F: +1 650 687 1211

Edmund Mokhtarian concentrates on venture financings, blockchain technologies and general corporate law.

Edmund represents clients on matters ranging from formation to venture capital financings. He also advises companies on compliance matters related to blockchain-enabled means for raising capital. His prior experience includes representing public companies in mergers and acquisitions and corporate governance matters.

Edmund enjoys writing about blockchain and artificial intelligence, two cutting-edge technologies that he believes are poised to drastically change the world.
