

Projects, Energy and Infrastructure

DLA Piper's Projects, Energy and Infrastructure team has a track record of successfully delivering first-rate legal services in all segments of the infrastructure and energy industries. We advise on energy law, infrastructure finance, transport matters and more.

Our lawyers understand the commercial, strategic, technical, geographical and political factors that shape and impact these industries, as well as the business issues and risks inherent when working in these sectors. Our market leading presence also allows us first-hand access to contacts, sponsors and key decision makers worldwide.

CAPABILITES

The group represents sponsors, contractors, multilateral institutions, corporations, developers, equity investors, financial institutions, governments, utilities and regulatory bodies in the procurement, development, financing, acquisition, construction and operation of a wide range of complex infrastructure and energy projects on nearly every continent.

These projects include:

- Power generation from natural gas, coal, petroleum and, renewables
- Pipelines
- Drilling platforms
- Transmission networks
- Mining facilities
- Defence and security projects
- Waste projects and resource recovery facilities
- Telecommunications networks
- Vessels
- Ports
- Airports
- Highways, toll roads and bridges
- Transportation systems including airports, heavy rail, light rail and bus

CHIPS Act is major boost for US semiconductor manufacturing; FCC encourages manufacturing in space; recycling, PFAS, plastics.

Judge declares reforms to Electricity Industry Law unconstitutional

11 August 2022

Key details and implications for individuals, businesses and investors in Mexico's electricity sector.

Brazil's FIAGRO promotes agribusiness: key points about this new form of investment

4 August 2022

PANORAMA

By creating the FIAGRO structure, the Brazilian government is aiming to move financing of agricultural production from public subsidies into private hands.

US Department of Commerce Initiates Circumvention Inquiries Against Solar Cells and Modules from Cambodia, Malaysia, Thailand and Vietnam

13 July 2022

Here, the authors examine the recent action of the US Department of Commerce initiating country-wide inquiries to determine whether imports of solar cells and modules from three countries are circumventing certain antidumping and countervailing duty orders.

Mexican Energy Regulatory Commission imposes sanction of more than US\$450 million; Mexico's Supreme Court issues precedent unfavorable to permit holders

28 June 2022

Details of the decision and implications on private investments in the Mexican electricity market.

Opportunity despite uncertainty: Innovative strategies in commodity markets

6 June 2022

Electricity experts and officials warn that states may not have enough power to meet demand in the coming months.

A look at the FTC's Green Guides for US marketers of emissions reduction credits

18 May 2022

A major aspect of a well-functioning secondary market in emission reduction credits is the transmission of truthful and reliable information.

New wave of US sanctions on Russia targets services, broadcasting, banking, and US exports

16 May 2022

GLOBAL SANCTIONS ALERT

The US government continues to announce new measures.

Mexican Congress rejects electricity constitutional reform and approves bill to regulate lithium

20 April 2022

An outline of the House of Representatives' decision regarding the Electricity Reform and Mining Reform, as well as its possible implications.

US DOC initiates circumvention inquiries against solar cells and modules from Cambodia, Malaysia, Thailand and Vietnam

14 April 2022

Any additional duties could be applied retroactively to entries before April 1 and could be as much as or in excess of 250 percent of the price of the applicable CSPV cells and modules.

Latest sanctions block Russia's largest banks, cyber actors and more; Biden's executive order prohibits investments in Russia by US persons

8 April 2022

GLOBAL SANCTIONS ALERT

Two of Russia's largest banks, Sberbank and Alfa-Bank, which had previously been subject to narrower restrictions, have now been blocked.

Mexican Supreme Court dismisses Unconstitutionality Action against Electricity Industry Law reform

8 April 2022

Key developments and implications

Illinois General Assembly approves critical changes to 2021 affordable housing tax relief legislation

4 April 2022

We expect the legislation to be signed into law later this spring.

Driving change: The decarbonisation of European transport

1 April 2022

Our new study, in association with Acuris Studios, surveyed 100 senior executives of organisations based in Europe that have invested in European decarbonisation projects and/or technologies related to aviation, rail or shipping in the past 24 months.

Economic drivers in Latin America: Key industry sectors and the rise of SESG

1 April 2022

Overshadowed by the pandemic, Latin America's GDP growth results closed 2020 at nearly – 8%, while global GDP growth results closed at – 5%. The growth forecast for 2021 is at 4.1%, relying on the vaccination efforts across Latin America countries to combat COVID-19, as well as the many relief packages launched by the world's biggest economies to help emerging economies.

