F: +1 511 616 1201

Carlos specializes in the legal structuring and execution of Public and Private Infrastructure Projects, including advising on various contractual, corporate, financial and arbitration issues related to them.

In recent years he has participated in most of the tenders and tenders announced by PROINVERSION for the award of infrastructure projects under the P3 modality, advising local and international clients on their participation, especially in the areas of road infrastructure, airport, railway, port and energy.

Likewise, he has actively participated in the elaboration of Private Initiatives for the development of infrastructure projects for public use and service, in the transportation, health and entertainment sectors.

On the other hand, Carlos has extensive experience sponsoring clients in arbitration proceedings derived from infrastructure concession contracts for public use and public and private works, having developed an important specialization in the solution of controversies in the construction sector.

Today, Carlos co-leads the Latin America Arbitration Practice for DLA Piper. Likewise, he chairs de Peruvian Society of Construction Law since August 2021.
