

Technology Transactions and Strategic Sourcing

Our global technology transactions and strategic sourcing lawyers have the market knowledge, legal experience and global presence to provide you with the highest quality legal services throughout the world.

Recognized by the legal directories as one of the preeminent practices and with vast global reach, our technology transactions and strategic sourcing practice concentrates on complex transactions and multi-party, high-value project work which frequently spans multiple jurisdictions. We focus on the development, protection, exploitation and use of intellectual property and technology-related assets through the stages of a company's growth, as well as the sourcing of strategic assets and services for use in a company's operations.

Our team has deep industry experience in a variety of sectors, allowing us to provide practical advice and innovative solutions along with market leading technical know-how. Our clients range from emerging companies to large global corporations.

Core areas include:

- Cloud computing
- e-Commerce
- IP development
- Licensing
- Open source
- Outsourcing
- Procurement
- Strategic alliances and joint ventures
- Technology transactions
- Telecommunications

Our proprietary ASCENDANT methodology and its associated unique software tools continue to differentiate us in the market and allow us to deliver services cost efficiently to clients around the globe.

Our **Global Sourcing Portal** is an information gateway for both private and public companies that are involved with strategic sourcing initiatives including the outsourcing of key operations. Clients use the Global Sourcing Portal to access a range of proprietary tools that DLA Piper has developed while working on some of the world's largest, most complex

sourcing projects. These tools include:

Sourcing Contract Dashboard - An interactive, web-based contract assessment and reporting tool that answers the question “how good is this outsourcing contract compared to the market?”

Requirements Builder - An interactive tool that streamlines the critical “requirements capture” process at the start of outsourcing projects.

EXPERIENCE

- Advising one of Ireland's "pillar banks", on its outsourcing of core IT infrastructure services (following a competitive procurement process involving Atos, HP, HCL Technologies and IBM). We advised the bank throughout the process to final contract award and have since advised the bank on a number of other major sourcing engagements.
- Advising the world's largest travel and tourism company on the outsourcing of its IT, networks and main frame services to Dell, Wipro, T-Systems and IBM.
- Representing one of the world's largest beverage companies in connection with the global outsourcing of the company's finance, accounting, human resources and related information technology processes and functions in a deal valued at US\$350 million. This US- based deal involved UK and some additional European companies.
- Handling the strategic sourcing of certain call-center functions along with a complex transformation-driven outsourcing of a US-based telecommunications client's global order management functions. The transaction value was more than US\$350 million.
- Advising an Australian Government Department in relation to the outsourcing of the management of the Australian Synchrotron to the Australian Nuclear Science and Technology Organisation.
- Advising a leading Brazilian investment bank on their acquisition of the GlobeNet submarine cable network from Brazilian telecoms operator Oi in July 2013. At around US\$750 million this was one of the largest ever submarine cable acquisitions and our involvement focused on the critical capacity leaseback contract as well as on all the US regulatory elements.
- Advising a global Bank on the outsourcing of its worldwide payroll services, temp/permanent recruitment, and learning/training functions (combined value in excess of US\$1 billion).

March 2019 - Key issues in brand cross-licensing in China

20 MAR 2019

In recent years, Chinese brands have been increasingly gaining global recognition, especially in the technology, ecommerce, and consumer goods sectors. In this context, an increased number of foreign businesses are considering branded partnerships with a Chinese counterparty as a way of operating in China (e.g., co-branded joint venture). In recent years, Chinese brands have been increasingly gaining global recognition, especially in the technology, ecommerce, and consumer goods sectors. In this context, an increased number of foreign businesses are considering branded partnerships with a Chinese counterparty as a way of operating in China (e.g., co-branded joint venture).

New Year, New Regulations: Cyberspace Administration of China launches new blockchain regulatory framework

4 MAR 2019

You may need to comply with new regulations if you use Blockchain technology to conduct your business in mainland China. The "Regulations for Managing Blockchain Information Service" take effect on 15 February 2019. The new regulations encourage Blockchain industry organisations to enhance self-discipline and establish sound industry standards.

Data privacy law: the top global developments in 2018 and what 2019 may bring

25 FEB 2019

In 2018, the world saw numerous significant privacy law developments, a trend that is continuing in 2019.

Explainability: where AI and liability meet

25 FEB 2019

Makers and users of AI face a new and interesting problem: what is the acceptable tradeoff between explanation and accuracy?

Sharpen your pencils: California AG's Office announces start of its important CCPA pre-rulemaking and schedule for issuing its important CCPA rules

13 FEB 2019

Because the CCPA is littered with drafting errors and confusing definitions, this AG rulemaking is extremely important.

DLA Piper GDPR data breach survey: February 2019

6 FEB 2019

On 25 May 2018 new data breach notification laws came into force across Europe which fundamentally changed the risk profile for organizations suffering a personal data breach.

Under the EU General Data Protection Regulation - 'GDPR' - personal data breaches which are likely to result in a risk of harm to affected individuals must be notified to data regulators. Where the breach is likely to result in a high risk of harm, affected individuals must also be notified.

Contracting for Transformative Benefits

06 FEB 2019

Much of the talk in the sourcing market is - and has been over the past couple of years - about transformation, especially of the digital nature. For some, any initiative under the digital transformation banner is seen as the panacea to numerous business and operational challenges.

US and Australian regulators enter into FinTech cooperation agreement

24 JAN 2019

At the heart of the agreement is a desire to enhance mutual understanding about FinTech regulatory issues, identify market developments, promote innovation and encourage use of technology in market oversight.
