

Projects, Energy and Infrastructure

DLA Piper's Projects, Energy and Infrastructure team has a track record of successfully delivering first-rate legal services in all segments of the infrastructure and energy industries. We advise on energy law, infrastructure finance, transport matters and more.

Our lawyers understand the commercial, strategic, technical, geographical and political factors that shape and impact these industries, as well as the business issues and risks inherent when working in these sectors. Our market leading presence also allows us first-hand access to contacts, sponsors and key decision makers worldwide.

CAPABILITES

The group represents sponsors, contractors, multilateral institutions, corporations, developers, equity investors, financial institutions, governments, utilities and regulatory bodies in the procurement, development, financing, acquisition, construction and operation of a wide range of complex infrastructure and energy projects on nearly every continent.

These projects include:

- Power generation from natural gas, coal, petroleum and, renewables
- Pipelines
- Drilling platforms
- Transmission networks
- Mining facilities
- Defence and security projects
- Waste projects and resource recovery facilities
- Telecommunications networks
- Vessels
- Ports
- Airports
- Highways, toll roads and bridges
- Transportation systems including airports, heavy rail, light rail and bus

Latest sanctions block Russia's largest banks, cyber actors and more; Biden's executive order prohibits investments in Russia by US persons

8 April 2022

GLOBAL SANCTIONS ALERT

Two of Russia's largest banks, Sberbank and Alfa-Bank, which had previously been subject to narrower restrictions, have now been blocked.

Mexican Supreme Court dismisses Unconstitutionality Action against Electricity Industry Law reform

8 April 2022

Key developments and implications

Driving change: The decarbonisation of European transport

1 April 2022

Our new study, in association with Acuris Studios, surveyed 100 senior executives of organisations based in Europe that have invested in European decarbonisation projects and/or technologies related to aviation, rail or shipping in the past 24 months.

Economic drivers in Latin America: Key industry sectors and the rise of ESG

1 April 2022

Overshadowed by the pandemic, Latin America's GDP growth results closed 2020 at nearly – 8%, while global GDP growth results closed at – 5%. The growth forecast for 2021 is at 4.1%, relying on the vaccination efforts across Latin America countries to combat COVID-19, as well as the many relief packages launched by the world's biggest economies to help emerging economies.

Green Hydrogen in Chile: A Contribution to the Global Energy Transition

1 April 2022

Nowadays we see governments around the world adopting decarbonization policies to transition their economies away from high-emission electricity generation and polluting manufacturing/production of goods and services.

Projects Global Insight Issue 5, 2022

1 April 2022

PROJECTS GLOBAL INSIGHT

Welcome to the new issue of the Project Global Insights 2022. In some areas of the globe we are now seeing a gradual loosening of restrictions triggered by the COVID-19 pandemic, and stakeholders and governments across the world continue to focus on transport, infrastructure and clean energy investments to boost economic activities.

The Biden Plan: The most awaited infrastructure plan for the US

1 April 2022

The need for an adequate infrastructure program for the US is well known. This program has taken several presidencies to see the light of day, but it finally took the form of a concrete and ambitious plan presented by the Biden Administration in March 2021 known as the American Jobs Plan.

‘Boomerang’ decommissioning liabilities for the oil & gas industry in Australia

1 April 2022

Since ExxonMobil drilled Australia’s first offshore well in 1965, Australia’s oil & gas industry has developed, grown and matured, supporting Australia’s energy security and generating significant economic growth.

Proposed EU corporate sustainability due diligence directive: what US companies need to know

31 March 2022

If adopted, the proposed directive could have significant implications not only for EU enterprises but also for US and other non-EU companies conducting business within the EU.

Canada develops GHG offset regulations

8 February 2022

The System will work in tandem with existing provincial and territorial systems to develop a consistent suite of requirements for transferability and fungibility of GHG offset credits across Canada.

New developments in the Mexican energy sector generate uncertainty

17 November 2021

A discussion of relevant measures, criticisms and comments.

