

Projects, Energy and Infrastructure

DLA Piper's Projects, Energy and Infrastructure team has a track record of successfully delivering first-rate legal services in all segments of the infrastructure and energy industries. We advise on energy law, infrastructure finance, transport matters and more.

Our lawyers understand the commercial, strategic, technical, geographical and political factors that shape and impact these industries, as well as the business issues and risks inherent when working in these sectors. Our market leading presence also allows us first-hand access to contacts, sponsors and key decision makers worldwide.

CAPABILITES

The group represents sponsors, contractors, multilateral institutions, corporations, developers, equity investors, financial institutions, governments, utilities and regulatory bodies in the procurement, development, financing, acquisition, construction and operation of a wide range of complex infrastructure and energy projects on nearly every continent.

These projects include:

- Power generation from natural gas, coal, petroleum and, renewables
- Pipelines
- Drilling platforms
- Transmission networks
- Mining facilities
- Defence and security projects
- Waste projects and resource recovery facilities
- Telecommunications networks
- Vessels
- Ports
- Airports
- Highways, toll roads and bridges
- Transportation systems including airports, heavy rail, light rail and bus

Six commodities predictions for 2022

2 December 2021

The worldwide turmoil of 2020 is, in many ways, still with us, but the good news is that alongside the struggles, the commodities realm is seeing an immense number of opportunities. Here, we take a fast look at the six areas we think the commodities sector should be watching in the year to come.

Mexican president waives authorizations, permits and license requirements for government public works

23 November 2021

The decree declares that infrastructure projects are a matter of public interest and national security, as well as a strategic priority for national development.

Nuevos acontecimientos en el sector energético mexicano generan incertidumbre

17 de noviembre de 2021

Una discusión de las medidas, críticas y comentarios relevantes.

Global Reporting Initiative updates its Universal Standards – revisions will affect ESG reporting by numerous businesses

3 November 2021

GRI 11 outlines topics likely to be material for oil and gas organizations and lists relevant disclosures, such as air emissions, climate adaptation, and water and effluents.

A summary: the CFTC position limits compliance deadline of January 2022

21 October 2021

Changes to the definition of a “bona fide hedging transaction or position.”

Five issues to watch for at COP26 in Glasgow

12 October 2021

Hopes had already been high for COP26 even before the pandemic paused it. The pent-up potential has only heightened those expectations.

New antidumping and countervailing duty petition: Oil country tubular goods from Argentina, Mexico, the Republic of Korea, and Russia – consequences for industry and downstream consumers

8 October 2021

US AD and CVD investigations can result in the imposition of substantial duties in addition to already applicable duties and tariffs.

Presidente de México presenta iniciativa de reforma constitucional en materia de electricidad

7 de octubre de 2021

El resultado puede implicar graves consecuencias para los inversionistas del sector energético en México.

Biden Administration works to expand US offshore wind market

28 September 2021

The federal government moves forward assertively with an expanded leasing program aiming to double offshore wind production by 2030. Meanwhile, some states are acting too.

By any standard? Meeting sustainability commitments through credible carbon markets

13 September 2021

Operating in today's evolving voluntary carbon trading ecosystem.

Energy storage tax credits and climate goals: Latest developments in Washington

24 August 2021

To meet President Joe Biden's goal of achieving 100-percent carbon pollution-free electricity by 2035, the US is anticipated to need 100 GW of storage by 2030.

Infrastructure bill passed by the Senate would impose new information reporting requirements on cryptocurrency transactions

23 August 2021

If enacted, the bill would provide for significant investments in roads, bridges, ports, airports, electric grids, water systems and broadband.

Brazil: Bioenergy in the ESG context

22 July 2021

A look at Brazil's evolving approach to the sustainable use of environmental resources.

Episode 5: What should we expect from COP26?

6 July 2021

THE CLIMATE TRANSITION PODCAST

In this episode, we're joined by Ambassador P. Michael McKinley as we look ahead to COP26 and the best that businesses can hope for. Will this mark a step change in the energy transition? Are we putting too much faith in politicians to lead on that transition? How much can businesses lead and, if so, how much will COP26 help them?

