

# Renewables

We are at the forefront of the renewable energy market, advising sponsors, developers, financiers and regulatory bodies, among others, on transactions across the spectrum of renewable energy technologies, including hydro, solar, onshore and offshore wind, energy-from-waste, biomass and biofuels.

Our renewable energy lawyers have hands-on, practical experience of delivering each stage of a project, including planning, permitting, joint ventures and other corporate matters, structuring equity investment, developing project documents (such as PPAs, turbine supply agreements, EPC and O&M arrangements), project finance (including multi-source, ECA-backed financings) and M&A. We further advise our clients in relation to renewable energy support mechanisms, such as ROCs, LECs and CfDs in the UK, as well as statutory feed-in tariffs and other such mechanisms for both suppliers and end users.

## **EXPERIENCE**

## Solar power and solar technology projects

- John Laing Investments Ltd on their first acquisition and development in the solar sector in respect of two 5MW solar parks in England acquired from Wirsol. Following the acquisition, we advised John Laing Investments Ltd on the refinancing of this project by Nord LB.
- The sponsor, a subsidiary of Eaga plc, in connection with the £235 million project financing for the UK's first large-scale rooftop solar PV project to achieve financial close in the UK.
- Landesbank Baden-Württemberg in respect of a PV project financing in Cornwall.

## Onshore and offshore wind projects

- The lenders in connection with the project financing of the Red Cap Kouga wind farm in South Africa.
- The sponsor in connection with the project financing, provided by lenders including the EIB and the EBRD, of the 120 MW Margonin wind farm in Poland, the largest renewable energy project financing in Poland to date.
- A successful bidder for a Zone in the Round 3 Offshore Wind Farm programme in the United Kingdom.
- Nord LB on 7 separate on-shore wind project financings which have successfully reached financial close and advising Nord LB on a
  further onshore wind project financing.
- O2 Vind in relation to a 10 year PPA with Google for the entire output of a 72MW wind farm project in Sweden.

## **Publications**

US DOC initiates circumvention inquiries against solar cells and modules from Cambodia, Malaysia, Thailand and Vietnam

#### 14 April 2022

Any additional duties could be applied retroactively to entries before April 1 and could be as much as or in excess of 250 percent of the price of the applicable CSPV cells and modules.

Driving change: The decarbonisation of European transport

#### 1 April 2022

Our new study, in association with Acuris Studios, surveyed 100 senior executives of organisations based in Europe that have invested in European decarbonisation projects and/or technologies related to aviation, rail or shipping in the past 24 months.

Economic drivers in Latin America: Key industry sectors and the rise of SESG

## 1 April 2022

Overshadowed by the pandemic, Latin America's GDP growth results closed 2020 at nearly – 8%, while global GDP growth results closed at – 5%. The growth forecast for 2021 is at 4.1%, relying on the vaccination efforts across Latin America countries to combat COVID-19, as well as the many relief packages launched by the world's biggest economies to help emerging economies.

Green Hydrogen in Chile: A Contribution to the Global Energy Transition

## 1 April 2022

Nowadays we see governments around the world adopting decarbonization policies to transition their economies away from high-emission electricity generation and polluting manufacturing/production of goods and services.

Projects Global Insight Issue 5, 2022

#### 1 April 2022

## PROJECTS GLOBAL INSIGHT

Welcome to the new issue of the Project Global Insights 2022. In some areas of the globe we are now seeing a gradual loosening of restrictions triggered by the COVID-19 pandemic, and stakeholders and governments across the world continue to focus on transport, infrastructure and clean energy investments to boost economic activities.

The Biden Plan: The most awaited infrastructure plan for the US

#### 1 April 2022

The need for an adequate infrastructure program for the US is well known. This program has taken several presidencies to see the light of day, but it finally took the form of a concrete and ambitious plan presented by the Biden Administration in March 2021 known as the American Jobs Plan.

'Boomerang' decommissioning liabilities for the oil & gas industry in Australia

#### 1 April 2022

Since ExxonMobil drilled Australia's first offshore well in 1965, Australia's oil & gas industry has developed, grown and matured, supporting Australia's energy security and generating significant economic growth.

The long-awaited solar panel tariff decision is here - key points for industry stakeholders

#### 10 February 2022

A still challenging path.

Blocking rights and the Texas wind power generation industry

#### 2 February 2022

Action steps and best practices for potential debtors, as well as for lenders, hedge providers, and equity holders.

California regulations on diverting organic waste go into effect January 1: new rules affect municipalities and food sector, bring opportunities for composting and biofuel businesses

#### 16 December 2021

As more regulations implementing SB 1383 come into effect in the coming years, the demand for permissible ways to dispose of organic waste will only increase.

Six commodities predictions for 2022

### 2 December 2021

The worldwide turmoil of 2020 is, in many ways, still with us, but the good news is that alongside the struggles, the commodities realm is seeing an immense number of opportunities. Here, we take a fast look at the six areas we think the commodities sector should be watching in the year to come.

Biden Administration works to expand US offshore wind market

#### 28 September 2021

The federal government moves forward assertively with an expanded leasing program aiming to double offshore wind production by 2030. Meanwhile, some states are acting too.

Winter Storm Uri: New Texas legislation aims to improve power grid, restructure the grid's overseeing agency

15 June 2021

The legislation responds to calls for sweeping change to the power infrastructure in Texas.

A long hot summer: Five steps for energy commodities traders in a time of heightened scrutiny

14 June 2021

Rising temperatures may exacerbate current market volatility, which in turn may lead to heightened regulatory scrutiny.

Whatever your sector, ransomware attacks are changing how to think about platform security risk: Action steps

14 June 2021

In an increasingly digitized economy, creating awareness of platform security risks is critical.

Fossil fuel industry and ESG; energy aspects of Biden infrastructure plan; floating storage can rule the seas or give you a sea of trouble.

Episode 3: Are corporates in the green driving seat?

24 May 2021

## THE CLIMATE TRANSITION PODCAST

We have seen growing demand from corporates to buy power from wind and solar projects. In this episode, we are joined by Phil Dominy from EY as we look at how current agreement in these power purchase agreements (PPAs) is driving significant corporate activity on fixing the climate crisis. Are PPAs delivering the action we need? How can corporates work closely with renewable operators to do more and do it faster? How can we grow PPAs beyond a handful of off-takers and countries?
