

Projects, Energy and Infrastructure

DLA Piper's Projects, Energy and Infrastructure team has a track record of successfully delivering first-rate legal services in all segments of the infrastructure and energy industries. We advise on energy law, infrastructure finance, transport matters and more.

Our lawyers understand the commercial, strategic, technical, geographical and political factors that shape and impact these industries, as well as the business issues and risks inherent when working in these sectors. Our market leading presence also allows us first-hand access to contacts, sponsors and key decision makers worldwide.

CAPABILITES

The group represents sponsors, contractors, multilateral institutions, corporations, developers, equity investors, financial institutions, governments, utilities and regulatory bodies in the procurement, development, financing, acquisition, construction and operation of a wide range of complex infrastructure and energy projects on nearly every continent.

These projects include:

- Power generation from natural gas, coal, petroleum and, renewables
- Pipelines
- Drilling platforms
- Transmission networks
- Mining facilities
- Defence and security projects
- Waste projects and resource recovery facilities
- Telecommunications networks
- Vessels
- Ports
- Airports
- Highways, toll roads and bridges
- Transportation systems including airports, heavy rail, light rail and bus

INSIGHTS

Publications

New developments in the Mexican energy sector generate uncertainty

17 November 2021

A discussion of relevant measures, criticisms and comments.

Opportunities in England's eight new freeports

15 November 2021

The UK Spring Budget in 2021 illustrated the reality of the UK's economic situation as a result of the restrictions implemented during the COVID-19 pandemic. The Chancellor used the opportunity to outline the Government's plan to build the 'future economy' through an investment-led recovery plan, which included eight new freeports in England.

National Security and Investment Act 2021:

1 November 2021

The National Security and Investment Act 2021 (the Act) is due to come into force on 4 January 2022. The Act gives the Secretary of State extensive powers to review transactions where it considers there is or may be a risk to national security.

Five issues to watch for at COP26 in Glasgow

12 October 2021

Hopes had already been high for COP26 even before the pandemic paused it. The pent-up potential has only heightened those expectations.

President of Mexico files constitutional reform bill on electricity

7 October 2021

The result may include serious consequences for private investors in the energy sector in Mexico.

Social Responsibility Risk

23 July 2021

Social responsibility has now become one of the most important considerations for companies across the globe. Companies are under increased pressure to develop sustainable and responsible business models in light of heightened sensitivity and awareness by both clients and consumers of environmental, social and governance (ESG) issues. The same also applies to project finance stakeholders.

Episode 5: What should we expect from COP26?

6 July 2021

THE CLIMATE TRANSITION PODCAST

In this episode, we're joined by Ambassador P. Michael McKinley as we look ahead to COP26 and the best that businesses can hope for. Will this mark a step change in the energy transition? Are we putting too much faith in politicians to lead on that transition? How much can businesses lead and, if so, how much will COP26 help them?

DLA Piper · What should we expect from COP26?

The DLA Piper Project Simulator – one year on

2 July 2021

Over the past year, we have delivered The DLA Piper Project Simulator to many of our construction, engineering and infrastructure clients, over a virtual platform, and client feedback has been overwhelmingly positive.

Reforms in the energy legal framework in Mexico and challenge mechanisms

4 June 2021

The Energy Counter-Reform includes variations which aim to restore the monopoly power of CFE and Pemex.

The role of external construction counsel

14 May 2021

A common reaction to hearing that someone is a “construction lawyer” is the assumption that this must be a very narrow and focused role. In this article written for the *Construction Law Letter*, Howard Krupat shows that often the opposite is true, and that the responsibilities of a construction lawyer are as varied as the range of projects within the construction industry and even the lifecycle of a particular project.

The Russia sanctions and their impacts on commodities companies: Action steps for companies engaged in transactions with Russian gas and energy companies

11 May 2021

Implications of key provisions in President Biden's Executive Order.

US government announces sweeping sanctions against Russia

16 April 2021

The newly imposed sanctions represent a significant escalation and addition to the sanctions architecture put in place by the Obama and Trump Administrations.

CFTC's new Climate Risk Unit: Another tool in the Biden Administration's "whole of government" campaign against climate change

23 March 2021

With this move, the US joins governments across the globe in recognizing the vital role derivatives markets will play in developing new solutions to address climate and sustainability challenges.

