

Renewables

We are at the forefront of the renewable energy market, advising sponsors, developers, financiers and regulatory bodies, among others, on transactions across the spectrum of renewable energy technologies, including hydro, solar, onshore and offshore wind, energy-from-waste, biomass and biofuels.

Our renewable energy lawyers have hands-on, practical experience of delivering each stage of a project, including planning, permitting, joint ventures and other corporate matters, structuring equity investment, developing project documents (such as PPAs, turbine supply agreements, EPC and O&M arrangements), project finance (including multi-source, ECA-backed financings) and M&A. We further advise our clients in relation to renewable energy support mechanisms, such as ROCs, LECs and CfDs in the UK, as well as statutory feed-in tariffs and other such mechanisms for both suppliers and end users.

EXPERIENCE

Solar power and solar technology projects

- John Laing Investments Ltd on their first acquisition and development in the solar sector in respect of two 5MW solar parks in England acquired from Wirsol. Following the acquisition, we advised John Laing Investments Ltd on the refinancing of this project by Nord LB.
- The sponsor, a subsidiary of Eaga plc, in connection with the £235 million project financing for the UK's first large-scale rooftop solar PV project to achieve financial close in the UK.
- Landesbank Baden-Württemberg in respect of a PV project financing in Cornwall.

Onshore and offshore wind projects

- The lenders in connection with the project financing of the Red Cap Kouga wind farm in South Africa.
- The sponsor in connection with the project financing, provided by lenders including the EIB and the EBRD, of the 120 MW Margonin wind farm in Poland, the largest renewable energy project financing in Poland to date.
- A successful bidder for a Zone in the Round 3 Offshore Wind Farm programme in the United Kingdom.
- Nord LB on 7 separate on-shore wind project financings which have successfully reached financial close and advising Nord LB on a further onshore wind project financing.
- O2 Vind in relation to a 10 year PPA with Google for the entire output of a 72MW wind farm project in Sweden.

Fossil fuel industry and ESG; energy aspects of Biden infrastructure plan; floating storage can rule the seas or give you a sea of trouble.

Episode 3: Are corporates in the green driving seat?

24 May 2021

THE CLIMATE TRANSITION PODCAST

We have seen growing demand from corporates to buy power from wind and solar projects. In this episode, we are joined by Phil Dominy from EY as we look at how current agreement in these power purchase agreements (PPAs) is driving significant corporate activity on fixing the climate crisis. Are PPAs delivering the action we need? How can corporates work closely with renewable operators to do more and do it faster? How can we grow PPAs beyond a handful of off-takers and countries?

FERC issues policy statement regarding state-determined carbon pricing in wholesale electricity markets

22 April 2021

The policy statement allows FERC to avoid the restriction imposed by the *EPSA* decision, which reserves certain matters under FPA section 201(b) exclusively for the states.

CFTC final position rule limits enter into effect March 15

10 March 2021

The Final Rules aim to "prevent excessive speculation" and thus implement one of the remaining key provisions of Dodd-Frank.
