

## Financial Services Regulatory

DLA Piper's Financial Services Regulatory practice advises financial institutions of all sizes as well as national and international companies that offer financial products. We actively advise on a wide range of regulatory, risk management and compliance issues around the world, including major US legislation such as the Dodd-Frank Act, EU cross-border financial services legislation and approaches driven by global financial services bodies such as the Financial Stability Board, the Bank of International Settlements, IOSCO and the IAIS.

We advise clients on a wide-range of issues, such as regulatory issues affecting the viability of the institution; permissibility of activities and investments; anti-money laundering compliance; restructuring of boards and senior executive responsibilities; examination criticisms, regulatory investigations and enforcement actions; regulatory processes for the transfer of assets in banks, including affiliated transfers; matters impacting insurers, non-bank lenders and other financial institutions; and the recovery and resolution of financial institutions; and the regulatory requirements in relation to such actions.

We have close connections with a wide range of regulators around the world, including the FDIC, OCC, Federal Reserve Board, CFPB and state banking regulators in the US, EBA, ESMA, EIOPA at the European level, key national regulators in Europe such as the UK's PRA and FCA, Germany's BAFIN and France's Commission Bancaire, plus many more around the world.

An important and growing aspect of the group's practice involves tracking rapid market and regulatory changes. Regulators in the US and Europe in particular have engaged in a significant overhaul of their regulatory system as a consequence of the global financial crisis. This has been mirrored in many other countries because the changes have very much been driven by the G20 group of countries. DLA Piper regulatory partners are often closely involved in many of the leading regulatory initiatives working with legislators, regulators and industry bodies and clients to achieve practical outcomes in the development of regulation.

Our firm has a very integrated and collaborative international practice bringing together regulatory and other lawyers across jurisdictions to obtain regulatory consents, provide comparative assessments of regulations across jurisdictions and resolve regulatory problems. We regularly advise internationally active clients on a wide range of cross-border issues, among them the implications of taking their products into new countries and regions, the regulatory implications of important acquisitions and transactions and the comparative benefits of selecting particular jurisdictions for carrying on business.

## CAPABILITES

---

### Banking Regulation

DLA Piper lawyers have extensive experience representing deposit-takers and banking groups, including bank holding companies, with regard to their financial services regulatory needs. This includes obtaining bank authorisations and licences and advising on all aspects of bank supervisory issues. In the US our lawyers are intimately familiar with the Bank Holding Company Act, the Change in Bank Control Act, the Federal Reserve Act and the Federal Deposit Insurance Act and, similarly, in Europe with key banking legislation such as the Capital Requirements Regulation and national legislation on banks. We routinely advise client on anti-money laundering obligations that arise in various jurisdictions around the globe.

### Mergers and Acquisitions

DLA Piper lawyers have handled hundreds of acquisition transactions involving financial entities including obtaining regulatory approval for change in control of financial institutions where this is required. DLA Piper undertakes the highest volume of M&A transactions in the world.

### Capital Markets and Funds

Whether the client wishes to raise public equity, seek fund or private equity investments or issue long-term debt, DLA Piper's lawyers understand the regulatory and market environments including the nuances of dealing with rating agencies and underwriters. We have considerable experience in handling the regulatory issues associated with acting for investment funds and for brokers, dealers and other investment firms.

### Corporate and Securities

Closely linked with our capital markets work, our lawyers advise banks in corporate organisation and restructuring, holding company and subsidiary activities and formation, corporate governance, periodic reporting and compliance with exchange and other regulatory requirements. In particular we have significant experience with regard to listings on major exchanges such as NYSE, NASDAQ and the London Stock Exchange and the associated regulatory requirements.

### Payments and Non-bank Financial Regulation

With the growing diversity in firms and entities that offer payment and other financial products, including products such as prepaid access, consumer payment plans, loan servicing and collection, mobile and online payments and virtual currencies, regulations are rapidly increasing in these areas. DLA Piper lawyers focus directly on these matters and advise clients on terms or features of their products that impose regulatory implications.

### Enforcement

We regularly undertake internal investigations and assist clients with regard to enforcement activity commenced against them by their regulators. We have considerable experience of the interaction between criminal prosecutions and enforcement action by the financial services regulator. We also have considerable experience advising on civil liability, litigation and anti-money laundering enforcement in the context of regulatory scandals both on a national and a cross-border basis.

### Insurance regulation

The firm has a substantial insurance operations and regulations practice and can advise both with regard to insurance capital requirements, authorisation of insurance companies and a wide-range of product and conduct of business issues.

## EXPERIENCE

---

- Advised an international company on the development and deployment of payroll card products and related employee remittance services, in partnership with a major US bank.

