

**Nancy J. Victory**

**Partner**

**CO-CHAIR, GLOBAL TELECOM PRACTICE**

nancy.victory@dlapiper.com

**Washington, DC**

T: +1 202.799.4216

F: +1 202.799.5616

Nancy has extensive experience in communications issues and transactions. She advises a broad cross-section of the telecommunications and media industry on the business implications of regulatory policy and represents these entities before the Federal Communications Commission (FCC), the National Telecommunications and Information Administration (NTIA), Congress, CFIUS, Team Telecom, and state public utility commissions.

Nancy has particular experience in wireless and satellite issues, including spectrum allocation, licensing, compliance, and regulatory requirements. She also has substantial experience in telephony and broadband regulatory matters, particularly where new technology or changing market conditions conflict with the historic regulation. She regularly counsels clients on a wide variety of FCC and state compliance matters and has substantial experience in representing clients in enforcement proceedings.

Nancy also has extensive transactional experience, having taken a lead role in securing FCC approval for transactions ranging from small wireless or broadcast license transfers to the largest communications mergers of the last decades. She recently served as lead regulatory counsel to T-Mobile and Deutsche Telekom in securing federal, state and international regulatory approvals for T-Mobile's merger with Sprint, which was recognized by TMT Finance as their "2020 Telecom Deal of the Year – Global." Nancy's role included briefing the T-Mobile Board, developing merger advocacy and messaging for the transaction, responding to extensive regulator inquiries and third-party opposition, and negotiating commitments required for FCC approval. Nancy has particular expertise with respect to non-U.S. ownership issues, having regularly represented companies before Team Telecom and CFIUS, negotiated mitigation agreements where required, and counselled companies with respect to ongoing compliance.

Rated by Chambers USA as one of Washington, DC's "Leading Lawyers" in her field, Nancy is praised by a client as "meticulous and is able to manage multiple teams and workstreams for prompt delivery of work product that is both outstanding and responsive." (2021) Other clients comment she is "dedicated, outstanding and razor sharp," while another notes that she "is very organized and smart, and able to get an enormous amount of work done in an abbreviated timeframe." (2020) Chambers USA further notes that she has "substantial experience in handling regulatory and antitrust matters, including issues arising from market-leading M&A across a range of sectors." (2020) She was also named a "Leading Lawyer" by The Legal 500, where she was described by one client as ha[ving] superior judgment even in the rarified air of high-priced counsel, and ha[ving] unmatched experience compared to even the most senior telecom partner in other DC firms. Her work product is always excellent and she always delivers as promised. She is outstanding." (2020)

## EXPERIENCE

---

- Member, State Department Advisory Committee on International Communications and Information Policy (2009-Present). Named by Ambassadors Phillip Verveer and Daniel Sepulveda to provide advice in the formulation of United States communications and information policy, positions, and proposals for multilateral and bilateral consultations, and negotiations on communications and information policy issues
- Chair, FCC Independent Panel Reviewing the Impact of Hurricane Katrina on Communications Networks (January-June 2006). Named by FCC Chairman Kevin Martin to head the panel reviewing the impact of the hurricane on telecommunications and media infrastructure and make recommendations to the Commission regarding ways to improve disaster preparedness, network reliability, and communication among first responders
- Chair, FCC Advisory Committee for the 2007 World Radiocommunication Conference (2003-2007). Named by FCC Chairman Michael Powell to head efforts to assemble US industry positions on spectrum use issues in preparation for the conference
- Assistant Secretary of Commerce for Communications and Information and Administrator of the National Telecommunications and Information Administration (2001-2003). Appointed by President Bush to serve as his advisor on domestic and international communications policy and manager of the federal government's use of spectrum. Managed 250-person agency comprised of policy staff, grant administrators, spectrum engineers, and lab facilities. Achievements included:
  - Launch of comprehensive spectrum management reform effort, including Presidential memorandum calling for recommendations to improve spectrum management and historic memorandum with the FCC for closer coordination and use of spectrum
  - Addressed spectrum needs of new technologies by devising plans to make 90 MHz available for advanced (3G) wireless services and 255 MHz available for unlicensed wireless use
  - Contracted with private sector companies for management of .us and .edu top-level domains and assisted with legislation signed by the President creating a safe space for children on the Internet (.kids.us)
