Neeraj provides a range of transfer pricing services with a focus on intercompany financing. He has experience with clients across a variety of industries including financial services, energy, consumer products, apparel, and pharmaceuticals.

• Tax

He advises clients by gathering quantitative and qualitative information on the client's business and industry, conducting functional and financial analyses of companies' operations and preparing transfer pricing planning and documentation studies to comply with domestic and OECD taxation regulations.

*Neeraj is not a lawyer.*