Green Hydrogen in Chile: A Contribution to the Global Energy Transition

1 April 2022

Nowadays we see governments around the world adopting decarbonization policies to transition their economies away from high-emission electricity generation and polluting manufacturing/production of goods and services.

Projects Global Insight Issue 5, 2022

1 April 2022

PROJECTS GLOBAL INSIGHT

Welcome to the new issue of the Project Global Insights 2022. In some areas of the globe we are now seeing a gradual loosening of restrictions triggered by the COVID-19 pandemic, and stakeholders and governments across the world continue to focus on transport, infrastructure and clean energy investments to boost economic activities.

The Biden Plan: The most awaited infrastructure plan for the US

1 April 2022

The need for an adequate infrastructure program for the US is well known. This program has taken several presidencies to see the light of day, but it finally took the form of a concrete and ambitious plan presented by the Biden Administration in March 2021 known as the American Jobs Plan.

'Boomerang' decommissioning liabilities for the oil & gas industry in Australia

1 April 2022

Since ExxonMobil drilled Australia's first offshore well in 1965, Australia's oil & gas industry has developed, grown and matured, supporting Australia's energy security and generating significant economic growth.

Proposed EU corporate sustainability due diligence directive: what US companies need to know

31 March 2022

If adopted, the proposed directive could have significant implications not only for EU enterprises but also for US and other non-EU companies conducting business within the EU.

New wave of US sanctions targets Russian Duma, additional elites, defense entities; BIS extends export controls to more than 100 Russian aircraft

29 March 2022

GLOBAL SANCTIONS ALERT

The latest sanctions affect all members of the Duma, Russian elites, bank executives and board members, and Russian defense firms, and BIS has extended export controls to certain Russian aircraft.

ISDA proposes Form of Amendment for nickel market disruption fallbacks: understanding the options

28 March 2022

Those who use nickel for their commodity reference price may find the Form of Amendment useful to avoid calculation uncertainty.

Through the lens of Chile: Four trends motivating the energy sector in 2022

28 March 2022

PANORAMA

The planning process may prove complicated for the energy sector as it strives to integrate trends that are rapidly transforming the industry.

Using big data and AI to track ESG criteria: The LatAm experience

14 March 2022

PANORAMA

Today's investors need a comprehensive view of the potential material ESG issues facing their portfolio companies in order to meet regulatory requirements.

US sanctions Russian energy sector while allowing various energy-related activities to continue

9 March 2022

GLOBAL SANCTIONS ALERT

Today's actions further restrict commercial activity and increase risks of sanctions violations by well-intentioned companies.

US continues to escalate sanctions against Russia and Belarus

4 March 2022

GLOBAL SANCTIONS ALERT

White House announces new sanctions while putting in place extensive new export control measures against Russia and Belarus; DOJ announces Task Force KleptoCapture; OFAC closes some loopholes.

Looking to verify your energy project to generate carbon credits? Understanding two popular verification registries

18 February 2022

The long-awaited solar panel tariff decision is here – key points for industry stakeholders

10 February 2022

A still challenging path.

Canada develops GHG offset regulations

8 February 2022

The System will work in tandem with existing provincial and territorial systems to develop a consistent suite of requirements for transferability and fungibility of GHG offset credits across Canada.

Blocking rights and the Texas wind power generation industry

2 February 2022

Action steps and best practices for potential debtors, as well as for lenders, hedge providers, and equity holders.

California regulations on diverting organic waste go into effect January 1: new rules affect municipalities and food sector, bring opportunities for composting and biofuel businesses

16 December 2021

As more regulations implementing SB 1383 come into effect in the coming years, the demand for permissible ways to dispose of organic waste will only increase.

Six commodities predictions for 2022

2 December 2021

The worldwide turmoil of 2020 is, in many ways, still with us, but the good news is that alongside the struggles, the commodities realm is seeing an immense number of opportunities. Here, we take a fast look at the six areas we think the commodities sector should be watching in the year to come.

Mexican president waives authorizations, permits and license requirements for government public works

23 November 2021

The decree declares that infrastructure projects are a matter of public interest and national security, as well as a strategic priority for national development.

New developments in the Mexican energy sector generate uncertainty

17 November 2021

A discussion of relevant measures, criticisms and comments.

Global Reporting Initiative updates its Universal Standards – revisions will affect ESG reporting by numerous businesses

3 November 2021

GRI 11 outlines topics likely to be material for oil and gas organizations and lists relevant disclosures, such as air emissions, climate adaptation, and water and effluents.

