

Technology Transactions and Strategic Sourcing

Our global technology transactions and strategic sourcing lawyers have the market knowledge, legal experience and global presence to provide you with the highest quality legal services throughout the world.

Recognized by the legal directories as one of the preeminent practices and with vast global reach, our technology transactions and strategic sourcing practice concentrates on complex transactions and multi-party, high-value project work which frequently spans multiple jurisdictions. We focus on the development, protection, exploitation and use of intellectual property and technology-related assets through the stages of a company's growth, as well as the sourcing of strategic assets and services for use in a company's operations.

Our team has deep industry experience in a variety of sectors, allowing us to provide practical advice and innovative solutions along with market leading technical know-how. Our clients range from emerging companies to large global corporations.

Core areas include:

- Cloud computing
- e-Commerce
- IP development
- Licensing
- Open source
- Outsourcing
- Procurement
- Strategic alliances and joint ventures
- Technology transactions
- Telecommunications

Our proprietary ASCENDANT methodology and its associated unique software tools continue to differentiate us in the market and allow us to deliver services cost efficiently to clients around the globe.

Our **Global Sourcing Portal** is an information gateway for both private and public companies that are involved with strategic sourcing initiatives including the outsourcing of key operations. Clients use the Global Sourcing Portal to access a range of proprietary tools that DLA Piper has developed while working on some of the world's largest, most complex sourcing projects. These tools include:

Sourcing Contract Dashboard - An interactive, web-based contract assessment and reporting tool that answers the question "how good is this outsourcing contract compared to the market?"

Requirements Builder - An interactive tool that streamlines the critical "requirements capture" process at the start of outsourcing projects.

EXPERIENCE

- Advising one of Ireland's "pillar banks", on its outsourcing of core IT infrastructure services (following a competitive procurement process involving Atos, HP, HCL Technologies and IBM). We advised the bank throughout the process to final contract award and have since advised the bank on a number of other major sourcing engagements.
- Advising the world's largest travel and tourism company on the outsourcing of its IT, networks and main frame services to Dell, Wipro, T-Systems and IBM.
- Representing one of the world's largest beverage companies in connection with the global outsourcing of the company's finance, accounting, human resources and related information technology processes and functions in a deal valued at US\$350 million. This US- based deal involved UK and some additional European companies.
- Handling the strategic sourcing of certain call-center functions along with a complex transformation-driven outsourcing of a US-based telecommunications client's global order management functions. The transaction value was more than US\$350 million.
- Advising an Australian Government Department in relation to the outsourcing of the management of the Australian Synchrotron to the Australian Nuclear Science and Technology Organisation.
- Advising a leading Brazilian investment bank on their acquisition of the GlobeNet submarine cable network from Brazilian telecoms operator Oi in July 2013. At around US\$750 million this was one of the largest ever submarine cable acquisitions and our involvement focused on the critical capacity leaseback contract as well as on all the US regulatory elements.
- Advising a global Bank on the outsourcing of its worldwide payroll services, temp/permanent recruitment, and learning/training functions (combined value in excess of US\$1 billion).

A short primer on applicable US eSignature laws

2 MAY 2018

Two bodies of law in the US govern the legality of electronic signatures and electronic records: E-SIGN and UETA. Here is a quick look at each of them, plus notes on other selected laws governing digital transactions.

A short primer on applicable US eSignature laws

2 MAY 2018

Two bodies of law in the United States generally govern the legality of electronic signatures and electronic records: the Electronic Signature in Global and National Commerce Act (ESIGN) and state adoption of the Uniform Electronic Transactions Act (UETA). Here is a quick look at each of them, plus notes on other selected laws governing digital transactions.

In long-awaited TCPA case, DC appellate panel vacates material sections of FCC's 2015 TCPA order

2 MAY 2018

Because of the federal Electronic Signatures in Global and National Commerce Act (ESIGN) and equivalent state laws, companies are delivering important disclosures and other information that traditionally needed to be presented "in writing" electronically instead. In addition, the medium of choice for communicating with consumers electronically is rapidly migrating from email to text messaging. As a result, understanding the requirements of the Telephone Consumer Protection Act (TCPA) are a must. This edition's Insight looks at the most recent judicial examination of the FCC's interpretation of the TCPA.

ONC guide for accessing and using medical records breaks no new ground, instead doubles down on old processes

16 APR 2018

The ONC Guide to Getting and Using your Health Records educates patients on their rights of access and provides detailed instructions on how patients should request their records.

CLOUD Act bolsters US government powers to obtain data stored abroad

12 APR 2018

The CLOUD Act makes clear that government demands for information apply whether the data is stored in the US or abroad.

Section 301 trade action against Chinese products: time for quick action

4 APR 2018

Companies wishing to seek removal of a product from the final list have the opportunity to present their views, but less than two months remain before the window completely closes.

Ninth Circuit concludes threat of future harm is sufficient for Article III standing, joins Sixth, Seventh and DC Circuits

21 MAR 2018

However, all is not lost for companies facing class actions following a data breach.

Private LTE networks – a new user's guide
