

GDPR Snapshot vlog series 2021

DLA Piper Global Data Protection Team celebrates GDPR 3rd anniversary with vlog series focussing on the key GDPR highlights and challenges across Europe. The vlogs feature members of the global data privacy team who, in a short 90-second snapshot, discuss key issues for their particular jurisdiction.

More vlogs will be added to this page over the next few weeks, so please continue to visit this page to learn more about GDPR from a different country's perspective. If you would like to hear from another country, or suggest a topic for another vlog, please contact us at dataprivacy@dlapiper.com.