Public-private partnerships for infrastructure investment: a global perspective

18 March 2021

In a new global report, produced in partnership with Global Infrastructure Investor Association (GIIA), DLA Piper assesses the case for PPPs, backed by multijurisdictional analysis from our projects and infrastructure lawyers around the world as well as insight from leading infrastructure investors who are fellow members of the GIIA.

Reform to the Electric Industry Law: a new risk for energy projects in Mexico

10 March 2021

Foreign investors involved in energy projects in Mexico may wish to consider their rights and potential remedies under applicable investment treaties.

Imminence does not mean haste

4 March 2020

EU SUSTAINABLE FINANCE

Sustainability and ESG stewardship are at the forefront of investment managers' and investment funds' agendas under the combined pressure of investors and as a result of several important pieces of regulation becoming live. SFDR is one of them. It will become applicable in phases, the first deadline being as early as 10 March 2021.

The Hydrogen Revolution in EMEA

4 February 2021

Hydrogen will have a valuable role to play as many of the world's leading economies see investment in green energy as a key component of their sustainable strategies. In this report, we look at developments across EMEA, geographies linked by their existing commitment to hydrogen and the work being done in recognition of its future potential.

Extension of USD LIBOR – ICE Benchmark Administration Consultation

12 January 2021

On 30 November 2020, the ICE Benchmark Administration (IBA) which compiles and oversees LIBOR, announced that it will hold a consultation on its intention to extend most US Dollar LIBOR (USD LIBOR) tenors until 30 June 2023.

Boardroom Brexit: What the deal means for transport

31 December 2020

BOARDROOM BREXIT

There will be continued market access rights for UK and EU road haulage operators, while under the TCA, UK and EU air carriers will

continue to enjoy flyover rights and operating rights on routes between the UK and EU. However, UK carriers will not be able to operate cabotage routes in the EU (and vice versa)

Levelling up the whole of the UK

7 December 2020

In the foreword to the NIS, the Prime Minister states that "*levelling up is my government's core purpose*". The intention is to level up communities and nations across the UK through investment in rural areas, towns and cities on a range of projects covering those of major national importance and those which address local priorities.

Oil and gas operations in Latin America

3 December 2020

Addressing key operational and commercial challenges that are unique to Latin America.

Building a full fibre future: European fibre-to-the-premises (FTTP) investment trends 2021

2 December 2020

Our new study, conducted in partnership with TMT Finance, indicates that the recent rise in FTTP investment is set to continue over the next two years. The insight gathered through this report highlights key factors for the rise and appeal of FTTP to investors, as well as the potential risks they see in this industry.

5G Contracts: Features and challenges of the new Colombian infrastructure programs

30 November 2020

Historically, relied on as an anti-cyclic economic boost, infrastructure development has found a renewed role in reactivating the Colombian economy recently affected by the COVID-19 pandemic. The Colombian government's launch of the 5G concession program sets forth an opportunity to reactivate the Colombian economy.

Brazil's new basic sanitation legal framework

30 November 2020

In July 2020, Brazil's New Sanitation Legal Framework was approved. It aims at the universalization of sanitation and water supply in Brazil by 2033 by attracting investment of USD128 billion. The new regulatory framework is expected to transform the nation's water and sanitation sector, creating a business environment with more competition and legal certainty, and fostering domestic and foreign private investment in the sector.

Cost plus fee contracts in the era of COVID-19

30 November 2020

COVID-19 has changed the certainty of many areas in the economic spectrum. For construction contracts it has affected its most important variables: cost and time. In this context, cost plus fee contracts can be used as a way to prevent, mitigate and backstop distressed infrastructure projects, since they permit the parties to undertake projects that involve substantial uncertainties.

PFI and PPP in the UK – is it time to talk about handback?

30 November 2020

The most recent standard form contracts and guidance in the UK for PPPs and similar forms of contract recognize the importance of prescribing detailed handback requirements and making provision for lead-in processes to be followed when a project approaches the end of its term.

Projects Global Insight Issue 4, 2020

30 November 2020

PROJECTS GLOBAL INSIGHT

In what is undoubtedly one of the most testing periods for the infrastructure and construction industry, key stakeholders continue to focus on delivering resilient, adaptable and fit-for-purpose assets and services in extremely challenging conditions.

Brexit: Choice of Law, Jurisdiction, Enforcement, and Service

27 November 2020

This article looks at the impact of reaching the end of the Brexit transition period (at 11pm on 31 December 2020) on governing law, jurisdiction, enforcement, and service in contracts between UK entities and EU member state entities.

