Martin Nelson-Jones has extensive experience of advising on mergers and acquisitions and other corporate matters. He acts for both corporates and financial investors, advising across various sectors, including energy and infrastructure and consumer products.

- Corporate
- Mergers and Acquisitions
- Private Equity

## Recognitions

"He is lauded by his clients as a "tremendous adviser." They add: "He goes beyond the scope and remit and is able to advise on a number of issues." His practice is noted for its focus on big-ticket M&A transactions." *Chambers and Partners UK* 2019, Infrastructure - ranked in Band 1.

## Education

- College of Law, London, 1989-91
- Trinity College, Oxford University, 1986-89

## Publications

### Driving change: The decarbonisation of European transport

17 November 2021

Transport is the bedrock of modern economies. It is also a major source of carbon dioxide emissions. The purpose of this study is to

examine decarbonisation strategies in three key transportation subsectors: aviation, rail and shipping.

## Building a full fibre future: European fibre-to-the-premises (FTTP) investment trends 2021

2 December 2020

Our new study, conducted in partnership with TMT Finance, indicates that the recent rise in FTTP investment is set to continue over the next two years. The insight gathered through this report highlights key factors for the rise and appeal of FTTP to investors, as well as the potential risks they see in this industry.

## Infrastructure in a post-COVID-19 world

28 April 2020

Infrastructure is famously prized by investors for stability and predictability – COVID-19 has turned this on its head in the short term and undoubtedly will have a huge impact on the sector in the longer term. At the same time, it will create significant opportunities for investors and other stakeholders. Attitudes to risk and how it is shared may well have changed due to COVID-19 and its impact, but in reality will investors and lenders turn their backs on infrastructure as an asset class? Unlikely.

## New research shows decarbonisation is a primary driver of transport investment and strategic decisions

17 November 2021

Decarbonisation is a primary driver of the transport industry's investment strategy according to research published today by global law firm DLA Piper. Canvassing the views of 100 senior executives who have invested in decarbonisation projects across Europe, the report – *Driving Change: The Decarbonisation of European Transport* – reveals the majority of investors (79%) consider that decarbonisation is a primary driver of their organisation's investment strategy.

## Over three-quarters of investors expect Fibre to the Premises (FTTP) investment to increase over next 24 months

3 December 2020

- **Nearly one quarter (23%) of investors believe pandemic has led to a higher FTTP project roll-out**
  - **Germany, the UK and Poland are the most attractive locations for future FTTP investment, with low penetration levels, high end-user demand, and government incentives**
  - **84% of respondents expect infrastructure funds to be most active in acquiring FTTP operators over the next 24 months**
- 

## DLA Piper advises Lithuania's Ignitis Group on acquisition of minority stake in Moray West wind farm

28 September 2020

DLA Piper has advised Ignitis Group on its acquisition of a minority stake in the Moray West wind farm development project on the east coast of Great Britain.

The acquisition represents a strategic partnership between Ocean Winds and Ignitis Group for the development of offshore wind farm projects.
