Frederik Ringoot practices in the area of commercial law, with particular focus on Data protection, soft intellectual property rights and IT. Frederik focuses on assisting clients with the implementation of the General Data Protection Regulation and regularly speaks on events regarding the GDPR.

Since 2013, Frederik has been assisting clients in several data protection related projects, drafting Data Processing Agreements, Privacy statements, internal Privacy policies and Data Protection Impact Assessments.

Frederik assisted several international clients with CRM-related issues, often emerging during "full-scope" GDPR projects.

As of 2018, Frederik joined DLA Piper and worked for several international clients in the B2B and B2C sector.

Frederik followed a Data Protection Officer certification course at the Data Protection Institute.
