

Monopol- og konkurrenceret

Understanding global antitrust and competition rules is a necessary and prudent part of any successful business strategy in today's global economy. These laws are complex, but they govern a broad range of business conduct: interaction with competitors; obtaining and maintaining a dominant market position; forming supplier and customer arrangements; participation in trade associations; conduct in joint ventures and corporate mergers and acquisitions. Indeed, these laws have the potential to impact virtually every aspect of a company's business plan and activities in the marketplace.

Whether your company is large or small, if it is considering forming a business alliance, moving into a new market, taking a new tack with its competitors, implementing a new production, marketing or distribution strategy, or growing through corporate development, advice concerning the requirements of antitrust and competition laws is essential. The risks and consequences of non-compliance can be severe.

EXPERIENCE

- Acting for two pharmaceutical companies in separate 'pay for delay' pharmaceutical patent settlements in Europe.
- Represented Church & Dwight in the Church & Dwight v. Mayer Labs antitrust case and related FTC investigation. In granting our summary judgment motion, the California federal judge held that a C&D shelf share discount incentive rebate program involving Trojan condoms did not constitute anti-competitive monopoly behaviour. This is a significant win for the client, who has been engaged in hotly contested litigation for more than four years with competitor Mayer Laboratories. We also convinced the FTC to drop its three year investigation without a consent decree or any conditions and the FTC agreed to destroy all documents.