DLA Piper · What should we expect from COP26?

Impact on the US solar, silicon and related industries of new US government actions aimed to address labor practices in Xinjiang

6 July 2021

Key details and implications for US companies.

The DLA Piper Project Simulator – one year on

2 July 2021

Over the past year, we have delivered The DLA Piper Project Simulator to many of our construction, engineering and infrastructure clients, over a virtual platform, and client feedback has been overwhelmingly positive.

Sustainability standards setter seeks input on draft GRI Standards for agriculture, aquaculture, fishing and coal

1 July 2021

Winter Storm Uri: New Texas legislation aims to improve power grid, restructure the grid's overseeing agency

15 June 2021

The legislation responds to calls for sweeping change to the power infrastructure in Texas.

A long hot summer: Five steps for energy commodities traders in a time of heightened scrutiny

14 June 2021

Rising temperatures may exacerbate current market volatility, which in turn may lead to heightened regulatory scrutiny.

Whatever your sector, ransomware attacks are changing how to think about platform security risk: Action steps

14 June 2021

In an increasingly digitized economy, creating awareness of platform security risks is critical.

Reformas en el marco jurídico de los energéticos en México y mecanismos de impugnación

4 de junio de 2021

La Contrarreforma Energética incluye cambios en la regulación cuyo propósito es devolver el poder monopólico a CFE y Pemex.

Commodities News and Trends

3 June 2021

COMMODITIES NEWS AND TRENDS

Fossil fuel industry and ESG; energy aspects of Biden infrastructure plan; floating storage can rule the seas or give you a sea of trouble.

The role of external construction counsel

14 May 2021

A common reaction to hearing that someone is a “construction lawyer” is the assumption that this must be a very narrow and focused role. In this article written for the *Construction Law Letter*, Howard Krupat shows that often the opposite is true, and that the responsibilities of a construction lawyer are as varied as the range of projects within the construction industry and even the lifecycle of a particular project.

President Biden issues broad-ranging Executive Order on cybersecurity

13 May 2021

The EO sets forth new requirements for federal agencies and government service providers.

The Russia sanctions and their impacts on commodities companies: Action steps for companies engaged in transactions with Russian gas and energy companies

11 May 2021

Implications of key provisions in President Biden's Executive Order.

FERC issues policy statement regarding state-determined carbon pricing in wholesale electricity markets

22 April 2021

The policy statement allows FERC to avoid the restriction imposed by the *EPSA* decision, which reserves certain matters under FPA section 201(b) exclusively for the states.

Georgia's HB 156, requiring state notice for utility cybersecurity incidents, is now in effect

21 April 2021

The law creates specific notice requirements for state agencies and utilities that experience cybersecurity attacks and requires swift notice to the state director of emergency management in Georgia.

US government announces sweeping sanctions against Russia

16 April 2021

The newly imposed sanctions represent a significant escalation and addition to the sanctions architecture put in place by the Obama and Trump Administrations.

***ERCOT v Panda*: The Texas Supreme Court's non-decision on ERCOT immunity**

29 March 2021

The outcome of *Panda* paves the way for the issue to return to the Court, likely next year.

CFTC's new Climate Risk Unit: Another tool in the Biden Administration's "whole of government" campaign against climate change

23 March 2021

With this move, the US joins governments across the globe in recognizing the vital role derivatives markets will play in developing new solutions to address climate and sustainability challenges.

Public-private partnerships for infrastructure investment: a global perspective

18 March 2021

In a new global report, produced in partnership with Global Infrastructure Investor Association (GIIA), DLA Piper assesses the case for PPPs, backed by multijurisdictional analysis from our projects and infrastructure lawyers around the world as well as insight from leading infrastructure investors who are fellow members of the GIIA.

