Andrew Serwin is one of the pre-eminent privacy and security practitioners in the world. He has worked on some of the highest-profile privacy and security matters, and clients describe him as a "rock star lawyer," "a walking encyclopedia on anything data protection related" and "a tireless worker, holding onto the ever-shifting puzzle pieces of the law in this area in a way that other privacy lawyers cannot" (*Chambers USA*). For his work in data protection and privacy, Andrew is an inaugural inductee into the 2017 Legal 500 Hall of Fame, comprised of outstanding US lawyers who have been recommended as *Legal 500* Leading Lawyers for the last six consecutive years. He was also recently named one of the *Daily Journal's* Top 100 Lawyers in California for 2016 and a *National Law Journal* 2015 Cyber Security & Data Privacy Trailblazer, recognizing the 50 people "who have helped make a difference in the fight against criminal cyber activity."

Andrew offers clients the practical experience that comes from having counseled on many of the highest profile privacy and cybersecurity matters of recent years, with the breadth of knowledge that comes from authoring the premier global treatise on privacy and cybersecurity.

With extensive business and leadership experience, Andrew understands his clients' businesses, industries and unique challenges. He has founded, advised and served on the board of directors of many companies, particularly in the transformational technology and media sectors. He also holds advanced certifications in governance, including as a National Association of Corporate Directors (NACD) Governance Fellow and Carnegie Mellon University's Computer Emergency Response Team (CERT) certification in cyber oversight.

Andrew is a noted public speaker and author and the only law firm lawyer ever to be named to *Security Magazine's* prestigious "25 Most Influential Industry Thought Leaders." He wrote the leading treatise on privacy and security, *Information Security and Privacy: A Guide to Federal and State Law and Compliance and Information Security and Privacy: A Guide to International Law and Compliance* (West 2006-2020), collectively a 6,000-page, three-volume treatise that examines all aspects of privacy and security

RELATED SERVICES

- Intellectual Property and Technology
- Data Protection, Privacy and Security
- Commercial Contracts

laws, published by Thomson-West. The treatise has been called "the best privacy sourcebook," "an indispensable resource for privacy professionals at all levels," and "a book that everybody in the information privacy field should have on their desk." He has published numerous other books and law review articles and routinely authors client alerts on cutting-edge privacy and cybersecurity developments.

EXPERIENCE

Andrew advises a number of Fortune 500 and emerging companies alike regarding privacy, security, crisis management and national security, with a particular emphasis on: international compliance; cybersecurity; national security issues; health privacy; mobile; behavioral advertising; the Electronic Communications Privacy Act and wiretap issues; electronic marketing concerns; social media; and compliance with FTC requirements. He also handles some of the highest-profile data security incidents and privacy enforcement and litigation matters in the world. His representations involve every aspect of breach preparedness and response, from drafting incident response plans and conducting tabletop exercises, to advising on consumer and state notices, responding to regulators and defending companies in litigation relating to the incident. Andrew has served as lead counsel in a number of FTC matters, matters before the Office for Civil Rights and state consumer protection and privacy litigation based on the alleged misuse of personal information, including class actions and enforcement matters brought by state attorneys general.

- Represent leading technology company in what is alleged to be one of the largest, and most complicated, security incidents.
- Mr. Serwin was selected as the lead expert witness on U.S. law by the Irish Data Protection Commissioner in Schrems II. His opinions on surveillance, Article III standing, and the scope of U.S. remedies, served as the basis of the U.S. law discussion in the Commissioner's Draft Decision, and this analysis was largely adopted by the Irish High Court in its decision, affirmed by the Irish Supreme Court, and served as the basis of the CJEU's decision
- Advised Target Corporation on a security incident involving theft of credit card and other personal information allegedly from up to 70 million individual customers
- Represented health insurance provider in multiple security breaches, including a 2015 security incident that allegedly involved 80 million insureds
- Represented a global technology provider in a significant security incident
- Advised eBay on a global security incident, on a breach allegedly involving over 140 million records.
- In the Matter of CVS Caremark, represents CVS before the Federal Trade Commission and the Office for Civil Rights in connection with a consent decree and resolution agreement arising from allegations related to information security
- In the Matter of Playdom, Inc., a subsidiary of Disney Enterprises, Inc., represented company before the Federal Trade Commission in an investigation alleging a violation of COPPA and Section 5
- Represent numerous companies before the FTC in consumer protection investigations
- Represented Fortune 50 healthcare company before OCR in a matter arising from allegations of improper access to medical records. Case closed without enforcement
- Drafted all documents relating to security breach response for numerous clients, including notification letters, scripts, and questions and answers for individuals, as well as notification letters to state authorities and credit reporting agencies, including under HIPAA
- Advise numerous major utilities, financial services companies, health care companies, technology companies, and retailers, on information sharing, incident response and preparedness, disaster recovery, including drafting policies and procedures and conducting numerous tabletop exercises
- Represent major health insurer in cybersecurity incident
- Represent global consulting and staffing company in responding to security incidents
- Represented a global relationship management company in several litigation matters, including a qui tem action, and a government investigation, that arose from the alleged improper disclosure of sensitive information. The matters resolved on favorable terms
- Hall v. Pacific Dental Services, Inc., represented the defendants in a putative class action alleging violation of the California Medical Information Act related to the alleged improper sharing of information. Summary judgment was granted for our client.
- Source Healthcare Analytics, LLC, v. NDCHealth Corporation, Represented defendant in technology dispute arising out of allegations related to uses of health care data

- Represent several global consulting firms in numerous privacy and security matters, including internal investigations.
- Represent global consulting firm in matter before OCR relating to allegations of HIPAA non-compliance and retaliation. Case closed without enforcement.
- Represent global financial services cases in privacy and security diligence for a multi-billion dollar acquisition
- Conduct numerous tabletops and incident simulations for a cross-sectional group of companies, including utilities, financial services companies and health care companies
- People of the State of New York v. Synergy 6, Inc., et al., represented two of the defendants in an action brought by Attorney General Eliot Spitzer arising out of the alleged improper sending of commercial e-mails. The case sought US\$20 million in civil penalties and ultimately resolved for US\$50,000
- Create information sharing programs for numerous global companies
- Represent numerous AdTech, sports and media companies in CCPA, privacy, and cybersecurity matters