Five issues to watch for at COP26 in Glasgow

12 October 2021

Hopes had already been high for COP26 even before the pandemic paused it. The pent-up potential has only heightened those expectations.

President of Mexico files constitutional reform bill on electricity

7 October 2021

The result may include serious consequences for private investors in the energy sector in Mexico.

Social Responsibility Risk

23 July 2021

Social responsibility has now become one of the most important considerations for companies across the globe. Companies are under increased pressure to develop sustainable and responsible business models in light of heightened sensitivity and awareness by both clients and consumers of environmental, social and governance (ESG) issues. The same also applies to project finance stakeholders.

Episode 5: What should we expect from COP26?

6 July 2021

[THE CLIMATE TRANSITION PODCAST](#)

In this episode, we're joined by Ambassador P. Michael McKinley as we look ahead to COP26 and the best that businesses can hope for. Will this mark a step change in the energy transition? Are we putting too much faith in politicians to lead on that transition? How much can businesses lead and, if so, how much will COP26 help them?

DLA Piper · [What should we expect from COP26?](#)

The DLA Piper Project Simulator – one year on

2 July 2021

Over the past year, we have delivered The DLA Piper Project Simulator to many of our construction, engineering and infrastructure clients, over a virtual platform, and client feedback has been overwhelmingly positive.

Reforms in the energy legal framework in Mexico and challenge mechanisms

4 June 2021

The Energy Counter-Reform includes variations which aim to restore the monopoly power of CFE and Pemex.

The role of external construction counsel

14 May 2021

A common reaction to hearing that someone is a “construction lawyer” is the assumption that this must be a very narrow and focused role. In this article written for the *Construction Law Letter*, Howard Krupat shows that often the opposite is true, and that the responsibilities of a construction lawyer are as varied as the range of projects within the construction industry and even the lifecycle of a particular project.

The Russia sanctions and their impacts on commodities companies: Action steps for companies engaged in transactions with Russian gas and energy companies

11 May 2021

Implications of key provisions in President Biden's Executive Order.

US government announces sweeping sanctions against Russia

16 April 2021

[GLOBAL SANCTIONS ALERT](#)

The newly imposed sanctions represent a significant escalation and addition to the sanctions architecture put in place by the Obama and Trump Administrations.

CFTC's new Climate Risk Unit: Another tool in the Biden Administration's "whole of government" campaign against climate change

23 March 2021

With this move, the US joins governments across the globe in recognizing the vital role derivatives markets will play in developing new solutions to address climate and sustainability challenges.

Reform to the Electric Industry Law: a new risk for energy projects in Mexico

10 March 2021

Foreign investors involved in energy projects in Mexico may wish to consider their rights and potential remedies under applicable investment treaties.

Imminence does not mean haste

4 March 2020

EU SUSTAINABLE FINANCE

Sustainability and ESG stewardship are at the forefront of investment managers' and investment funds' agendas under the combined pressure of investors and as a result of several important pieces of regulation becoming live. SFDR is one of them. It will become applicable in phases, the first deadline being as early as 10 March 2021.

The Hydrogen Revolution in EMEA

4 February 2021

Hydrogen will have a valuable role to play as many of the world's leading economies see investment in green energy as a key component of their sustainable strategies. In this report, we look at developments across EMEA, geographies linked by their existing commitment to hydrogen and the work being done in recognition of its future potential.

Extension of USD LIBOR – ICE Benchmark Administration Consultation

12 January 2021

On 30 November 2020, the ICE Benchmark Administration (IBA) which compiles and oversees LIBOR, announced that it will hold a consultation on its intention to extend most US Dollar LIBOR (USD LIBOR) tenors until 30 June 2023.

Boardroom Brexit: What the deal means for transport

31 December 2020

BOARDROOM BREXIT

There will be continued market access rights for UK and EU road haulage operators, while under the TCA, UK and EU air carriers will continue to enjoy flyover rights and operating rights on routes between the UK and EU. However, UK carriers will not be able to operate cabotage routes in the EU (and vice versa)

Legal reform of the framework on self-consumption of electricity in Morocco

7 December 2020

During the last 12 months, the legal framework for renewable energy in Morocco has undergone numerous reforms. Thus, following the bill amending Law 13-09 on renewable energy, it is now the turn of self-consumption regime to be subject to a draft amendment.

