TechLaw provides you with a chance to hear our keynote presenter, experienced lawyers and industry panellists discuss the legal framework and commercial drivers surrounding these fast paced developments.

Held in **Melbourne**, TechLaw will be of interest to legal counsel, business managers and c-suite executives working in the technology sector or involved in the procurement and management of technology products and services.

Here are a selection of presentations from the **Melbourne** event:

- Digital disruption when you least expect (or want) it
- Computer-implemented business methods: Patentable?
- Cyber security - Cyber risk management and mitigation
- The Internet of things?
- IT project disputes management – Managing the cloudy skies
- Strategic change unit: What is your new business model?
