Paulina Farías focuses her practice in regulated markets, advising in the execution of energy projects, bidding processes, administrative procedures before public authorities and claims before special administrative tribunals.

Paulina has additional experience in the acquisition and installation of telecommunications infrastructure; obtaining concessions and permits; bidding processes, particularly in the public sector; and contracts with public and private entities for the provision of telecommunications services.

She additionally advises clients in regulatory requirements compliance for business development.

Paulina's experience spans a variety of sectors including energy, technology, chemical, pharmaceuticals, oil and gas, real estate and construction, infrastructure, and food and beverage, among others.

- Projects, Energy and Infrastructure
- Environment, Health and Safety