Oil and gas operations in Latin America

3 December 2020

Addressing key operational and commercial challenges that are unique to Latin America.

5G Contracts: Features and challenges of the new Colombian infrastructure programs

30 November 2020

Historically, relied on as an anti-cyclic economic boost, infrastructure development has found a renewed role in reactivating the Colombian economy recently affected by the COVID-19 pandemic. The Colombian government's launch of the 5G concession program sets forth an opportunity to reactive the Colombian economy.

Brazil's new basic sanitation legal framework

30 November 2020

In July 2020, Brazil's New Sanitation Legal Framework was approved. It aims at the universalization of sanitation and water supply in Brazil by 2033 by attracting investment of USD128 billion. The new regulatory framework is expected to transform the nation's water and sanitation sector, creating a business environment with more competition and legal certainty, and fostering domestic and foreign private investment in the sector.

Cost plus fee contracts in the era of COVID-19

30 November 2020

COVID-19 has changed the certainty of many areas in the economic spectrum. For construction contracts it has affected its most important variables: cost and time. In this context, cost plus fee contracts can be used as a way to prevent, mitigate and backstop distressed infrastructure projects, since they permit the parties to undertake projects that involve substantial uncertainties.

PFI and PPP in the UK – is it time to talk about handback?

30 November 2020

The most recent standard form contracts and guidance in the UK for PPPs and similar forms of contract recognize the importance of prescribing detailed handback requirements and making provision for lead-in processes to be followed when a project approaches the end of its term.

Projects Global Insight Issue 4, 2020

30 November 2020

PROJECTS GLOBAL INSIGHT

In what is undoubtedly one of the most testing periods for the infrastructure and construction industry, key stakeholders continue to focus on delivering resilient, adaptable and fit-for-purpose assets and services in extremely challenging conditions.

Corporate PPAs in New Zealand

27 November 2020

PPAs have become very popular around the world and they are starting to fit in within the New Zealand market. Businesses from various sectors are entering into these agreements, which can be an essential component of their energy strategies. So, what are PPAs exactly, what is their relevance in New Zealand and what advantages do they present to electricity users?

Assessing ESG factors in the energy sector

27 October 2020

ESG HANDBOOKS AND GUIDES

A reference tool for energy companies as they discuss and refine their ESG programs.

DLA Piper Collaborative Contracting and Procurement Paper 2020

22 October 2020

The construction industry has suffered for ages from contracts and procurement processes that crudely allocate various risks resulting in misaligned incentives and consequent disputation.

It was from a desire to overcome this misalignment of interests that 'collaborative contracting' was born.

Read more in our paper.

The energy transition and renewable energy in Chile: Top points for foreign investors

8 October 2020

Chile has been actively addressing the energy transition for more than a decade, building a legal foundation that is attracting investment in renewable energy projects.

Three ESG steps to keep your project bankable in 2021

17 September 2020

Version four of the Equator principles will take effect on 1 October 2020, and it introduces three new requirements to the international environmental and social baseline for project finance.

Tax incentives in Puerto Rico: a quick introduction

13 JUN 2017

Puerto Rico offers a spectrum of economic incentives aiming to promote many key industries. This handbook offers a quick look at ten of the most significant of these incentives.

Electrify Africa Act is now law

2 MARCH 2016

The law demonstrates broad bipartisan support for a comprehensive US policy aiming to facilitate private financing and PPP structures as tools to develop power projects in sub-Saharan Africa, which should provide opportunities for investors, sponsors and lenders to advance their projects.

Slavery in the supply chain: new corporate reporting obligations for companies

9 DEC 2015

HEALTH, SAFETY AND ENVIRONMENTAL MATTERS SERIES

The UK's Modern Slavery Act 2015 is in force, imposing on companies new reporting requirements and new enforcement powers, including the creation of an Independent Anti-Slavery Commissioner.