- Assessed global anti-money laundering obligations of clients, both in response to specific regulatory criticisms and enforcements as well as on a client-initiated, pro-active basis.
- Represented community banks in branch acquisitions and openings, charter conversions, and capital raising efforts.
- Represented major diversified financial services firms in their decisions to separate from banking in response to added regulatory limitations arising under the Dodd-Frank Act.
- Advised international retailers on their credit and payment offerings to consumers.
- Advised a non-European lender with regard to the legal requirements in a range of different European member states to assist them in deciding upon the best business model for carrying out their lending activities. Assisted them with the implementation of their strategy.
- Advised a bank on the financial services regulatory implications of an outsourcing project across several southern European countries – as part of a larger outsourcing transaction whereby the bank’s retail call centres were being outsourced to a third party provider.
- Advised the London branch of a non-EU bank on the extent to which it could carry on business in the EU outside of the UK without a passport.
- Advised a Spanish bank on the implementation of the consumer credit protection work across various jurisdictions including Austria.
- Advised an Austrian branch of a Spanish bank on its corporate reorganisation procedure.

## A decision point for MiFID product manufacturers

15 August 2022

The FCA has expressly acknowledged the overlap between the FCA's existing MiFID II-derived rules on the manufacture of investment products in its Product Intervention and Product Governance Sourcebook (PROD) and the new Consumer Duty provisions on manufacturer product governance arrangements.

---

---

## **Application of the Consumer Duty to the payments and e-money sector**

15 August 2022

Push-back during the consultation aside, the FCA has clarified that the Consumer Duty does apply to payment services and e-money firms. Drawing attention to areas already receiving scrutiny, particularly where rapid growth of the industry is driving regulatory scrutiny around customer outcome impacts, guidance emphasises the importance of all products and services being fit for purpose and designed to fit the needs of a target group of customers.

---

## **Application to existing products and services**

15 August 2022

The Consumer Duty will apply in full to any products or services sold or renewed after it comes into effect.

---

## **Enforcing the Duty by an assertive regulator**

15 August 2022

The new Consumer Duty is the FCA's flagship initiative, setting out its expectations of the industry over the upcoming years. The FCA has made clear that it will have a key role in successfully embedding the Duty, by making it central to its Supervision, Authorisation and Enforcement strategies.

---

## **Governance: a significant shift in both culture and behaviour**

15 August 2022

The FCA expects that embedding the Consumer Duty will require a significant shift in both culture and behaviour so that firms "consistently focus on customer outcomes, and put consumers in a position where they can make effective decisions." How to achieve this is up to the firm.

---

## **Monitor, investigate and take action (where needed...)**

15 August 2022

Firms will be expected to use data to analyse whether they are achieving good outcomes for their customers. Where data insights show anomalies, e.g. a jump in sales, they should investigate the reason for this.

---

## **The Consumer Duty Principle**

15 August 2022

The intention is for the Consumer Duty to go further than the existing Principles 6 (treating customers fairly) and 7 (clear, fair and not misleading communications), which will not apply where the Consumer Duty does.

---

## **The FCA's new consumer duty: shifting the mindset**

15 August 2022

The Financial Conduct Authority (FCA) has now published its final rules and guidance on its new Consumer Duty (PS22/9 and FG22/5). The Consumer Duty is designed to fundamentally shift the mindset of firms in how they deliver for consumers.

---

---

## The cross-cutting rules

15 August 2022

The cross-cutting rules and guidance focusses on three key behaviours - firms must act in good faith towards retail customers, firms must avoid causing foreseeable harm to retail customers and firms must enable retail customers to pursue their financial objectives.

---

## The four consumer outcomes

15 August 2022

---

## What is the scope of the Consumer Duty?

15 August 2022

The Consumer Duty will apply to all firms in the distribution chain for products and services sold to retail customers.

---

## New guidelines on role of AML/CFT Compliance Officers spells out EBA expectations

3 August 2022

The Central Bank of Ireland (CBI) has been consistent in reinforcing the importance of the compliance function in regulated entities, and particularly so in the context of credit institutions and payments firms where the AML/CFT risk is elevated.

## Interval Funds - at the Intersection of Liquidity, Transparency, and Valuation

1 MAR 2017

What can interval funds do that other pooled investment vehicles in the marketplace cannot do (or must do differently)?

## Global Financial Markets Insight - Issue 10, 2016

28 JUL 2016

### FINANCE AND MARKETS GLOBAL INSIGHT

On 23 June 2016, the UK electorate voted to leave the European Union in a so-called Brexit referendum. The exit result was a surprise for many working in the finance sector. The change will impact the position of the UK under critical legislation such as the Capital

Requirements Regulation, European Market Infrastructure Regulation, Market Abuse Regulation and many other Regulations and Treaties applicable in the UK. We will also see a change as to the role of the UK in significant market initiatives such as the Capital Markets Union. It is likely that these changes will present both threats and opportunities. Until policy is clearer, we will comment on some of the existing challenges caused by EMIR and similar EU Regulations.
