Milan

T: +39 02 806 189 03

Carlotta regularly helps companies active in the pharmaceutical, medical devices and food industries to ensure their full compliance with applicable regulations, providing business-friendly legal solutions, in line with their business strategies and their target market.

Advising on regulatory matters, her knowledge ranges from the early stages in product development to marketing approval, commercialisation and advertising of regulated products of the healthcare sector. Furthermore, she negotiates and drafts agreements in the life sciences field and also assists on several compliance issues in collaboration with healthcare professionals.
