

Telecom

Communications plays a critical role in the economies of all countries around the world, and its importance is only increasing with the rapid development of new technologies and products that revolutionize how people – and devices – communicate. DLA Piper's Telecom practice is built on in-depth knowledge of the commercial, transactional, technical, legal and regulatory issues associated with providing telecommunications services and products, including emerging IoT devices and capabilities.

With telecom lawyers around the globe, our team is well positioned to assist clients with multi-country and global deals as well as with regional and global strategies for product development and market entry. Our experience covers the full spectrum of developed and emerging markets and the complete range of technologies, including wireless, telephony, broadband, Internet, satellite and submarine cables. We also have engineers integrated into our team to enable us to more fully understand the details of complex and/or novel technologies and their impact on the business and regulatory issues of our clients. And the fact that we have offices in over 40 countries throughout the Americas, Europe, the Middle East, Africa and Asia Pacific – as well as affiliated firms in many regions – means we know the unique regulatory, legal, political and “doing business” issues in each jurisdiction.

Clients turn to us for our decades of telecom industry and regulatory experience helping them to tackle the licensing, regulatory and operational issues important to their current business and future success. We have advised a broad cross-section of the telecommunications and technology sectors on an array of regulatory and business issues, from compliance with traditional telecommunications regulation to securing spectrum and regulatory approvals for emerging technologies. We also are well versed in the full range of industry contracts and agreements and are experienced in crafting novel leasing or sharing arrangements. Finally, our team has substantial experience in securing regulatory approvals for some of the largest industry mergers and acquisitions as well as much smaller spectrum transactions.

Our core areas include:

- Telecom transactions, including mergers and acquisitions
- Spectrum access and use
- Authorizations and licensing
- Foreign ownership approvals

INSIGHTS

Publications

Washington, DC grows telecoms capabilities with a new arrival

30 March 2021

Tony Lin has joined our Washington, DC office and award-winning Telecom group, bringing his vast experience in satellite and communications law.

A new EEC coming into play: Key points for electronic communications service providers

15 September 2020

Entities providing an electronic communication service, such as email or video streamed over the Internet, may need to register as an ECS provider in relevant EU nations.

Navigating China Episode 13: (More) Important Developments in China's Privacy and Cyber Laws

10 June 2020

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

China's privacy and cyber authorities have been busy in the last month enacting substantial enhancements and clarifications to data protection compliance obligations; and even more changes are expected before the end of 2020.

US telehealth update: New federal guidance to state Medicaid agencies suggests more coverage is coming

27 April 2020

A powerful signal that CMS is ready to support targeted interventions in favor of telehealth.

Connected care funding for healthcare providers from the CARES Act

24 April 2020

New funding to promote and support telehealth.

Episode 12: More obligations on Chinese mobile app operators to comply with

9 April 2020

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

Following the crackdown by Chinese authorities against non-compliant mobile apps in late 2019 (please see Episode 8 in this series), the authorities have issued a series of app compliance guidelines (including the Guide to Self-Assess Illegal Collection and Use of Personal Information by Apps, Methods for Identifying Unlawful Acts of Apps to Collect and Use Personal Information, and Draft Specification for Collecting Personal Information in Mobile Applications). These guidelines imposed detailed obligations and practical actions to urge mobile app operators to conduct self-assessments and to rectify any non-compliant data processing practices. Organisations may have noted that some of these guidelines contain conflicting requirements.

FCC declares COVID-19 communications fall within TCPA emergency exemption

23 March 2020

The FCC issued an order declaring that hospitals, health care providers, state and local health officials, and other government officials may lawfully communicate information about COVID-19 without violating the Telephone Consumer Protection Act.

Episode 10: Stricter data localisation and security rules for financial and insurance data in China

06 Mar 2020

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

The People's Bank of China has released new guidelines on the collection and processing of personal financial information (PFI Guidelines), which provide much-needed clarity on how personal financial information in China should be processed, secured, and transferred. While the PFI Guidelines do not impose an outright ban on personal financial information leaving China, mandatory compliance steps (including consent and impact assessments) must be taken.

Huawei Temporary General License extended for third time

14 February 2020

The extension applies to Huawei and the 114 other non-US Huawei affiliates on the Entity List.

Opportunities arising from Asia's data protection frameworks (AsiaPac)

14 February 2020

The media controversy surrounding China's coronavirus COVID-19 detection app, the "close contact detector," has highlighted a common misapprehension about how data protection law is universally applied around the world.

The almost free US-Japan Trade Agreement is now in effect

9 January 2020

This trade agreement reduces or eliminates US customs duties on numerous goods.

Episode 8: Crackdown on infringing China apps

13 November 2019

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

China's authorities have launched a crackdown against non-compliant mobile apps. The crackdown is taking place during November and December 2019, so businesses operating apps in China must take urgent action or else face sanctions.

Hong Kong's SFC introduces strict conditions on cloud data storage

8 November 2019

All entities licensed by the Hong Kong SFC and storing data in the cloud must urgently review their data storage arrangements in light of a new circular from the SFC on "Use of external electronic data storage". This circular introduces strict new conditions on both cloud users and cloud vendors.

Episode 7: New China encryption law passed

6 November 2019

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

The new PRC Encryption Law will come into force on 1 January 2020. It will bring fundamental changes to the sale, import and use of encryption technologies in China by foreign and domestic organizations.

Episode 6: Further developments in PRC data privacy regulations

1 November 2019

[NAVIGATING CHINA: THE DIGITAL JOURNEY](#)

An updated draft of China's Amended Personal Information Security Specification (Amended PIS Specification) and proposed new amendments to the privacy specification for mobile apps (App Privacy Specification) were published this week, alongside brand new draft regulations for the banking sector.

Hikvision and other Chinese companies added to the Entity List

10 October 2019

The list includes Chinese companies in the video surveillance, artificial intelligence, voice recognition, deep learning and other technology fields.

Tax incentives in Puerto Rico: a quick introduction

13 JUN 2017

Puerto Rico offers a spectrum of economic incentives aiming to promote many key industries. This handbook offers a quick look at ten of the most significant of these incentives.
