#### **New Exceptions to Parallel Import Rules in Russia Coming**

8 April 2022

Russian law generally allows IP rights owners to object to parallel imports of goods into Russia, but very recent (and apparently temporary) changes to Russian law open the door to exceptions to the general rule.

#### **Russia Pharmaceuticals Sector Update - February 2021**

2 February 2021

Russia Pharmaceuticals Sector Update

Possible new requirement to label medicines released before 1 February 2021.

---

#### **Russia Pharmaceuticals Sector Update - November 2020**

9 November 2020

Russia Pharmaceuticals Sector Update

The Russian Ministry of Healthcare is considering a mechanism for increasing permitted maximum sale prices for essential medicines that may face a shortage because of their manufacture becoming unprofitable.

---

#### **Russia Pharmaceuticals Sector Update - September 2020**

3 September 2020

Russia Pharmaceuticals Sector Update

Government approves regulations on granting organisations subsidies to partially reimburse expenses incurred in connection with product certification and homologation in foreign markets.

---

#### **Russia Pharmaceuticals Sector Update - July 2020**

7 July 2020

Russia Pharmaceuticals Sector Update

On 17 March 2020 the Russian President signed an Order that allowed the distance sale of over-the-counter medicines. However, at that time, such sales were conditioned on federal legislation being adopted and the Russian Government outlining further mechanisms for such sales.