\$9,000 per MWh, disputes over governance and invoices, possible bankruptcies: Texas looks at the structure of its wholesale electricity market

16 March 2021

In the wake of Winter Storm Uri, Texas scrutinizes its deregulated electricity market.

CFTC final position rule limits enter into effect March 15

10 March 2021

The Final Rules aim to "prevent excessive speculation" and thus implement one of the remaining key provisions of Dodd-Frank.

Commodities News and Trends

10 March 2021

COMMODITIES NEWS AND TRENDS

Oil and gas companies commit to transparency on methane emissions reporting; CFTC adopts final position rule limits; consequences of volatile markets.

Reforma a la Ley de la Industria Eléctrica: un nuevo riesgo para proyectos energéticos en México

10 de marzo de 2021

La Iniciativa, básicamente, favorece el despacho de electricidad generada por la Comisión Federal de Electricidad, una empresa productiva del Estado mexicano.

Imminence does not mean haste

4 March 2020

EU SUSTAINABLE FINANCE

Sustainability and ESG stewardship are at the forefront of investment managers' and investment funds' agendas under the combined pressure of investors and as a result of several important pieces of regulation becoming live. SFDR is one of them. It will become applicable in phases, the first deadline being as early as 10 March 2021.

A discussion of Colorado plugging and abandonment rules

2 March 2021

US OIL AND GAS PLUGGING AND ABANDONMENT RULES

Plugging and reclaiming requirements for non-injection oil and gas wells and well sites in Colorado, as well as implications for bankruptcies and approaches for buyers seeking to account for these rules in asset sale agreements.

Force majeure provisions and the ISDA Power Annex

22 February 2021

As climate change generates ever more severe weather events, market participants will likely need to assess the applicability of their force majeure claims under the Power Annex.

The Biden Administration's impact on oil and gas

18 February 2021

These actions will add an additional layer of regulations for oil and gas operations.

Extension of USD LIBOR – ICE Benchmark Administration Consultation

12 January 2021

On 30 November 2020, the ICE Benchmark Administration (IBA) which compiles and oversees LIBOR, announced that it will hold a consultation on its intention to extend most US Dollar LIBOR (USD LIBOR) tenors until 30 June 2023.

Boardroom Brexit: What the deal means for transport

31 December 2020

[BOARDROOM BREXIT](#)

There will be continued market access rights for UK and EU road haulage operators, while under the TCA, UK and EU air carriers will continue to enjoy flyover rights and operating rights on routes between the UK and EU. However, UK carriers will not be able to operate cabotage routes in the EU (and vice versa)

CFTC's annual enforcement report touts record-breaking year

16 December 2020

DLA Piper Collaborative Contracting and Procurement Paper 2020

22 October 2020

The construction industry has suffered for ages from contracts and procurement processes that crudely allocate various risks resulting in misaligned incentives and consequent disputation.

It was from a desire to overcome this misalignment of interests that 'collaborative contracting' was born.

Read more in our paper.

Germany's New Foreign Direct Investments (FDI) Act took effect on 11 October 2020

19 October 2020

In addition to the intended amendments to the Foreign Trade and Payments Act Germany's Federal Government on 20 May 2020 has decided on a bill that broadens the scope and the scrutiny with regard to foreign investments.

The energy transition and renewable energy in Chile: Top points for foreign investors

8 October 2020

Chile has been actively addressing the energy transition for more than a decade, building a legal foundation that is attracting investment in renewable energy projects.

PACTA for Banks brings climate scenario analysis to financial institutions

7 October 2020

PACTA for Banks is a toolkit for financial institutions to measure the alignment of their corporate lending portfolios with climate scenarios across a set of key climate-relevant sectors and technologies.

Three ESG steps to keep your project bankable in 2021

17 September 2020

Version four of the Equator principles will take effect on 1 October 2020, and it introduces three new requirements to the international environmental and social baseline for project finance.

Distributed generation: A rising energy market in Chile

16 September 2020

This growing market has features that make it attractive for investors in uncertain times.