Corporate PPAs in New Zealand

27 November 2020

PPAs have become very popular around the world and they are starting to fit in within the New Zealand market. Businesses from various sectors are entering into these agreements, which can be an essential component of their energy strategies. So, what are PPAs exactly, what is their relevance in New Zealand and what advantages do they present to electricity users?

Assessing ESG factors in the energy sector

27 October 2020

ESG HANDBOOKS AND GUIDES

A reference tool for energy companies as they discuss and refine their ESG programs.

DLA Piper Collaborative Contracting and Procurement Paper 2020

22 October 2020

The construction industry has suffered for ages from contracts and procurement processes that crudely allocate various risks resulting in misaligned incentives and consequent disputation.

It was from a desire to overcome this misalignment of interests that 'collaborative contracting' was born.

Read more in our paper.

Germany's New Foreign Direct Investments (FDI) Act took effect on 11 October 2020

19 October 2020

In addition to the intended amendments to the Foreign Trade and Payments Act Germany's Federal Government on 20 May 2020 has decided on a bill that broadens the scope and the scrutiny with regard to foreign investments.

The energy transition and renewable energy in Chile: Top points for foreign investors

8 October 2020

Chile has been actively addressing the energy transition for more than a decade, building a legal foundation that is attracting investment in renewable energy projects.

Three ESG steps to keep your project bankable in 2021

17 September 2020

Version four of the Equator principles will take effect on 1 October 2020, and it introduces three new requirements to the international environmental and social baseline for project finance.

COVID-19 Construction Guide

16 June 2020

This guide looks at the impact of COVID-19 on the construction sector in over 30 countries, including the latest position as jurisdictions relax their lockdown measures.

The Energy Transition: The impact of Covid-19 and moving to a net-zero economy

26 May 2020

On 19 March 2020, Adrian Del Maestro, global research director with PwC Strategy&, presented to DLA Piper's International Energy and Natural Resources sector lawyers on the immediate impact of COVID-19 and challenges of moving to a net zero economy.

Mexican renewable energy projects affected by new measures

19 May 2020

Foreign investors in wind and solar electricity generation facilities in Mexico may wish to consider their rights and potential remedies under applicable investment instruments.

Public law: How does Covid-19 impact the Flemish integrated environmental permit?

14 May 2020

The COVID-19 outbreak has not only created an increasing need for care facilities and medical supplies, but it has also had a far-reaching impact on the ongoing procedures for granting environmental permits. In order to tackle these issues, the Flemish

Parliament voted on an emergency decree on 18 March 2020.

Are high voltage DC networks the future of electricity distribution?

29 April 2020

In the late 19th century direct current (DC) electricity supply networks were promoted by Thomas Edison as a purportedly safer alternative to alternating current (AC) which was championed by George Westinghouse for use in high voltage street arc lighting and which caused many fatalities.

Revisions to Japan's Stewardship Code in 2020

29 April 2020

On 24 March 2020, Japan's Financial Services Agency (FSA) finalized and published the second revised version of Japan's Stewardship Code (the Code). The revised Code (the Revision Code) is intended to progress the Japanese government's corporate governance reform, one of the key pillars of Prime Minister Abe's economic revival program, following revisions to Japan's Corporate Governance Code in 2018.

A discussion of California plugging and abandonment rules

27 April 2020

US OIL AND GAS PLUGGING AND ABANDONMENT RULES

Requirements for onshore oil and gas wells in California, as well as ties among these requirements and bankruptcy.

Breaking mega projects into smaller contract packages – a freight response to a freight market

24 April 2020

In response to Australia's freight construction market for major civil construction works, project owners and contractors are adopting various strategies. One of the most common is breaking mega projects into smaller contract packages, however, what exactly are the benefits and risks?

EPA and CalEPA guidance on field activities during COVID-19 focuses on agency communication, deadlines and flexibility

24 April 2020

EPA wishes individual regions to communicate directly with their regulated communities to ensure reasonable expectations for ongoing field work; meanwhile, CalEPA may fill gaps in EPA's enforcement.

Projects Global Insight Issue 3, 2020

24 April 2020

PROJECTS GLOBAL INSIGHT

Contributing to a sustainable future is more important than ever during these uncertain and testing times. Infrastructure and public services are under particular pressure, especially in terms of what can be done to make them more resilient, yet adaptable.

