

Mark F. Radcliffe

Partner

Silicon Valley

T: +1 650 833 2266

F: +1 650 687 1222

Mark Radcliffe's practice is split evenly between corporate securities (particularly venture capital transactions) and intellectual property licensing and strategy. He works with technology companies and companies that use technology throughout the world. Currently, he is particularly focused on the use of blockchain technology and the use of tokens for capital formation and implementing new business models.

Mark has been working in Silicon Valley for over 30 years and has worked on over 1,000 venture capital transactions. He has significant experience in applying the law to the issues raised by new technologies, such as open source software, blockchain, IoT and domain names. For example, in 1994, he assisted Network Solutions, Inc. in developing the first domain dispute resolution system which is still the basis for the system in use today. His clients range from Fortune 500 such as Oracle Corporation and Sony Corporation to unknown startups. Currently, he and his team work with over 50 startups. He has worked across a wide variety of industries, including software (in particular open source software), blockchain, IoT, semiconductor, consumer electronics, content licensing (from music to characters), and medical devices.

Recognitions

Leading international legal publishers consistently rank Mark among the top lawyers in his profession. *Chambers USA* has repeatedly recognized him as "outstanding" and "a leader in open source-related matters." Chambers & Partners has commented that Mark "has a wealth of experience in the technology sector. Clients particularly value the proactive approach he takes to understanding their needs and the strategic advice that follows." "He is also well known for his specialist expertise on open source matters." The directory stated that Mark "draws praise from peers for his work on the other side of the table in complex outsourcing transactions," and "also has significant expertise in cutting-edge cloud services agreements." He is "hailed for his 'effectiveness in the commercial requirements of fast-moving and complex situations.'" "Sources praise his 'excellent technical knowledge and business savvy.'"

The Legal 500 United States has recommended Mark for "his experience in software matters, including open-source and cloud computing." "His expertise in providing strategic IP advice, with particular specialism in open-source matters, has won him plaudits. Indeed, one client describes him as 'probably the best lawyer in his field.'" The directory has also stated that he "has particular knowledge of cloud platforms and marketplaces" and "provides strategic IP advice and expertise in cloud computing and social media."

Mark was named the 2019 Lawyer of the Year by *Best Lawyers*, and he is the only attorney to receive this award in his practice area in his metro region. He is also listed as a "highly recommended expert" for his transactional experience in the *IAM Patent 1000, The World's Leading Patent Professionals 2018*.