Nuevas medidas que amenazan inversiones en el sector energético mexicano

14 de julio de 2020

El impacto de estos acontecimientos

Update on the Executive Order prohibiting import and installation of bulk power system equipment sourced from a foreign adversary: DOE FAQs

8 June 2020

IRS modifies renewable energy tax credit safe harbors to address construction delays

5 June 2020

Extending the Continuity Safe Harbor for projects in which construction began in 2016 or 2017 by one year and establishing a safe harbor for satisfaction of the 3½ month economic performance rule.

The Energy Transition: The impact of Covid-19 and moving to a net-zero economy

26 May 2020

On 19 March 2020, Adrian Del Maestro, global research director with PwC Strategy&, presented to DLA Piper's International Energy and Natural Resources sector lawyers on the immediate impact of COVID-19 and challenges of moving to a net zero economy.

CFTC commits to ensuring a properly functioning derivative markets during COVID-19 pandemic

22 May 2020

The CFTC uses its powers under Dodd-Frank to mitigate market upheaval.

Mexican renewable energy projects affected by new measures

19 May 2020

Foreign investors in wind and solar electricity generation facilities in Mexico may wish to consider their rights and potential remedies under applicable investment instruments.

Maintaining oil and gas leases during secondary terms

14 May 2020

Highlighting several relevant lease interpretation issues.

Public law: How does Covid-19 impact the Flemish integrated environmental permit?

14 May 2020

The COVID-19 outbreak has not only created an increasing need for care facilities and medical supplies, but it has also had a far-reaching impact on the ongoing procedures for granting environmental permits. In order to tackle these issues, the Flemish Parliament voted on an emergency decree on 18 March 2020.

A discussion of North Dakota plugging and abandonment rules

5 May 2020

US OIL AND GAS PLUGGING AND ABANDONMENT RULES

Requirements for onshore oil and gas wells in North Dakota, as well as ties among these requirements and bankruptcy.

Are high voltage DC networks the future of electricity distribution?

29 April 2020

In the late 19th century direct current (DC) electricity supply networks were promoted by Thomas Edison as a purportedly safer alternative to alternating current (AC) which was championed by George Westinghouse for use in high voltage street arc lighting and which caused many fatalities.

Supreme Court recognizes state court jurisdiction relating to Superfund remediation but conditions some additional landowner remedies on approval by EPA

29 April 2020

The Court decided two critical questions.

A discussion of California plugging and abandonment rules

27 April 2020

US OIL AND GAS PLUGGING AND ABANDONMENT RULES

Requirements for onshore oil and gas wells in California, as well as ties among these requirements and bankruptcy.

Breaking mega projects into smaller contract packages – a fraught response to a fraught market

24 April 2020

In response to Australia's fraught construction market for major civil construction works, project owners and contractors are adopting various strategies. One of the most common is breaking mega projects into smaller contract packages, however, what exactly are the benefits and risks?

EPA and CalEPA guidance on field activities during COVID-19 focuses on agency communication, deadlines and flexibility

24 April 2020

EPA wishes individual regions to communicate directly with their regulated communities to ensure reasonable expectations for ongoing field work; meanwhile, CalEPA may fill gaps in EPA's enforcement.

Projects Global Insight Issue 3, 2020

24 April 2020

PROJECTS GLOBAL INSIGHT

Contributing to a sustainable future is more important than ever during these uncertain and testing times. Infrastructure and public services are under particular pressure, especially in terms of what can be done to make them more resilient, yet adaptable.

Responding to a fraught civil construction market

24 April 2020

The contracting market for major civil construction works on Australia's east coast has become fraught - for project owners, major contractors, and the rest of the supply chain. Projects have become more complex and expensive, yet despite rising contract values, contractors struggle with profitability. So, what strategies are being considered?

Using blended finance to support infrastructure development in emerging economies

24 April 2020

The 2030 Agenda for Sustainable Development adopted by the United Nations sets out 17 Sustainable Development Goals; from poverty reduction, food security, healthcare and education to climate change mitigation and other development objectives. What is, and how can blended finance be used in emerging economies?