Responding to a fraught civil construction market

24 April 2020

The contracting market for major civil construction works on Australia's east coast has become fraught - for project owners, major contractors, and the rest of the supply chain. Projects have become more complex and expensive, yet despite rising contract values, contractors struggle with profitability. So, what strategies are being considered?

Using blended finance to support infrastructure development in emerging economies

24 April 2020

The 2030 Agenda for Sustainable Development adopted by the United Nations sets out 17 Sustainable Development Goals; from poverty reduction, food security, healthcare and education to climate change mitigation and other development objectives. What is, and how can blended finance be used in emerging economies?

A discussion of Texas plugging and abandonment rules

17 April 2020

US OIL AND GAS PLUGGING AND ABANDONMENT RULES

An outline of the plugging and abandonment requirements of onshore oil and gas wells in Texas plus a discussion of ties between the plugging requirements and bankruptcy.

Corona-crisis dwingt regionale overheden tot ingrijpen in het omgevingsrecht

14 April 2020

Het coronavirus (COVID-19) laat ook het omgevingsrecht niet ongemoeid. De noodmaatregelen van de verschillende Belgische overheden hebben een belangrijke impact op o.m. lopende bouwwerken en vergunningsprocedures, een van de belangrijkste economische motoren van ons land.

Paradigm Change in Germany's Foreign Direct Investments (FDI) Law

14 April 2020

Germany's FDI rules so far had a reputation of not being very strong. In the past few years, only three transactions have been prohibited. This is set to change under a new bill.

Alberta government announces relief for energy industry

8 APR 2020

Alberta oil and gas producers, who are dealing with both historically low commodity prices and the COVID-19 crisis, received some relief from the Alberta government over the last several weeks as the government announced several measures designed to reduce and defer producers' costs and ease the administrative burden on producers.

High Court rules BHP entities were associates

23 March 2020

On 11 March 2020, in an unanimous and landmark decision, the High Court of Australia handed down its decision on the technical meaning of "sufficiently influenced" which is used to determine who is an "associate" under Australia's foreign income attribution rules. The decision has significant impact for large listed groups especially with a dual-listed company (**DLC**) structure and concerns the application of the Australian Controlled Foreign Company (**CFC**) rules.

Whilst the facts and future application of this case may principally be limited to the DLC type structures, the legal analysis of the definition of "associate" impacts on wider applications as this definition is used outside of the CFC provisions including the thin capitalisation rules, the debt/equity tests and the withholding tax rules.

Building tomorrow's infrastructure

17 March 2020

What does the future look like for infrastructure as a whole?

Introducing the DLA Piper Project Simulator

17 March 2020

One of the most critical challenges faced by our global society is developing high-quality, sustainable infrastructure. To help businesses meet this challenge, DLA Piper has collaborated with leading strategy consultancy BTS to create **The DLA Piper Project Simulator (DPS)**, an interactive training tool.

COP25's key outcome: adoption of the San Jose Principles on carbon market mechanisms – takeaways for business

12 February 2020

Ambitious countries are not waiting for full consensus on carbon markets.

Flexing PPPs

10 February 2020

This paper considers how governments can manage this vulnerability when contracting under a PPP contract. It also considers whether alternative contractual models might provide government with better value for money over the longer term.

Construction delays arising out of the Novel Coronavirus outbreak (AsiaPac)

7 February 2020

Since the first case of coronavirus was confirmed in Hong Kong in early February 2020, the government has imposed various measures

in an attempt to contain the spread of the coronavirus. The resulting impact of the novel coronavirus is far-reaching and affects every industry and business in Hong Kong. This alert considers some of the key issues that construction contractors and developers in Hong Kong may face. If you need any specific advice, please contact May Ng or Sandy Au for further details.

Tax incentives in Puerto Rico: a quick introduction

13 JUN 2017

Puerto Rico offers a spectrum of economic incentives aiming to promote many key industries. This handbook offers a quick look at ten of the most significant of these incentives.

Electrify Africa Act is now law

2 MARCH 2016

The law demonstrates broad bipartisan support for a comprehensive US policy aiming to facilitate private financing and PPP structures as tools to develop power projects in sub-Saharan Africa, which should provide opportunities for investors, sponsors and lenders to advance their projects.

Slavery in the supply chain: new corporate reporting obligations for companies

9 DEC 2015

HEALTH, SAFETY AND ENVIRONMENTAL MATTERS SERIES

The UK's Modern Slavery Act 2015 is in force, imposing on companies new reporting requirements and new enforcement powers, including the creation of an Independent Anti-Slavery Commissioner.
