F: +1 212 884 8510

Rich Reilly has a broad securities practice with an emphasis on CLOs and other structured finance transactions, securitizations and investment fund formations in the United States and Europe.

Rich has over twenty years of experience acting as counsel to arrangers, collateral managers and investors on US and European CLOs and other securitizations. His experience includes structuring CLOs and securitizations to comply with a variety of regulatory requirements including those imposed by the Dodd-Frank Act and the EU Securitisation Regulation.

In addition, he regularly represents investment advisors on the formation of private investment funds for the purpose of raising capital for investment in structured credit products including, among others, captive and non-captive CLO equity funds.

Rich has substantial CLO manager M&A experience having represented buyers and sellers in several transactions in the US and Europe.

In addition to his experience in the US CLO and securitization markets, Rich spent several years in London where he led the most active legal practice in the European CLO market from 2003 - 2011.

In the asset securitization area, Rich has represented issuers, arrangers, credit enhancement providers and servicers in a broad range of asset classes including solar, market-based lending, CMBS, RMBS, credit cards, trade receivables and asset-backed commercial paper.