A discussion of Texas plugging and abandonment rules

17 April 2020

US OIL AND GAS PLUGGING AND ABANDONMENT RULES

An outline of the plugging and abandonment requirements of onshore oil and gas wells in Texas plus a discussion of ties between the plugging requirements and bankruptcy.

Paradigm Change in Germany's Foreign Direct Investments (FDI) Law

14 April 2020

Germany's FDI rules so far had a reputation of not being very strong. In the past few years, only three transactions have been prohibited. This is set to change under a new bill.

Alberta government announces relief for energy industry

8 APR 2020

Alberta oil and gas producers, who are dealing with both historically low commodity prices and the COVID-19 crisis, received some relief from the Alberta government over the last several weeks as the government announced several measures designed to reduce and defer producers' costs and ease the administrative burden on producers.

High Court rules BHP entities were associates

23 March 2020

On 11 March 2020, in an unanimous and landmark decision, the High Court of Australia handed down its decision on the technical meaning of "sufficiently influenced" which is used to determine who is an "associate" under Australia's foreign income attribution rules. The decision has significant impact for large listed groups especially with a dual-listed company (**DLC**) structure and concerns the application of the Australian Controlled Foreign Company (**CFC**) rules.

Whilst the facts and future application of this case may principally be limited to the DLC type structures, the legal analysis of the definition of "associate" impacts on wider applications as this definition is used outside of the CFC provisions including the thin capitalisation rules, the debt/equity tests and the withholding tax rules.

Introducing the DLA Piper Project Simulator

17 March 2020

One of the most critical challenges faced by our global society is developing high-quality, sustainable infrastructure. To help businesses meet this challenge, DLA Piper has collaborated with leading strategy consultancy BTS to create **The DLA Piper Project Simulator (DPS)**, an interactive training tool.

Looking at FERC record retention regulations for US commodities marketing and trading firms

4 March 2020

Exploring a hypothetical situation in which a natural gas marketing and trading company receives a FERC audit commencement letter.

EPA renewable fuel shift may increase cost of compliance

20 February 2020

What RINs are, how they are priced and how the US EPA's 2020 rules may affect compliance costs.

COP25's key outcome: adoption of the San Jose Principles on carbon market mechanisms – takeaways for business

12 February 2020

Ambitious countries are not waiting for full consensus on carbon markets.

Flexing PPPs

10 February 2020

This paper considers how governments can manage this vulnerability when contracting under a PPP contract. It also considers whether alternative contractual models might provide government with better value for money over the longer term.

Construction delays arising out of the Novel Coronavirus outbreak (AsiaPac)

7 February 2020

Since the first case of coronavirus was confirmed in Hong Kong in early February 2020, the government has imposed various measures in an attempt to contain the spread of the coronavirus. The resulting impact of the novel coronavirus is far-reaching and affects every industry and business in Hong Kong. This alert considers some of the key issues that construction contractors and developers in Hong Kong may face. If you need any specific advice, please contact May Ng or Sandy Au for further details.

The changing face of the Asia Pacific LNG market: Trending away from oil linked pricing and long-term contracts

15 December 2019

The market in the Asia Pacific region has traditionally been underpinned by contract structures based on crude oil linked prices and long-term offtake. These contract structures are changing – what pricing and contract duration trends are to be expected?

FCC proposes new rules and spectrum reallocation that could change the future of auto safety communications – agency seeks comments and input

6 December 2019

This significant rulemaking proposal seeks to make watershed changes in the use of spectrum, Intelligent Transportation Systems, and the future of auto and road safety and communication applications in the US.

Tax incentives in Puerto Rico: a quick introduction

13 JUN 2017

Puerto Rico offers a spectrum of economic incentives aiming to promote many key industries. This handbook offers a quick look at ten of the most significant of these incentives.

