction market

24 April 2020

The contracting market for major civil construction works on Australia's east coast has become fraught - for project owners, major contractors, and the rest of the supply chain. Projects have become more complex and expensive, yet despite rising contract values, contractors struggle with profitability. So, what strategies are being considered?

Breaking mega projects into smaller contract packages – a fraught response to a fraught market

24 April 2020

In response to Australia's fraught construction market for major civil construction works, project owners and contractors are adopting various strategies. One of the most common is breaking mega projects into smaller contract packages, however, what exactly are the benefits and risks?

Using blended finance to support infrastructure development in emerging economies

24 April 2020

The 2030 Agenda for Sustainable Development adopted by the United Nations sets out 17 Sustainable Development Goals; from poverty reduction, food security, healthcare and education to climate change mitigation and other development objectives. What is, and how can blended finance be used in emerging economies?

A discussion of Texas plugging and abandonment rules

17 April 2020

An outline of the plugging and abandonment requirements of onshore oil and gas wells in Texas plus a discussion of ties between the plugging requirements and bankruptcy.

Paradigm Change in Germany's Foreign Direct Investments (FDI) Law

14 April 2020

Germany's FDI rules so far had a reputation of not being very strong. In the past few years, only three transactions have been prohibited. This is set to change under a new bill.

Alberta government announces relief for energy industry

8 APR 2020

Alberta oil and gas producers, who are dealing with both historically low commodity prices and the COVID-19 crisis, received some relief from the Alberta government over the last several weeks as the government announced several measures designed to reduce and defer producers' costs and ease the administrative burden on producers.

High Court rules BHP entities were associates

23 March 2020

On 11 March 2020, in an unanimous and landmark decision, the High Court of Australia handed down its decision on the technical meaning of “sufficiently influenced” which is used to determine who is an “associate” under Australia’s foreign income attribution rules. The decision has significant impact for large listed groups especially with a dual-listed company (**DLC**) structure and concerns the application of the Australian Controlled Foreign Company (**CFC**) rules.

Whilst the facts and future application of this case may principally be limited to the DLC type structures, the legal analysis of the definition of “associate” impacts on wider applications as this definition is used outside of the CFC provisions including the thin capitalisation rules, the debt/equity tests and the withholding tax rules.

Introducing the DLA Piper Project Simulator

17 March 2020

One of the most critical challenges faced by our global society is developing high-quality, sustainable infrastructure. To help businesses meet this challenge, DLA Piper has collaborated with leading strategy consultancy BTS to create **The DLA Piper Project Simulator (DPS)**, an interactive training tool.

Building tomorrow’s infrastructure

17 March 2020

What does the future look like for infrastructure as a whole?

COP25’s key outcome: adoption of the San Jose Principles on carbon market mechanisms – takeaways for business

12 February 2020

Ambitious countries are not waiting for full consensus on carbon markets.

Flexing PPPs

10 February 2020

This paper considers how governments can manage this vulnerability when contracting under a PPP contract. It also considers whether alternative contractual models might provide government with better value for money over the longer term.

Construction delays arising out of the Novel Coronavirus outbreak (AsiaPac)

7 February 2020

Since the first case of coronavirus was confirmed in Hong Kong in early February 2020, the government has imposed various measures in an attempt to contain the spread of the coronavirus. The resulting impact of the novel coronavirus is far-reaching and affects every industry and business in Hong Kong. This alert considers some of the key issues that construction contractors and developers in Hong Kong may face. If you need any specific advice, please contact May Ng or Sandy Au for further details.

First EU international agreement linking greenhouse emissions trading systems

24 January 2020

This publication offers you the latest insights and conclusions on the first international agreement linking greenhouse gas emissions trading systems.

Europe's Subsidy-free Transition – the road to grid parity

18 December 2019

In this report, we have partnered with inspiratia to shed light on the drivers, bottlenecks and prospects across Europe, lessons learned from countries at the vanguard of the transition, and to forecast the next wave of PPA trends.

The changing face of the Asia Pacific LNG market: Trending away from oil linked pricing and long-term contracts

15 December 2019

The market in the Asia Pacific region has traditionally been underpinned by contract structures based on crude oil linked prices and long-term offtake. These contract structures are changing – what pricing and contract duration trends are to be expected?

New rules for the electricity wholesale market and directly negotiated power purchase agreements outside the centralized market

6 December 2019

The Romanian Energy Regulatory Authority (ANRE) has published on its web-site for public consultations a draft Order for the approval of the actions and rules that will be applied on the electricity market in order to eliminate and / or mitigate the impact of some measures or policies that can restrict the formation of prices on the wholesale electricity market (Draft Order).

Jury acquits foreign national in apparent rebuke of DOJ's attempt to police overseas corruption

4 December 2019

The result highlights some significant issues that may, in some cases, limit the ability of the DOJ to prosecute foreign nationals for corruption overseas.

Objectives of Ofgem's Targeted Charging Review

29 November 2019

On 21 November 2019, as part of its Targeted Charging Review (TCR), Ofgem has published its decision and impact assessment. One of the objectives of the TCR were to "consider reform of residual charging arrangements for both generation and demand, to ensure it meets the interests of current and future consumers".

European Offshore Wind – what does the future look like?

26 November 2019

The story of offshore wind in Europe is remarkable by any standards. In the space of little more than a decade, some 4,500 turbines have been deployed across the North Sea, the Baltic and the Atlantic. Europe installed 2.6GW of new offshore wind energy capacity in 2018 alone.