A summary: the CFTC position limits compliance deadline of January 2022

21 October 2021

Changes to the definition of a “bona fide hedging transaction or position.”

Five issues to watch for at COP26 in Glasgow

12 October 2021

Hopes had already been high for COP26 even before the pandemic paused it. The pent-up potential has only heightened those expectations.

New antidumping and countervailing duty petition: Oil country tubular goods from Argentina, Mexico, the Republic of Korea, and Russia – consequences for industry and downstream consumers

8 October 2021

US AD and CVD investigations can result in the imposition of substantial duties in addition to already applicable duties and tariffs.

President of Mexico files constitutional reform bill on electricity

7 October 2021

The result may include serious consequences for private investors in the energy sector in Mexico.

Biden Administration works to expand US offshore wind market

28 September 2021

The federal government moves forward assertively with an expanded leasing program aiming to double offshore wind production by 2030. Meanwhile, some states are acting too.

By any standard? Meeting sustainability commitments through credible carbon markets

13 September 2021

Operating in today's evolving voluntary carbon trading ecosystem.

Energy storage tax credits and climate goals: Latest developments in Washington

24 August 2021

To meet President Joe Biden's goal of achieving 100-percent carbon pollution-free electricity by 2035, the US is anticipated to need 100 GW of storage by 2030.

Infrastructure bill passed by the Senate would impose new information reporting requirements on cryptocurrency transactions

23 August 2021

If enacted, the bill would provide for significant investments in roads, bridges, ports, airports, electric grids, water systems and broadband.

Brazil: Bioenergy in the ESG context

22 July 2021

A look at Brazil's evolving approach to the sustainable use of environmental resources.

Episode 5: What should we expect from COP26?

6 July 2021

[THE CLIMATE TRANSITION PODCAST](#)

In this episode, we're joined by Ambassador P. Michael McKinley as we look ahead to COP26 and the best that businesses can hope for. Will this mark a step change in the energy transition? Are we putting too much faith in politicians to lead on that transition? How much can businesses lead and, if so, how much will COP26 help them?

Preparing for EMIR and Dodd-Frank: Our capabilities

8 MAY 2013

The European Market Infrastructure Regulation (EMIR) has been in force since 16 August 2012, however, in the first few weeks of 2013, the detailed technical rules implementing the regulation were finalised and came into force on 15 March 2013.

New York Assembly passes two-year fracking moratorium, while Illinois moves forward

11 MAR 2013

British government lifts year-old fracking moratorium

20 DEC 2012

The British Government has announced it is lifting its ban on hydraulic fracturing (fracking) to extract natural gas from shale deposits.

With revised proposed regulations, "fracking" returns to the fore of New York State's energy policy

11 Dec 2012

New York Governor Andrew M. Cuomo's administration has issued revised proposed regulations for high-volume hydraulic fracturing (fracking or HVHF) in New York State, a move that will avoid sending the entire process back to the drawing board.

Thinking strategically on pipe build-out for the shale boom

1 Oct 2012

Recent developments in horizontal drilling techniques have propelled natural gas production from shale formations to the forefront of domestic oil and gas production today. This rapid expansion is presenting opportunities and challenges for producers and pipeline developers seeking to capitalize on the need to move this gas to market.

The final countdown: Dodd-Frank compliance to begin as SEC and CFTC issue key rules re swaps activities

11 Jul 2012

CFTC issues two proposals affecting those engaging in swaps activities

10 Jul 2012

Marcellus Shale pipeline decision provides guidance on scope of environmental "cumulative impacts" analysis for projects requiring government approval

20 Jun 2012

The Second Circuit has issued a decision providing further clarity on the scope of "cumulative impacts" analysis required under the National Environmental Policy Act (NEPA).

CFTC approves commodity options final rule, establishing trade option exemption

30 Apr 2012

CFTC issues the first of the two rules that will shape the post-Dodd-Frank world

19 Apr 2012

On Wednesday, April 18, 2012, the Commodity Futures Trading Commission met and issued the first of the two "pillar" rules that will

shape the landscape of the CFTC's regulation of swaps under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Pennsylvania tightens rules for drilling in the Marcellus Shale

1 Mar 2012

Pennsylvania Governor Tom Corbett has signed into law Bill 1950, a set of amendments to the Pennsylvania Oil and Gas Act that set forth new standards and requirements for natural gas drilling operations in the Marcellus Shale formation in Pennsylvania.

States' regulations on Marcellus Shale gas extraction continue to take shape

30 Nov 2011

Marcellus Shale drillers face potential liability under Clean Air Act

5 Oct 2011
