Said orders were published in the French official journal dated 6 March 2021.

UK retail banking: Building resilience post-pandemic

31 March 2021

In its recently published strategy for the retail banking portfolio, the Financial Conduct Authority (FCA) recognises that the banking industry responded well to the immediate challenges created by COVID-19. Nonetheless, economic conditions are expected to remain difficult over the next two years with the key risks of harm being dominated by the economic and social impact of the pandemic. The FCA identifies four priority areas for retail banks: (1) fair treatment of borrowers, especially those in financial difficulties; (2) good governance and oversight of customer outcomes during business change; (3) operational resilience; and (4) minimising fraud and other financial crime. This blog focuses on the key risks associated with operational resilience and reduction of financial crime; and the steps banks can take to ensure regulatory compliance whilst enhancing returns.

Brexit - impacts and changes for securitisations in the UK and Europe

29 January 2021

Securitisation remains one of the most effective and efficient forms of financing to support business growth and development. In spite of years of regulatory interference, delay and badly developed regulation the market continues to operate, admittedly at significantly reduced levels. The UK now has the opportunity to re-establish a securitisation regulatory regime that is effective and more appropriate to the risk and structures involved. This is however likely to be some way off as participants initially continue to operate within the current regulatory framework.

UK consumer finance legislative reform - the pressure is mounting

11 December 2020

The pressure to reform the out of date legislative landscape for consumer credit in the UK intensifies. Since the FCA's review of the retained provisions of the Consumer Credit Act 1974 (CCA) in 2019 there has been no substantive change and so the pressure for reform from the consumer finance industry and its trade associations continues to gather momentum. We understand that on 8 December 2020, the Finance & Leasing Association and other trade bodies including the Consumer Credit Trade Association, the Association of Alternative Business Finance and the British Vehicle Rental & Leasing Association sent a briefing paper called Consumer Credit Act – the case for reform to the Economic Secretary to the Treasury, John Glen MP calling for reform of the CCA.

Basel Committee and IOSCO announce new deferral on final implementation phases of the margin requirements for non-centrally cleared derivatives

4 December 2020

On 3 April 2020, the Basel Committee on Banking Supervision (BCBS) and the International Organization of Securities Commissions (IOSCO) announced that they had agreed to extend the deadline for completing the final two implementation phases of the margin requirements for non-centrally cleared derivatives by one year, from 1 September 2021 to 1 September 2022. Such extension, which follows a first one-year deferral that had been decided on July 2019, was awaited by the industry and is expected to provide additional operational capacity for firms to respond to the immediate impact of Covid-19 and at the same time, facilitate covered entities to act diligently to comply with the requirements by the revised deadline. Following this second extension, the three European supervisory authorities (ESAs) published on 23 November 2020 a third draft amendment to the European regulation on over the counter (OTC)

derivatives, central counterparties and trade repositories (EMIR), following that of December 2019 and May 2020, which aimed at reflecting into European Union (EU) laws the BCBS and IOSCO announcement.

FINANCE AND MARKETS GLOBAL INSIGHT

On 23 June 2016, the UK electorate voted to leave the European Union in a so-called Brexit referendum. The exit result was a surprise for many working in the finance sector. The change will impact the position of the UK under critical legislation such as the Capital Requirements Regulation, European Market Infrastructure Regulation, Market Abuse Regulation and many other Regulations and

Treaties applicable in the UK. We will also see a change as to the role of the UK in significant market initiatives such as the Capital Markets Union. It is likely that these changes will present both threats and opportunities. Until policy is clearer, we will comment on some of the existing challenges caused by EMIR and similar EU Regulations.