Public-Private Partnerships in Puerto Rico

21 MAR 2017

For those considering participating in P3s in Puerto Rico, this handbook summarizes the applicable legal framework and discusses why Puerto Rico is a favorable jurisdiction for entering into P3s.

Is it a new day for Jones Act enforcement? Maybe. A practical look at coastwise concerns

9 AUG 2016

The decision underscores the significance of each party's right to participate in the arbitration process and arguably expands the scope of existing arbitration jurisprudence.

Electrify Africa Act is now law

2 MARCH 2016

The law demonstrates broad bipartisan support for a comprehensive US policy aiming to facilitate private financing and PPP structures as tools to develop power projects in sub-Saharan Africa, which should provide opportunities for investors, sponsors and lenders to advance their projects.

Slavery in the supply chain: new corporate reporting obligations for companies

9 DEC 2015

HEALTH, SAFETY AND ENVIRONMENTAL MATTERS SERIES

The UK's Modern Slavery Act 2015 is in force, imposing on companies new reporting requirements and new enforcement powers, including the creation of an Independent Anti-Slavery Commissioner.

Historic reform in Mexico clears the way for foreign investment in energy sector: 5 key aspects

19 DEC 2013

A clear roadmap for the regulation of hydrocarbons

The EU looks at fracking: regulations taking shape

21 NOV 2013

US commits \$7B to ambitious Power Africa initiative

2 JUL 2013

A new initiative aiming to double access to power in sub-Saharan Africa

Preparing for EMIR and Dodd-Frank: Our capabilities

8 MAY 2013

The European Market Infrastructure Regulation (EMIR) has been in force since 16 August 2012, however, in the first few weeks of 2013, the detailed technical rules implementing the regulation were finalised and came into force on 15 March 2013.

New York Assembly passes two-year fracking moratorium, while Illinois moves forward

11 MAR 2013

British government lifts year-old fracking moratorium

20 DEC 2012

The British Government has announced it is lifting its ban on hydraulic fracturing (fracking) to extract natural gas from shale deposits.

With revised proposed regulations, "fracking" returns to the fore of New York State's energy policy

11 Dec 2012

New York Governor Andrew M. Cuomo's administration has issued revised proposed regulations for high-volume hydraulic fracturing (fracking or HVHF) in New York State, a move that will avoid sending the entire process back to the drawing board.

Thinking strategically on pipe build-out for the shale boom

1 Oct 2012

Recent developments in horizontal drilling techniques have propelled natural gas production from shale formations to the forefront of domestic oil and gas production today. This rapid expansion is presenting opportunities and challenges for producers and pipeline developers seeking to capitalize on the need to move this gas to market.

The final countdown: Dodd-Frank compliance to begin as SEC and CFTC issue key rules re swaps activities

11 Jul 2012

CFTC issues two proposals affecting those engaging in swaps activities

10 Jul 2012

Marcellus Shale pipeline decision provides guidance on scope of environmental “cumulative impacts” analysis for projects requiring government approval

20 Jun 2012

The Second Circuit has issued a decision providing further clarity on the scope of “cumulative impacts” analysis required under the National Environmental Policy Act (NEPA).

CFTC approves commodity options final rule, establishing trade option exemption

30 Apr 2012

CFTC issues the first of the two rules that will shape the post-Dodd-Frank world

19 Apr 2012

On Wednesday, April 18, 2012, the Commodity Futures Trading Commission met and issued the first of the two “pillar” rules that will shape the landscape of the CFTC’s regulation of swaps under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Pennsylvania tightens rules for drilling in the Marcellus Shale

1 Mar 2012

Pennsylvania Governor Tom Corbett has signed into law Bill 1950, a set of amendments to the Pennsylvania Oil and Gas Act that set forth new standards and requirements for natural gas drilling operations in the Marcellus Shale formation in Pennsylvania.

States' regulations on Marcellus Shale gas extraction continue to take shape

30 Nov 2011

Marcellus Shale drillers face potential liability under Clean Air Act

5 Oct 2011