Changes to Equator Principles introduce new requirements in relation to human rights, climate change and Indigenous Peoples for project debt

22 November 2019

On 18 November 2019, the Equator Principles Association published version four of the Equator Principles (EP4), updating the international baseline for the identification, assessment and management of environmental and social risks in international project finance debt markets. The changes, which take effect on 1 July 2020.

Digital Transformation in Energy and Natural Resources

9 October 2019

As such, we have launched report on how digital technologies are impacting the Energy and Natural Resources sector.

Infra

8 October 2019

Using technology to improve infrastructure development and procurement. By dimitri papaefstratiou, partner, dla piper and vicky kefalas, head of investments, developments and projects at consolidated contractors company (ccc), the middle eastern construction conglomerate.

Japan's vision to realize a "Hydrogen-Based Society"

8 October 2019

With less than a year until the Tokyo 2020 Olympic and Paralympic Games, the Japanese government, the Tokyo Metropolitan government and Japanese manufacturing companies are looking to use these sporting events to introduce visitors from around the world to Japan's state-of-the-art technology in the field of hydrogen.

Distributed generation in Brazil

20 August 2019

The bright future of Brazilian renewable energy - increase in the production of electricity from renewable sources for Brazilian consumers and offset the surplus with their local distribution company.

Coal, iron ore, LNG... Hydrogen?

20 August 2019

Hydrogen shows potential to become new export industry down under.

Projects Global Insight Issue 2, 2019

20 August 2019

PROJECTS GLOBAL INSIGHT

One of the key trends in this issue is growing interest in sustainable, resilient and regenerative projects. This is driven by the heightened awareness and concern surrounding global warming and climate change and, arguably, a lack of funding following the

global financial crisis.

Responsible investing

20 August 2019

The rise of responsible investing and global renewable energy opportunities with growing exposure given to environmental, social and governance (ESG) issues.

Key themes in distressed projects

20 August 2019

Issues and challenges facing global infrastructure projects, and a look at possible solutions and mitigations.

Vendor financing for stage 1 of the bridge power project in Ghana

20 August 2019

Case study of unique, limited-recourse vendor financing for combined cycled gas turbine power project in Ghana. The vendor financing for this project won the Best Financial Structure Silver award and Best Utilities Project Gold award at the Partnerships Awards 2019.

What is the future of LNG pricing?

20 August 2019

Is LNG pricing linked to crude oil an outdated model?

Renewable Energy in Africa

18 June 2019

The African continent, with a population exceeding one billion people and an estimated combined economy of USD1.5 trillion, presents huge opportunities for investors, developers and operators across the renewable energy sector.

Top of Mind: Litigation

20 MAR 2019

In this issue, our coverage of 10 big topics businesses have been thinking about this quarter.

DLA Piper in Latin America: 2018 in review

28 FEB 2019

While challenges always lie ahead, we are excited by the region's continuing growth.

Projects Global Insight Issue 1, 2018

19 December 2018

PROJECTS GLOBAL INSIGHT

Welcome to DLA Piper's Projects Global Insight. In this twice-yearly global insight, we seek to share the knowledge we've gained and put the spotlight on some of the most innovative, market-leading transactions we have been involved in.

APPs en América Latina: resolución de disputas a través de arbitraje inversor-estado

18 DEC 2018

Medidas de protección de la inversión pueden encontrarse en los contratos de APP, pero también en el derecho internacional.

Issue 1

5 December 2018

ENERGY AND NATURAL RESOURCES CASE LAW UPDATE

Given the often complex nature of business in the Energy and Natural Resources sector, it is inevitable that disputes will arise, and that the law will develop apace.

Martial law is introduced in Ukraine starting from 26 November 2018

28 NOV 2018

On 26 November 2018, the Parliament of Ukraine imposed temporary martial law in some regions of Ukraine approving respective Decree of the President of Ukraine. The martial law is introduced in response to escalation of Russian aggression in the Black Sea and the Sea of Azov. The Law will come into force only after it is officially published.

The 116th Congress: prospects for tax policy as House shifts to Democrats

8 NOV 2018

Key issues arising from the overall shift of the House from Republican to Democratic control.

Supply chain human rights risk management: Blockchain and emerging technology

8 NOV 2018

Global businesses, financiers and investors are faced with an increasingly complex and interconnected legal, financial and reputation risk agenda related to human rights and other responsible business conduct issues.

Supreme Court Corner Q3 2018

27 SEP 2018

The court rules on recovery of lost foreign profits and ponders patentability issues in an invention's sale to a third party that is obligated to keep the invention confidential.

Tax incentives in Puerto Rico: a quick introduction

13 JUN 2017

Puerto Rico offers a spectrum of economic incentives aiming to promote many key industries. This handbook offers a quick look at ten of the most significant of these incentives.

Electrify Africa Act is now law

2 MARCH 2016

The law demonstrates broad bipartisan support for a comprehensive US policy aiming to facilitate private financing and PPP structures as tools to develop power projects in sub-Saharan Africa, which should provide opportunities for investors, sponsors and lenders to advance their projects.

Slavery in the supply chain: new corporate reporting obligations for companies

9 DEC 2015

HEALTH, SAFETY AND ENVIRONMENTAL MATTERS SERIES

The UK's Modern Slavery Act 2015 is in force, imposing on companies new reporting requirements and new enforcement powers, including the creation of an Independent Anti-Slavery Commissioner.
