

## Renewables

We are at the forefront of the renewable energy market, advising sponsors, developers, financiers and regulatory bodies, among others, on transactions across the spectrum of renewable energy technologies, including hydro, solar, onshore and offshore wind, energy-from-waste, biomass and biofuels.

Our renewable energy lawyers have hands-on, practical experience of delivering each stage of a project, including planning, permitting, joint ventures and other corporate matters, structuring equity investment, developing project documents (such as PPAs, turbine supply agreements, EPC and O&M arrangements), project finance (including multi-source, ECA-backed financings) and M&A. We further advise our clients in relation to renewable energy support mechanisms, such as ROCs, LECs and CfDs in the UK, as well as statutory feed-in tariffs and other such mechanisms for both suppliers and end users.

### EXPERIENCE

#### Solar power and solar technology projects

- John Laing Investments Ltd on their first acquisition and development in the solar sector in respect of two 5MW solar parks in England acquired from Wirsol. Following the acquisition, we advised John Laing Investments Ltd on the refinancing of this project by Nord LB.
- The sponsor, a subsidiary of Eaga plc, in connection with the £235 million project financing for the UK's first large-scale rooftop solar PV project to achieve financial close in the UK.
- Landesbank Baden-Württemberg in respect of a PV project financing in Cornwall.

#### Onshore and offshore wind projects

- The lenders in connection with the project financing of the Red Cap Kouga wind farm in South Africa.
- The sponsor in connection with the project financing, provided by lenders including the EIB and the EBRD, of the 120 MW Margonin wind farm in Poland, the largest renewable energy project financing in Poland to date.
- A successful bidder for a Zone in the Round 3 Offshore Wind Farm programme in the United Kingdom.
- Nord LB on 7 separate on-shore wind project financings which have successfully reached financial close and advising Nord LB on a further onshore wind project financing.
- O2 Vind in relation to a 10 year PPA with Google for the entire output of a 72MW wind farm project in Sweden.

- Energy and Natural Resources

## Other renewable power technologies

- £650 million development of a 240 MW tidal-powered electricity generating station in Swansea Bay, South Wales.
- The lenders in connection with the project financing of the Mtkvari hydro power project in Georgia.
- Stobart Group on portfolio of investments in new biomass generating capacity of up to £500million.
- Drax Power Ltd on long term wood pellet biomass supply contracts, typically with North American suppliers.

## INSIGHTS

---

### Publications

#### **US DOC initiates circumvention inquiries against solar cells and modules from Cambodia, Malaysia, Thailand and Vietnam**

14 April 2022

Any additional duties could be applied retroactively to entries before April 1 and could be as much as or in excess of 250 percent of the price of the applicable CSPV cells and modules.

---

#### **Driving change: The decarbonisation of European transport**

1 April 2022

Our new study, in association with Acuris Studios, surveyed 100 senior executives of organisations based in Europe that have invested in European decarbonisation projects and/or technologies related to aviation, rail or shipping in the past 24 months.

---

#### **Economic drivers in Latin America: Key industry sectors and the rise of SESG**

1 April 2022

Overshadowed by the pandemic, Latin America's GDP growth results closed 2020 at nearly – 8%, while global GDP growth results closed at – 5%. The growth forecast for 2021 is at 4.1%, relying on the vaccination efforts across Latin America countries to combat COVID-19, as well as the many relief packages launched by the world's biggest economies to help emerging economies.

---

#### **Green Hydrogen in Chile: A Contribution to the Global Energy Transition**

1 April 2022

Nowadays we see governments around the world adopting decarbonization policies to transition their economies away from high-emission electricity generation and polluting manufacturing/production of goods and services.

---

#### **Projects Global Insight Issue 5, 2022**

1 April 2022

### **PROJECTS GLOBAL INSIGHT**

Welcome to the new issue of the Project Global Insights 2022. In some areas of the globe we are now seeing a gradual loosening of restrictions triggered by the COVID-19 pandemic, and stakeholders and governments across the world continue to focus on transport, infrastructure and clean energy investments to boost economic activities.

## Episode 3: Are corporates in the green driving seat?

24 May 2021

### [THE CLIMATE TRANSITION PODCAST](#)

We have seen growing demand from corporates to buy power from wind and solar projects. In this episode, we are joined by Phil Dominy from EY as we look at how current agreement in these power purchase agreements (PPAs) is driving significant corporate activity on fixing the climate crisis. Are PPAs delivering the action we need? How can corporates work closely with renewable operators to do more and do it faster? How can we grow PPAs beyond a handful of off-takers and countries?

DLA Piper · Corporate power purchase agreements: Are corporates in the green driving seat?
