Roberto Trionte focuses on finance and structured finance transactions. He advises a variety of financial clients, including arrangers, underwriters, issuers, originators and noteholders on their securitization transactions.

Roberto assists companies (or relevant arrangers) in relation to the issuance of commercial paper (cambiali finanziarie) and corporate bonds (including so-called mini-bonds) and their admission to trading on regulated and non-regulated markets.

Roberto also assists banks and companies in relation to the establishment and update of debt issuance programmes and stand-alone issuances of a wide range of securities (including EMTN, structured notes, certificates and covered warrants) and in connection with the related legal and regulatory aspects.

#### **New form of Italian securitisation transaction structure**

7 June 2021

The Italian securitisation law has recently been amended to extend its scope to transactions involving the granting of loans to a special purpose vehicle to finance the purchase of receivables. With this amendment comes the possibility to implement new transaction structures, and offering greater flexibility to investors.

#### **The Securitisation Regulation opens its doors to NPEs and synthetic securitisation**

7 June 2021

A review of the recently published amendments put in place to manage the risks of an increasing number of non-performing exposures following the COVID-19 crisis.

---

#### **Amendments to the Regulation (EU) 2017/2402 (the Securitisation Regulation) introduced by Regulation (EU) 2021/557**

20 April 2021

Regulation (EU) 2021/557 of 31 March 2021 (the Amending Regulation) introduced some amendments to the provisions set forth by Regulation (EU) 2017/2402 of 12 December 2017 (the Securitisation Regulation) to, inter alia, manage the risks of an increasing number of non-performing exposures (the NPEs) following the COVID-19 crisis.
